The stock market to-day was strong and buoyant, during the greater part, and there was a sharp advance in prices. There was an active buying movement, and this, together with general belief prevailing that trunk line difficulties are near adjustment, accelerated the upward turn, although some stock lost a fraction of early advance. Near the clo-e prices for leading shares in closing dealings showed an, advance for the day of from 1 to 3 per cent., while Memphis & Charleston showed an advance of 10 per cent. The features of the dealings to-day were the trunk lines, Western Union, Milwaukee & St. Paul, Northwestern, Pacific Mail and coal shares.
