## TRUE

**Temperance** 

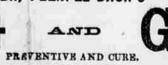

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make

a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

> Itisafact! Brown's Iron BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particu-lar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines. especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisa medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, produc-ing good, rich blood, health and strength. Try one bottle. Price \$1.00.

### DR, FELIX LE BRUN'S

### FOR EITHER SEX.

This remedy being injected directly to the seat of the disease, requires no change of diet or nauscous, mercurial or poisenous medicines to be taken internally. When use as a preventive by either sex, it is impossible to contract any private disease; but in the case of those already unfortunately afflicted we guarantee three boxes to cure, or we will refund the money. ### FOR THE SPECIALIST.

Has long been schnowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and knew how to treat them properly.

DR. H. WAUNER is fully aware that there are many physicians, and some sensible people, who will cendemn him for making this class of diseases a specialty, but he is happy to knew that with most persons of refinement and intelligence a mere enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeen or physician who goes application excels in any other branch of his profession. And fortunately for humanity, the day is davrning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the "Jewish law, to die uncared for has passed away.

### Plain Facts Plainly Spoken.

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and guardians will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be ocquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous afflictions are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irrascibility of temper and general debility. The boy seeks sectusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Lascivious dreams, emissions and cruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palputation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of idiocy before, finally, death relieves him.

To all those engaged in this dangerous, practice, I would say, first of all, stop it at once; make every possible effort to do so; but if you fail, if your nervous system is already too much shattered, and consequency, your will-power broken, take some nerve tonic to aid you in your elfort. Having

later years, and I have many of such cases under treat

### Young Mer.

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Waosea will guarantee to forfeit \$500 for every case of seminal weakness or private disease of any kind and character which he undertakes to and fails to cure.

Middle Aged Men. There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin milkish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.

Relief to the Afflicted.

### Time for a Cure.

Persons at a distance who wish to be treated by Dr. Wagner need not feel backward because of inability to visit him. If they will write to the doctor he will send a list of questions which enables him to send medicines, counsel and advice to thousands he has never seen. He has patients in every city, town and station in Colorado, as well as all over the United States. See his address in his advertisement.—Denver Tribune.
