CHICAGO, August 29. The demand for money to-day was active, but the banks shouldered all the A 1 paper presented at 6@7 per cent. Exchange between city banks was weak at \$1.00 discount per \$1,000. Money was offered from New York. The clearings of the associated banks were \$83,000,000.

offered from New York. The clearings of the associated banks were \$83,000,000. A large amount of circulating medium was required to fill orders for the farming districts.

Omaha Wholesale Market
Office of The Onaha Bre, \ Monday Evening, August 29.

Grain market weaker than it has been for some days. Wheat unchanged. Barley dropped several ceuts. Corn, a fraction lower. Oats, 1½c lower. Rye, firm and advanced lc. Live stock, not so firm as shown by Saturday's reports, but the market was not weak enough to materially change the prices last quoted. Provisions were rather dull, with a few exceptions. Potatoes were reported rather scarce again, but prices unchanged. Onions, scarce and 10c per bushel higher, and consignments solicited by commission houses. Watermelons to-day were a drug on the market, arriving in large quantities by the carload and brought in by our farmers; the supply greatly exceeds the demand, and it is hard to quote a correct figure for them, as commission men report them unsaleable at any price. Grapes, not so active as last at any price. Grapes, not so active as last week; quotations, however, remain the

CHICAGO, August 29.
On 'Change the markets opened higher, but afterwards became weak, heavy and decidedly lower. The receipts of grain were 22,500 bushels of wheat by lake; 37,200 bushels of corn by canal and 2,380 carloads by rail, embracing 652 of wheat, 1,535 of corn, 103 of oats, 17 of rye, and 55 of backey.

1,535 of corn, 103 of oats, 17 of rye, and 56 of bacley.

Chicago, August 29.—The grain market on Change was excited. September wheat opened at \$1.31, but dropped 4½c within an hour, and finally closed at \$1.26½c 1.26½. October delivery sympathized with September and tumbled within a fraction of 3c. The clique were heavy sellers and disposed of about 5,000,000 bushels in September options.

The runors on the board to-day that some of the wheat in the elevators was becoming hot created considerable excitement. An inquiry at the inspection office

ment. An inquiry at the inspection office resulted in a denial of these reports, but the committee appointed to look into the matter reported that such a thing would result in an enormous break in prices. It is unlikely that a part of to-day's break may be chargeable to these rumors.

P. D. Armour is said to have been a

heavy seller to-day.

The "shorts" on August wheat now have three days in which to settle some 3,000,000 or 4,000,000 busffels. It is accepted all around that the Cincinnati clique will bleed them for what they are worth.
