

RICH, RACY AND RARE.

A Gossipy Telegraphic Letter From New York.

Some things the Correspondent of The Bee Has Noticed and Comments Upon--Social Affairs at the Metropolis--Washington as a Center for Southern Commerce--New York State Politics--Kelly Again on His Miscalculation.

Special Dispatch to THE BEE. NEW YORK, September 4.—Business men here generally reflect upon the apparent decline of the disorganizing public spirit to Baltimore as a transportation point. Mr. A. Page, superintendent of the United Virginia line, including the Virginia Midland, says that the Baltimore business with the south will hereafter be done by the York river rail lines. Washington City, he thinks will become with Richmond the new railroad mart of the south. The Danville combination expects to run through passenger trains from Washington to Louisville and Cincinnati over the Chesapeake & Ohio, with which and with the Norfolk & Western road, the Danville interest is in close terms of alliance.

THE PROBLEM OF THE HOUR. Will there be enough of a crop for the railroads to haul and keep busy? The bulls say "yes" and the bears say "no." Public opinion generally warrants the statement that the crops are from 15 to 20 per cent short. The bear interest is therefore very large and also claims that large blocks of American railway shares must be released by Europe to check the decline of gold in this country which will continue to be heavy on account of the large balances they owe, and which must continue to increase, particularly in England where the exports are failures. The London Economist admits that England's crop is valued at 600,000 on last year's trade. Yet the market has been relying on a steady supply of specie from Europe for many months and if it should be checked by a surrender of our railway securities a serious stringency of money would arise as well as a wild tumble in the prices of stocks. Money is very tight.

THE REPUBLICANS. In this state are uneasy on account of the ill-concealed resentments between the administration and Grant factors. It is noticed that ex-Senator Platt, whom Mr. Conkling put over the convention in '77, is again made chairman of the state committee meeting and the convention is called for New York City where the partisans of Vice-President Arthur are in almost complete control. Arthur is in passive and dignified.

THE STALWARTS. However, who have been in power so long, need but a nod to become thrice stalwart. The issue of victory in this state lies with Garfield. It is noticeable that all political bodies here passed resolutions of condolence with him except the New York state republican committee.

Judge Lathrop's Illness. NATIONAL ASSOCIATED PRESS. NEW YORK, September 3.—It is not generally known that Judge Lathrop, of the New Jersey Central, has been dangerously ill for some time at his residence near Morristown, N. J. Reports received from his bedside are not encouraging, and strong efforts are being made by the clique controlling stocks to inspire confidence in property in the event of Judge Lathrop's death. It is alleged, however, that the reorganization scheme behind which Judge Lathrop was the great power and a very shrewd adviser has come to a standstill since his sickness. Nothing has been done for many weeks towards taking the property out of the hands of the receiver. In order to sustain the New Jersey Central, and to sell some stock to bears inside the clique, it is said to have been a forced purchase.

A Clergyman Horsewhipped. NATIONAL ASSOCIATED PRESS. CINCINNATI, O., September 3.—Rev. Kunewacher, pastor of the German Protestant church in the western part of the city, was horsewhipped last night by Mrs. Goldmeyer, creating great excitement. There had been a succession from the church, Rev. Kunewacher breaking off and establishing a new charge, and Mrs. Goldmeyer remaining with the old cause and bitterness, and Mrs. G. claimed her former partner, and made fun of the church parade; hence the chastisement.

Effects of the Recent Drought. NATIONAL ASSOCIATED PRESS. CHICAGO, September 3.—Reports from the principal hog raising districts of the western states indicate that the recent drought is going to have a disastrous effect on the fall hog products in Illinois and Kansas. The number of hogs on hand at this time is 25 per cent less than last year, and their condition is very poor. The prospect for heavy hogs for the fall market is by no means encouraging.

The British Tunnel. NATIONAL ASSOCIATED PRESS. LONDON, September 3.—The British board of trade has decided to appoint a committee to consider the project for the construction of a tunnel under the channel.

Vessels Arrived. NATIONAL ASSOCIATED PRESS. SAN FRANCISCO, September 3.—The Russian war vessel Africa arrived this morning. The first of the Russian fleet is expected to arrive soon, and then go to the Sandwich Islands and other places in the Pacific.

GEN. GRANT. has been asked by certain Cincinnati capitalists to assist in securing the Southern railroad of that city for a home syndicate and possibly to lend them his name.

MORE WATERING PLACE HOPES. Although three of the largest hotels on the sea coast near New York have either gone into bankruptcy or decline, another big one is to be begun at Coney Island on the ground bought for \$460,000 and Austin Corbin, president of the Long Island railroad, is going to spend 2,000,000 next year on the new watering places.

ANOTHER KICK AT THE TELEPHONE. A good deal of dissatisfaction with the telephone is expressed in business circles, owing to the time consumed in calling the second party up, and lawsuits arising from the distinctions of transmission, or recorded contracts not recorded in distinct terms. The telegraph is again being taken up in preference to the telephone.

AT A STAGNOSTILL.

The President's Case Virtually Unchanged from Yesterday.

His Pulse at Noon was 104, Temperature 98.7, Respiration 18.

Latest Telegraphic Reports and Hourly Bulletins.

National Associated Press. WASHINGTON, September 3.—The best information of the condition this morning is favorable to the continued improvement of the president. He has passed a good night and no disappointing developments have been reported.

The restlessness referred to in the morning bulletin was not such as to seriously affect the comfort of the president. It was what the doctors call a local effect, and not an indication of any imminent change in his condition. His pulse and temperature were not much affected. At 11 o'clock his pulse was 107 only, while his temperature and respiration were normal. The patient did not sleep as well as he usually does before midnight, but awoke frequently, and the physicians do not seem to explain it beyond the statement that it was not due to any unfavorable change in the case. After one o'clock the president slept as well as during the same hour any night this week. At the morning examination his general condition is reported to have been fully as favorable as yesterday at the same hour. The morning dressing of the wound and gland revealed no change.

The atmosphere in Washington to-day is dense and unmistakably malarial. As Dr. Bliss expressed it, "you can cut it with a knife." There is a growing impression that the weather is having a bad effect in the president's case. One attending physician stated: "This weather would kill a well president. I consider it imperative that the president be removed at once. For four days now the case has had an intermittent character. Wednesday morning the patient felt brighter and stronger than for a week. Before Thursday morning he was less so. Yesterday morning he again showed improvement and this morning, notwithstanding the general symptoms are not unfavorable, he seems less unwell. I shall vote for his speedy removal."

Inquiry among the physicians confirms the statement that the symptoms remain favorable, but that the president seems no stronger. The prospects are that Dr. Agnew will insist upon removal as soon as possible. The white house attaches, who drove the party to Potomac Flats last night say that the doctors' remarks as to stench were to the effect that if the president remained here he would die and if taken away he would get well.

OFFICIAL BULLETINS. ELEVEN A. M.

The president takes nourishment as usual, and the general symptoms remain favorable, but the weather seems to have a depressing effect on him to-day. The pulse fluctuates today between 100 and 110.

12:30 P. M. BULLETIN.

The president's condition has not materially changed since the morning bulletin was issued. Pulse 104, temperature 98.4, respiration 18.

(Signed) D. W. BLISS, R. REYBURN, J. W. BLANES, J. J. WOODS, D. H. AGNEW, F. H. HAMILTON.

Thanks. "Thos. Howard, Bradford, Pa., writes: 'I enclose money for Spring Blossom, as I said I would if it cured me; my dyspepsia has vanished with all its symptoms. Many thanks; I shall never be without it in the house.' Price 50 cents, trial bottles 10 cents."

Massacred by Indians. NATIONAL ASSOCIATED PRESS. SAN FRANCISCO, September 3.—The Tucson Star has advices from Camp Thomas that General Carr and his White Mountain Indians thirty-five miles from Camp Apache. One hundred and ten men and seven officers were killed. Troops have left Camp Grant for the scene of action. The tribe numbers about fifteen hundred and can muster four hundred warriors. Reports of raids come from localities traversed by Nana's band, also, and strong measures are being taken to subjugate the savages.

Worthy of Praise. As a rule we do not recommend patent medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach, Liver and Kidney complaints, even when all other remedies fail. We know whereof we speak, and can freely recommend to all.—[Ex. Sold at 50 cents a bottle. I. & M. Mahon. (4)]

PIONEER LAND AGENCY. F. M. RATHBUN, Cambridge, Neb.

1,000,000 acres government land open to Homesteads, Pre-emption and Timber claims. 200 choice improved farms for sale or exchange. 200 of the best developed farms in Southwestern Nebraska with timber and water for sale. New choice stock ranches with fenced fields, timber, hay and water, for sale, cheap. Correspondence Solicited. 9/3/81

BYRON REED & CO. Real Estate Agency. IN NEBRASKA. Keep a complete abstract of title to all Real Estate in Omaha and Douglas county. 9/3/81
