He was too sick to work. His skin was yellow, and there didn't seem to be an organ in his body that was not affected.

"I told him I felt sure his sickness was due to coffee and after some discussion he decided to give it up. "It was a struggle, because of the powerful habit. One day we heard about Postum and concluded to try it and then it was easy to leave off coffee.

"His fearful headaches grew less frequent, his complexion began to clear, kidneys grew better until at last he was a new man altogether, as a result of leaving off coffee and taking up Postum. Then I began to drink it too. "Although I was never as bad off as my husband, I was always very nervous and never at any time very strong, only weighing 95 lbs. before I began to use Postum. Now I weigh 115 lbs. and can do as much work as anyone my size, I think."

Name given by Postum Co., Battle Creek, Mich. Write for booklet, "The Road to Wellville."

Postum comes in two forms. Regular Postum (must be boiled.) Instant Postum doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water, which makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream. Experiment until you know the amount that pleases your palate and have it served that way in the future. "There's a Reason" for Postum.
