Begin now to get ready to attend the Farmer's Institute. The program this year is a hummer and you certainly ought not to miss a single session. The premium list has been prepared and the gifts are generous. Let us make this year's effort the best ever We can if we will and the officers are doing their part.

The citizens of any prosperous town are always public spirited and united. failures, but help to make every enterprise a success, be it great or small. Be energetic and enterprising and your the practice. example will be imitated.

The greatest problem that confronts our people at the present time is that of dogs. In the language of our forefathers, there are dogs, more dogs and Jots of dogs; in fact a stranger visiting our city and un-acquainted with the color of our population, would declare without hesitation, that he had got off st an Indian Village, where there are always ten dogs to every Indian. What is to be done to rid our city of dogs, is something that the present council should busy itself with.

Sincere sympathy goes out to the Odd Fellows of Superior by reason of the unfortunate fire loss which they sustained last Saturday night. The fire not only destroyed their new hall bat it consumed nearly all of their expensive regalia, their records and other valuable assets. The loss will be in the neighborhood of eight thousand dollars. How the fire started remains . mystery. It is a fortunate thing for our sister city that her firemen so ably confined the flames to the one building.

Speaking of advertising: There is no business that cannot be increased and benefited by advertising. No class of advertising pays as well as a well written newspaper ad. There is no work you could do that would bring you as great returns as to use thirty minutes time each day in the study of advertising, if you are in business. The great trouble with most advertisers in a country town is that they write years!" an ad invoicing their stock in trade and expect by letting it stand week ing." after week in the country newspaper to get direct returns from it.

THE RED CLOUD CHIEF former deliberations were taken up with civic improvement matters but regardless of the name such an organization ought to be kept in a flourishing condition. What this community needs more than anything else is an opportunity to discuss its own affairs. We have no public opinion and no

means of finding such a thing. We need to talk about our city affairs, our school affairs, our needs and our wants.

President Wilson has occupied the executive chair eight months and the country has had an opportunity of testing his ability and statesmanship. Practically the entire country is well pleased with his behaviour so far. He has shown that he knows what he wants and that he is mindful of the

people's rights No serious blunder can be laid at his door, he has care-Stand together, work for the interests fully avoided and unpleasant foreign of the whole town. Always stand entanglements, has kept his party ready to do your part. Don't grumble united and has "done things". He has and spend your time in prophesying shown that a "school teacher" can be efficient if given the opportunity. He had the theory before and now he has

> Regardless of political affiliations President Wilson has earned the respect and admiration of our people; that he will continue to direct the ship of state carefully and skillfully goes without saying. He has had many trying situations thrust upon him but he has emerged each and every time with the laurels all his own. There is no question about Woodrow Wilson being president.

"She did?"

"Get me, kid?" "Nothin' doing." "Dig in, John!" "Get busy, kid!" "What's trump?" "Oh! Hell-O." "Yes, she's well." "Let George do it." "Give me a Nebo." "I don't believe it " "I played the low." "I'll take a chance." "Oh, you mustard!" "Don't care for a thing." "Thanks, I have enough." "Pass the pickles, please." "Ain't you the dolly boy?" "No, thanks; I just had supper. "What's this, cinch or seven-up?" "We got the rag out didn't we?" "How much do 1 owe you now?" "Do you belong to the Gim'me Club?" Comparison with similar articles sold elsewhere in this city will invariable prove that our prices, when values are considered, are the lowest obtainable.

Then there is the additional advantage of selecting here the very latest word in style, for certainly there is no other style organization producing such authoritative garments as Wooltex.

For this wonderful styling ability we make no extra charge, and yet when your friends see you in a Wooltex coat or suit they give you credit for having paid many times more for it than you really paid.
