

**GOOD YEAR**

See the Good Year Casings and Tubes before you buy. We handle all sizes and carry a large stock. You want to remember that the Good Year people made a reduction on the 1st of April of 10 per cent on all of their castings and tubes. It is not very often that a Good Year casing or tube goes wrong, but when you do you will find their adjustment very satisfactory. We also carry a good stock of Presto Tanks for exchange and can show you the famous Presto Inflator, which can inflate your tires for you with less work and very little expense.

Get Polesine oil to lubricate your cylinders and Panhard oil for your transmission and your car will run smoothly and with less wear. The best oil is none too good for a car.

We invite you to come and see us, when in the village.

**Stickney Gasoline Engines ARE THE BEST**

**57 Reasons**

Stickney's Catechism is a guide to Engine satisfaction—it states 57 reasons where the Stickney Engine excels all others in its outside igniter, straight line valve motion, perfect cooling system, automatic mixer, ball-bearing governor, in the quality of its material and the accuracy of its workmanship. We want you to have one—They are free—Come and get one.

**Land Owned By Nebraska**

Outside of school lands and lands under the control of the regents of the University, Nebraska is the owner in fee simple of 3,598 acres of land which is in use for institutional and state purposes, divided as follows:

	Aeres.
Asylum, Hastings	621
Asylum, Lincoln	700
Asylum, Norfolk	330
Deaf and Dumb Institute, Omaha	23
Feeble Minded Institute, Beatrice	222.82
Girls School, Geneva	40
Governor's Mansion, Lincoln	38
Industrial Home, Milford	38
Industrial School, Kearney	320
Institute for the Blind, Nebraska City	7.34
Normal, Chadron	83.66
Normal, Kearney	23.92
Normal, Peru	59.57
Normal, Wayne	13.01
Orthopedic, Lincoln	2.83
Penitentiary, Lincoln	205
Soldiers' Home, Grand Island	640
Soldiers' Home, Milford	37
State Capitol, Lincoln	11.00
State Fair, Lincoln	123.70
Tuberculosis Hospital, Kearney	15

This list will be enlarged during the year 1913 as the legislature has provided appropriations, to become available in July, as follows:

\$150,000 for a State Reformatory (a part of which will likely be used for land).

\$8000 for additional land for State Fair.

\$40,000 for additional land at Boys' Industrial School at Kearney.

**State Boys' and Girls' Short Course**

A Short Course in Agriculture and Domestic Science was held for the State Boys' and Girls' Clubs at the State Farm during the week of April 28-May 3. Representatives for this Short Course were chosen by the County Superintendents in their respective counties, two boys and two girls being the desired number from each county.

Owing to the rush of farm work the attendance was not as large as it would have been. However, there were twenty-six girls and twenty-four boys present for the week. These represented practically all sections of Nebraska. Four were in attendance from Cherry County, a distance of some four hundred miles from Lincoln. Four others, representing Lincoln and Dawson Counties, came in from Farnam, a town two-hundred miles west of Lincoln on the High Line. Phelps, York, Hamilton, Madison, Boone, Merrick, Chase, Nemaha, Polk, Saline, and Platte counties were represented by delegates. Franklin County had the largest number of delegates present—Mrs. Erfman, the County Superintendent, bringing in eleven.

The Short Course opened on Monday with regular classes. That evening a reception was tendered the children at the University Farm. Each evening during the week some special event was arranged for the delegates, including several picture shows and an evening at the Y. M. C. A. and Y. W. C. A. respectively. The girls received work in cooking and sewing. In the sewing department each girl made a dress for herself. The boys' work consisted of stock judging, farm machinery, dairying, and similar practical subjects. Upon Friday afternoon the delegates were all taken out and shown through the State Penitentiary. Upon returning they were taken to the State Capitol where Governor Moorehead addressed them for a few minutes, also Secretary Mellor of the State Board of Agriculture.

The Short Course was in charge of Miss Huldah Peterson, of the Department of Agriculture Extension, who is also Assistant State Leader of the Boys' and Girls' Club Work. Principal Bradford, of the School of Agriculture, managed the boys and kept them busy throughout the week.

**Conference on Marketing And Farm Credit**

The National Conference on Marketing and Farm Credits which met in Chicago early in April seems to have started something. We have known that the cost of living is high, but American-like, we have paid the price asked for the goods, grumbled a little bit sometimes when we paid the monthly bills, and talked about the enormous profits of the producer. The conference speakers admitted that the consumer is paying a high price for goods but offered definite proof that on the average only about forty cents of each dollar goes to the producer.

Instance following instance was cited of fruits and vegetables retailing at such high prices as to curtail consumption, while carloads were allowed to rot on the producers' hands because they could not be marketed.

This conference by focusing attention upon the real causes of high cost of living has set both producer and consumer to thinking. The result will undoubtedly be greater attention paid to co-operation in buying and selling, and the shortening of the route that food products must travel.

**Price-Per-Thousand On Building Lumber**

is not infrequently used by manufacturers of substitutes to confuse prospective home builders, but to the man who knows quality, the characteristics of the different favored building woods and their proper application, this bugbear causes little apprehension. We've helped many builders right here at home beat the building game to a frazzle and can help you too if you'll bring your plans in or tell us just what you contemplate doing. Selling lumber is only a part of our business—the personal service we render our customers being of equal importance—but we're willing to donate this service for the sake of the community and the endorsement of our customers. Before making your final decision on your new house come in and get at first hand the real facts about this lumber business and just what "price-per-thousand" means to you.

**DON'T FEED CREAM TO THE CALVES**

If you are skimming your milk by any setting or dilution method or are using an inferior or worn out cream separator you are surely feeding a lot of butter-fat to your calves and pigs that is worth from 25 to 30 cents a pound.

You may think this is too small a loss to amount to much, but when you figure that it happens twice a day, 365 days a year, you will find that a De Laval Separator would save its cost every six months over any kind of "gravity" skimming and every year over any inferior or worn out separator.

**Get a clean skimming DE LAVAL Cream Separator**

as soon as you can and get all the money that is coming to you from the product of your cows.

We can make you a liberal allowance for your present separator, if you have one, and, if more convenient for you, can also arrange for a partial payment at time of purchase and balance on easy payments. If you want to see for yourself just how much more cream you can get with a De Laval let us set up a machine for you and have you try it out for yourself. Just phone or drop us a postal and we will be glad to bring a machine out to your place.
