There are pillows wet by sobs; there are gentle sensitive natures seared and warped; there are old time friends separated and walking their lonely ways with hope dead and memory but a pang; there are cruel misunderstandings that make life bare, these are but few of the sorrows that come from the crimes of the tongue.

Not every boy can be a rich man or a great man, but every boy can be a gentleman. A boy with gentlemanly manners, who is trusty and honest and does his very best every day, will gain the attention and confidence of men and will be given paying and responsible positions as soon as he is old enough to fill them. Boys like to have fun and a good time. It is right they should. They will never be boys but once, but to have fun is not altogether what they are made for. Boys are of value chiefly to make men, good for something in the world. Character like a house, must have the right kind of a foundation. The foundation stones of a good character are reverence for God respect and obedience to parents, deference for old people.

**HOW TO MAKE HOUSECLEANING EASY**

Don't wait until the first warm weather and then try to do everything in two weeks.

There are a lot of odd jobs that can be done during the winter evenings of January, February or March that you will want to do in April but won't have time.

For instance—look over your dining room, living room and bedroom furniture, etc., and see if they don't need brightening.

Begin now—Take one article at a time, wash it with strong soap, then sandpaper it smooth, and brush on the varnish. They'll be like new.

Pure unadulterated Chi-Namel flows out smooth, requires little brushing, and does not need an expert to turn out a perfect job of varnishing.

No brush marks—no laps. Colored Chi-Namel gives stain and lustre in one application.

Natural Chi-Namel gives gloss without changing the color.

A 50 cent can of Chi-Namel Varnish coats 100 square feet of surface.

We carry it in small and large cans—All colors and Natural.

ELEVEN YEARS EXPERIENCE

RED CLOUD, NEBRASKA

Makes Home Baking Easy

Next Tuesday is city election day. There are two non-partisan tickets in the field. The Chief gives its unqualified support to the business men's ticket for two reasons. First the present administration has made good. The present officials were selected last year by the business men of the city to give us a business administration and they have done all that could possibly be expected of them to do. They have saved the plant at the power house. All that expensive machinery that had cost the tax-payers of this city thousands of dollars was in a good way of soon becoming good only for the scrap heap. The boilers were defective, the steam pipes leaked at nearly every turn, there was waste in every operation and the entire plant had a run down appearance.

The plant is now in first-class condition. The boilers have been re-set and about a ton of coal saved per day; the steam pipes have been re-cut and re-fitted, the two water pumps repaired and they are now practically as good as new. The plant looks as tho it were owned by a prosperous concern. Everything about the power house now has the appearance of thrift and economy and anyone can see that conditions are better than anytime since Charlie Whittaker left. The plant is saved.

This administration abolished the ten per cent reduction on bills for light and water and thus saved a snug sum for the city. The city is now paid for what it furnishes to consumers. By relieving the Commissioner of the duties of making out statements and collecting the bills he is now able to devote his entire time for the up-keep of the light and water system—this is a big advance over former methods.

This administration succeeded in connecting the Maurer springs with our city water supply at a time when those springs seemed to be lost. This result was accomplished without the expenditure of one dollar of city funds. Monthly statements of the financial condition of the city have been regularly published and by keeping these by themselves any city could tell just what was being done with the money. This administration has not indulged in the luxury of quarrels and deadlocks. Business has been transacted in a business like manner, each member of the council has spoken his opinion freely and the result has been beneficial to the city.

This administration has paid off about four thousand dollars of previous indebtedness and have paid their own bills from time to time so that we are now practically out of debt. There may be a hundred dollars but the amount is inconsiderate. We have dreamed for years of the time when the city would be out of debt and now that our dreams are to be a reality we should endorse the acts of the business council by retaining them in power.

The second reason why we favor the business men's ticket is because in this election there is absolutely no issue between the two tickets.

**WHAT'S THE PRICE OF A GOOD SUIT OF CLOTHES?**

**T**WENTY-FIVE dollars. You can buy our clothes for less than that—\$20, \$18, \$15; you can pay more than that—we have very fine clothes at \$30, \$35, \$30. But \$25 is a good average price; most men who appreciate good quality and style in clothes, good tailoring and fit, are willing to pay as much as \$25.

**Hart Schaffner & Marx**

suits at \$25 will surprise you. You'll get all-wool fabrics; trimmings, linings and other materials of a high grade; tailoring of a very high order—the things that make a suit wear well, and shapley. You'll get the value of best style standards and originality of design; you'll get clothes that fit you well.

And you'll gain from \$10 to \$20, either in greater value at the price; or lower price for similar value.

Better see how true this is: \$25 is a price you can afford, and you'll say so when you see the clothes. Better come and look at the new spring styles
