 This is February and several great events have occurred, especially one which happened 59 years ago—the birth of the hog editor on the 4th—Commercial Advertiser.
 How deeply we lament the fact that this great event did not occur two days earlier, thus permitting the citizens of this great and glorious country an opportunity of celebrating this said great event in connection with Ground Hog Day. As it is—with Washington's birthday, also, this month, makes it most enough "great events" as to be confusing.

 Our special meetings that just closed were a great success and there are only good words and best wishes for our brother Reiser. We did not see the number get into the kingdom that we had hoped to see, but we believe that we will see results later.
 We now settle down to the regular work and if we are to have the best results from the meetings it will be because we all settle down to work for the Master and his Kingdom as we never have before.
