TRUTH FROM YOUTHFUL LIPS

Not Exactly the Answer Spinster Ex pected, but It Came From the Heart.

A middle-aged spinster who lived in the suburbs had a fine orchard. She likewise had a heap of trouble with a lot of youngsters, who looked on the orchard as something placed there for their especial benefit.

Finally the spinster decided that she could do more with kindness than with a fence rail, so she prepared a feast of apples and other dainties and invited every small boy in the burg to join the jubilee.

"Now, tell me, boys," said the hostess at the conclusion of the feast, "would the apples you have just eaten tasted so good had you stolen them?" "No, ma'am," answered little Willie Smith, with surprising frankness.

"I am certainly glad to hear you say that, little man," responded the spinster, with a glow of pleasure. "Why wouldn't they have tasted so good?"

"Because," came the equally frank reply of Willie, "we wouldn't have had no ice cream and cake with them."
