Frame Construction Is Most Preferable

for home building not only on account of its economy, but because of its adaptability to changing conditions. Homes built of wood are easily moved from one location to another; they can be altered or enlarged without injuring their general appearance for the reason that painting will make the old look as good as the new. Instead of painting being considered an expense it should really be held as an improvement because it freshens up the whole appearance of your home, and instead of ultimate decay and deteriorated value as is the case with substitutes that can only be renovated by building a whole new house, your home becomes constantly more valuable. This is only one of the little things to consider when building a home. "Little drops of water, etc., make a mighty ocean." Come in and we'll tell you more about lumber.

Did Not Live Up to It.

Our high appreciations and even our expressed desires are not always indices of our character. "Let me die the death of the righteous," was the prayer of Baalam. And then he went right away and joined himself to the heathen and was slain by a righteous man.

Forest Notes

To secure a merit badge in forestry, boy scouts are required, among other things, to identify 25 kinds of trees.

One of the principal by-products of the national forests of Japan is furnished by mushrooms, which have yielded in one year a revenue of a million dollars.

Articles of clothing from wood fiber are being made in Europe. The material for a suit costs about fifty cents. Clothing made of this material, however, can not be washed.

One of the largest and most valuable timber trees of the country is the tulip tree, known to lumbermen as yellow poplar. It is related to the magnolias, but is the only tree of its kind in the world.

The largest tree in the United States is said to be the "Mother of the Forest," a giant redwood in the Calaveras bigtree grove in California. It is supposed to contain 140,619 board feet of lumber. There are, however, many claimants for the honor of being the "largest tree" and the "oldest tree," and these claims, according to foresters, can not always be verified.

To Improve Pretty Hair And Beautify Ugly Hair

Harmony Hair Beautifier, a delightful liquid hair dressing, is just what it is named—a hair beautifier. No matter how pretty your hair now is, it can be made to look even better by using Harmony Hair Beautifier. To those who mourn because the hair is stringy, dull, lustreless and homely, Harmony Hair Beautifier will prove a real blessing and pleasure. It seems to polish and burnish the hair, making it glossy, silky-soft and more easy to put up in graceful, wavy folds that "stay put." It overcomes the oily smell of the hair with a dainty, true rose fragrance, very pleasing to the user and those around.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.—H. E. Grice Drug Co., Red Cloud, Nebr.

Council Meets

The city date met last evening with Mayor Saunders present, and councilmen Foe, Crans, Cowden and Storey present.

Minutes of previous meeting read. Guo. Trine appeared before council and complained of last quarter water charges. Mr. Zeigler reported meter tested correctly and reading correct. Council made no change.

Report of S. R. Florance read and ordered placed on file.

Vote of special election canvassed. City Attorney Munday asked the council to appoint committee of two to go over the revised ordinances before presenting them to council. Mayor appointed Cowden and Crans.

Water question on Smith wells was brought up and discussed.

Moved by Storey and seconded by Foe that \$494.21 be transferred from the judgment fund to occupation fund. Carried.

The following claims were allowed:

S. R. FLORANCE, City Treasurer

Nebraska and Omaha Show Great Increase in Business

That Nebraska and Omaha are showing an increase in all lines of business is reflected by the bank clearings of Omaha, which indicate the activity of the business world.

This section is one of the few in the United States which is able to show an increase this year over last year's business. Many of the larger cities of the west and south are feeling the effects of crop failures and other failures, but Omaha stands out prominently among the few which are able to show an increase.

It is a wonderful tribute to Nebraska to show an increase in general production where most states are showing deficits

As an indication of the general prosperity of the state, the bank clearings of Omaha have shown an increase of from seventeen to twenty-five percent during the year. Deposits have shown a corresponding gain, all of which means more money. The deposits in Omaha banks on October 31, were \$60,347,831, more than one million dollars more than on the corresponding date last year.

Loans are practically one million less, showing that the people of Nebraska and Omaha have the money in the bank.

November Farmers' Institutes

Nineteen Nebraska towns will hold Farmers' Institutes and Short Courses during the month of November with a total of forty-two days' work. In the month of October nineteen towns held meetings with a total of forty days' work. This makes, for the first two months in the season, thirty-eight towns and eighty-two days' work. An average of six lectures per day will be given, so this makes an average of nearly five hundred lectures for a start. The attendance at the Institutes so far has been remarkably good—better than during any previous season.

FURNITURE

We have all the latest designs of staple articles, and can fit you out, from parlor to kitchen. The prices are right too. Come in and see.
