MONEY AND STOCES. New York, July 16.

The events of the week in financial circles were quite interesting. Money was easy with the ruling rates for call loans during the week from 2½ to 3½ per cent.

Foreign exchange was dull and unchanged throughout the week at 4 82½@4 85%.

Government bonds were a fraction low er in early dealings, but subsequently be-came firm, and the decline was fully or partly recovered

Railroad and miscellaneous speculations were depressed during the first half of the week, and there was a general decline in prices, led by trunk lines, Grangers and some of the roads recently admitted to the stock exchange. This was followed by a sharp recovery in prices and increased ac-tivity, most of the stock which figured in the decline being prominent in the im-provement; towards the close, however, another decline took place on an injunction against the payment of Western Union dividends, but in late dealings there was a

OFFICE OMAHA BER, Saturday Evening, July 16. During the week the weather has continued very sultry and oppressive, and has to some extent affected trade.

In dry goods circles business has been very good. The closing of the first half of the year is usually a quiet time with dry goods jobbers. The sales, however, were far ahead of any corresponding time in former years. It is gratifying to be able to say that notwithstanding the adverse conditions of the weather during the early part of the year and the late opening of the spring trade, the sales for the past six months just closed have never been excelled in any former year, and the general result highly satisfactory to the trade. Stocks are also closely sold up, hence jobbers will have an unusually small per centage of stale and undesirable goods on hand when the fall trade opens. The tone of the market for all standard makes of bleached brown and colored cotton fabrics is healthy and firm, and many favorite lines very scarce. Prints, ginghams and checks are meeting a light order demand, Summer dress goods are meeting a fair average sale at steady quotations. Fall stocks are now being placed on the counters, and everything is being put in readiness for an active fall trade. Woolen goods oufet, but stocks held with increasing confidence that is fully justified by the advancing prices of wools, which are now higher in proportion than the manufactured goods. White goods, gloves and hosiery are steady and in fair request. Prices throughout unchanged.

A FOOL ONCE MORE.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbug stuff. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more I tried it, but my folly proved to be wisdom Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars Such folly pays.—H.
