

# Silks and Embroideries

To be in style this year it is essential that you have a dress made of one of the above named goods.

That our silks have merit is shown by repeated sales to the same customers. Our dollar grade of

**Messaline, Charmense and Brocade** is without doubt the best on the market at that price.

## Embroideries

is Our Middle Name

The line is complete, the quality is the best. We have 45-in Flouncings at

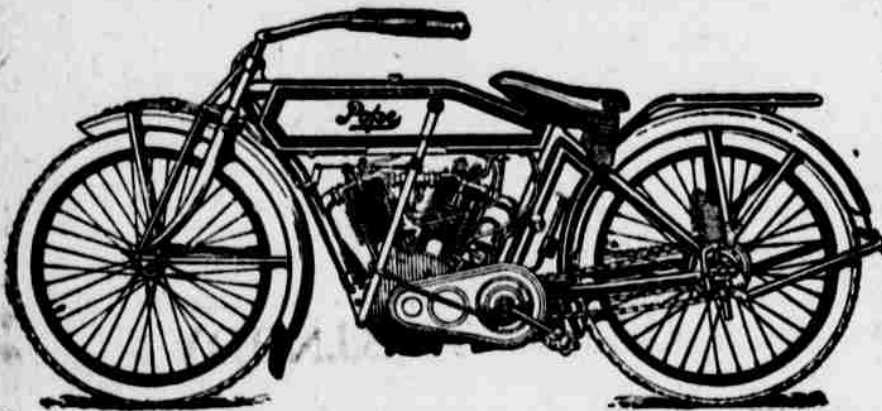

**\$1.25 to \$3.25 Per Yard**

You can't be well dressed unless you have a fine embroidered dress.

### BATIN

John Pavlick butchered a hog last week.

The weather is a little snowy and winterish

Will Kudrna was in Guide Rock Wednesday.

John Pavlick bought a fine team of mares last week.

Louis Knezinek of Crete is going to work for Louis Vavricka this summer.

Louis Vavricka returned from Lincoln and other eastern points Saturday.

Frank Vavricka returned from Kansas City Wednesday where he shipped stock.

M. Vavricka and son Wille and wife and Mr. and Mrs. Jos. Jelinek took dinner with Louis Vavricka's Sunday.

### KANSAS PICKUPS

(From Smith County)

Mrs. Marge Holliman of Colorado Springs is here visiting relatives.

Jesse Green sold a car load of hogs to V. Bell, the Lebanon hog buyer, last Tuesday.

Mr. and Mrs. Albert Masterman spent Sunday at the home of Chas. Hooper's.

Good Friday is passed, but we do not hear of many potatoes being planted on that day.

Mr. Eardman of Smith Center was the guest of his daughter Mrs. Flora Shrader a portion of last week.

We notice that Sam Asbury and John Anshutz are breaking alfalfa ground on the T. S. Spurrier place.

E. E. Spurrier shipped a car load of hogs and cattle to Kansas City Monday and he accompanied the same

Mrs. John Dick has returned to her home on Crystal Plains after a week's visit with her sister Mrs. Bert Payne.

We are glad to report that Prof. T. H. Hooper of Yuma, Colo., who is in the St. Joseph hospital at Denver, Colo., with a broken leg, is improving as well as could be expected. Mr. Hooper spent his boyhood days in this neighborhood and became Professor of the Smith County High school. He went to Yuma for the benefit of his health.

### GARFIELD

Pete Manley is working on the Kaley ranch

T. W. White and Will Fisher were hauling hay on Monday.

George Smith bought a mule in town Saturday to mate his old one.

L. C. King was down from Gibbon last week and made a short visit.

The wind has been blowing the dust in great shape for the last few days.

A heavy snow storm visited Garfield Tuesday and stopped business on the farm.

Tom Hawkins shipped a car of hogs to market and is visiting in Kansas this week.

Clyde Simpson was on wind mill row Sunday shooting ducks or rather hunting ducks.

Guy Barnes and Frank Amack hauled corn Saturday. They had a car load shipped in.

Mrs. Clara Sullivan returned to her home at McCook last Friday after a visit at Will Fisher's

Smith Bros., hauled in a carload of hogs on Saturday and shipped them to market on Sunday.

Grandma Ailes and Ethel Fisher were quite sick at Will Fisher's Saturday night and Sunday.

A small outfit of Indians passed along wind mill row Monday which was quite a sight to the children.

Guy Barnes and wife went down to Guide Rock Sunday to visit Mrs. Barnes' parents. Guy came back Monday and his wife will stay a while.

### Notice of Probate.

In the County Court of Webster County, Nebraska.

STATE OF NEBRASKA, ss.

Webster County,

To all persons interested in the estate of Mary A. Heaton, Deceased:

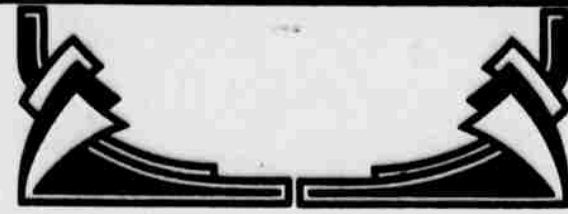

TAKE NOTICE, that a petition has been filed praying that the instrument to be filed in this court on the 5th day of April, 1913, purporting to be the last will and testament of said deceased, may be proved and allowed and recorded as the last will and testament of Mary A. Heaton, deceased; that said instrument be admitted to probate, and the administration of said estate be granted to John W. Kinsel as Administrator with the will annexed.

It is hereby ordered by the court, that all persons interested in said estate appear at the County Court to be held in and for said county on the 5th day of April, 1913, at ten o'clock A. M., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Red Cloud Chief, a legal weekly newspaper printed in said county, for three consecutive weeks prior to said day of hearing.

Witness my hand and the seal of said court this 19th day of March, A. D. 1913.

(SEAL) A. D. HANNEY  
County Judge.

# CREAM SEPARATOR TALK

That dairying is one of the most profitable branches of farming, is, and has for a long time, been a well known fact. Not only in that it keeps the fertility of the soil at home, where it may be used to produce other crops, but also for the fact that it provides the farmer with a weekly cash income from the sale of butterfat. That the farmers of this vicinity are aware of the benefit to be derived from this source, is apparent by the high prices which are being paid for milk cows. After investing \$75.00 or more in a milk cow, why not derive the full benefit from such a purchase by the use of a good cream separator? In this article we wish to present to you the RUMLEY-OLDS cream separator, which has no superior on the market. This separator is of the disc type of machine, which is recognized as being the best type and has many superior points over other machines. The makers have not figured how cheap, but how good they could make a cream separator, and every feature to be found on this machine are considered the acme of cream separator construction. Some of the points to be found on this separator are the helical gears, reversible phosphor bronze worm wheel, ball bearing contact points on bottom and top of bowl spindle, noiseless roller ratchet which engages instantly at any point, large milk supply can with no sharp corners (easily washed and kept clean) split wing for milk distribution in bowl with patent wings which distributes milk evenly to all discs alike (therefore allowing of closer skimming and less discs than other machines of like type, also allowing of slower speed and prevents milk from foaming and thereby being dangerous to feed to calves). Call and see this machine and be convinced. We are willing to allow you to try this machine in competition with any other make of separator in the market. ONE TRY WILL MAKE YOU BUY.
