A petition was being circulated the first of the week by some of the leading business men of Red Cloud and backed by the Chamber of Commerce, which is to be presented to the Burlington officials, asking for a new depot and a great effort is to be made to have the same located up town. Red Cloud has long ago outgrown the present railroad accommodations, which are found at this place, and its patronage is of sufficient consequence as to entitle it to more consideration at the hands of the C. B. & Q., than has been its proportion here-to-fore. A new depot located up town and an express and telegraph office, also, would give new life to the place, and as a spring tonic we can think of none other which would come as near filling the bill. Here is hoping we may soon see our dream of years realized.

The Fisher-Shipp Concert Company held forth at the Opera House on Saturday evening, filling the last number of the Lecture Course. This was their second appearance this season but giving an entirely different program, which was greatly enjoyed by the large audience present. Out of the Omaha Cyclone Will Come New Metropolis

Omaha, Neb., April 1st. Order and system is rapidly being developed out of the chaos which followed the tornado, which struck the residence section of Omaha last Sunday night. Never in the history of great catastrophes has such system been developed in such a short time. Within less than 48 hours after the destruction, permanent relief stations were established throughout the district and hundreds of families were supplied daily.

Omaha is making a grand effort to handle the situation. Her business men have rallied to the city and have given of their time and money. Plans are being made for the restoration and rehabilitation of the district. A company will be formed which will finance all cases where assistance is needed and in less than six months the entire tornado district will be replaced by better homes than those which featured the district. The path was about four blocks wide and four miles long and over 1700 homes were either entirely destroyed or badly wrecked.

The known dead now totals 136 in Omaha and immediate suburbs. It is possible that this is the total list. The injured number 402, many minor bruises.

Especially gratifying has been the tenders of assistance from the various towns and cities of the state. The generous attitude of the people of Nebraska has been the subject of many complimentary resolutions by the Citizens Relief Committee, composed of C. C. Rosewater, E. F. Denison, John J. Ryder, J. M. Guild, T. J. Mahoney, Dan B. Butler, Father John Williams Thomas Byrne. This committee has absolute charge of all details and has evolved a wonderful system.

Contributions from all cities in the state are being gratefully received and are being distributed where they will do the utmost good. The permanent restoration of the city will be taken up in detail by a committee composed of W. H. Buckholz, Casper Yost, John L. Kennedy, Harry Tukey and other members of the Commercial Club.

HOW TO MAKE HOUSECLEANING E A S Y

Don't wait until the first warm weather and then try to do everything in two weeks.

There are a lot of odd jobs that can be done during the winter evenings of January, February or March that you will want to do in April but won't have time.

For instance—look over your dining room, living room and bedroom furniture, etc., and see if they don't need brightening.

Begin now—Take one article at a time, wash it with strong soap, then sandpaper it smooth, and brush on the varnish. They'll be like new.

Pure unadulterated Chi-Namel flows out smooth, requires little brushing, and does not need an expert to turn out a perfect job of varnishing.

No brush marks—no laps.

Colored Chi-Namel gives stain and lustre in one application.

Natural Chi-Namel gives gloss without changing the color.

A 50 cent can of Chi-Namel Varnish coats 100 square feet of surface.

We carry it in small and large cans—All colors and Natural.
