FINANCIAL.

Financial Review. New York, August 20. The financial review events of the week in financial circles have been quite imporin financial circles have been quite impor-tant. At the opening the money market worked easily, but toward the middle of the week with great stringency. At one time borrowers on call had to pay 31-16 per cent, per day and interest for loans. Toward close, however, the market became comparatively easy, and in some instances loans were made as low as 3 per cent. Foreign exchange was dull and weak, and rates were reduced to 4 82/2/4 84. Govern-ment bonds were weak and decline frac-tional. Miscellaneous so culation was de-pressed almost throughout the week, and tional. Miscellaneous spiculation was de-pressed almost throughout the week, and in some cases with a marked decline in prices. In the early dealings the market was affected by the relapse of President Garfield and by the continuancy of trunk line difficulties, but later on the great stringency in money added weakness and an increased pressure to sell. The highest quotations were made at opening, and the quotations were made at opening, and the lowest near close, the decline having ranged from 2@5 per cent in the general list. A heavier decline was marked in Denver & Rio Grande, which fell off 10@12 per cent. Toward c ose the market was firmer in tone and showed some recovery from the lowest point. In the final sales depression again prevailed, and the lowest quotations of the week were made in many instances.

Amie Con... .. 39 California ..... 115 Cen'tlArizona. 215 CHICAGO MONEY MARKET.

To-day money was in good supply and with a very fair demand. Rates were steady and unchanged. Eastern exchange was weak at \$1 discount, and currency was ordered from New York. A large amount of currency and gold was expressed to country points. The clearings of the associated banks were \$8,300,000. CHICAGO, August 20.

Omaha Wholesale Market OFFICE OF THE OMAHA BEF, } Saturday Evening August 20. WEEKLY REVIEW.

Business has been good in all lines during the week, especially for the season of the year. In fact the volume of sales, which has been in excess of any previous summer, has been well sustained during the week now ended. All classes of merchandise have shown liberal and active sales, the leading houses in these lines being very busy. There has been very little diminution of traffic since the summer opened. Sales of dry goods are a little less in quantity than they were a week ago, as country merchants are generally waiting crop outcome before replenishing stocks. Dry goods in fair sale; hardware active; building materials selling liberally; lumber in very active demand; boots and shoes' season fairly opened; drugs and paints selling handsomely; linseed oil has advanced during the week 2c for raw and 2@3c for boiled; castor XXX advanced 10c, and No. 3 advanced 10c; turpentine 7c

higher. Banking has been more active in cash transactions than in the matter of loans. The borrowing demand for money has been light, yet a good deal of money is being handled, as the merchants and banks being handled, as the merchants and banks are receiving heavy remittances. Currency is generally flowing into this market 40; Kirk's magnolia, 4 75; Kirk's Eutoca, 2 05; Kirk's Prairie Queen, (100 cakes), 3 freely, and country bank balances are piling up. But very little return currency is going into the country just now. Bank collections are promptly made, and merchants are receiving cash freely from their customers. As yet their is no material demand for money by country banks. Counter business at the city banks is very active in deposits and checking. Many of our merchants are paying cash for the goods they are now purchasing, and consequently there is a good inquiry for eastern exchange, but the general supply in the market is well sustained. The money market is easy in tone, with the banks seeking good paper.

The grain markets have been very strong during the week. Wheat has been in good demand and closed 91c higher than last Saturday. Corn is booming and closed 8c higher. Oats unsettled, advancing 3@5c during the week, but closed 1@ 2c lower than last week. Barley has been dull all the week, and prices nominally lower, until to-day, when prices advanced 12c. Rye advanced 11c. Ground feed closes firmly held. Corn meal steady, Branquiet and firm. Baled hay very dull all the week.

Choice butter is ruling very stiff; lower grades steady and quiet. Eggs advanced 1c during the week. Dressed meats not

candles 1611e higher. Canned goods firm and mostly unchanged.

Lumber has been firm at last week's quotations. No further raise is expected by lumbermen this season.

Heavy hardware and iron very strong and advances anticipated, although no changes took place during the week.

A White Elephant

There arrived in this city yesterday person who was evidently a noble man in disguise fleeing from his na tive country to escape the results of question appeared in the habiliments of a working man, and getting off the cars walked directly to the Withnell house bus and was driven to that caravansary where he alighted. He was evidently familiar with the house, for he immediately went to the bridal chamber and did not even seem to be awed by the gorgeousness of that apartment, but, on the contrary, made himself perfectly at ease. When the gentlemanly clerk suggested that he might have made a mistake, and that some cheaper hotel would be more to his liking, he replied not a word but frowned. The man cannot speak a word of English, and the hotel people are at a loss to know how to dispose of him.
