Special dispatch to THE BEE.

CHICAGO.

CHICAGO, September 25.—The market to-day was very active, at times rising into excitement. Influences affecting it were purely local, foreign advice being improved in tone, and country orders not large. It was evidently a fear day, their manipulations in depressing prices commencing shortly after a weak rally at the beginning, and continuing successfully until near the close. The volume of speculation was in wheat, which opened within $\frac{1}{2}$ of the close of yesterday. But under heavy offerings was forced down steadily $\frac{1}{2}$ to $\frac{1}{2}$ per cent when a demand for grain came in. Offerings in corn were very free, and that cereal was very active. Throughout the morning session November options sold off 1 $\frac{1}{2}$ and other were also unfavorable and affected, being little dealt in. Frost predictions seem to have ceased to be a ruling influence in speculation in corn. Pork was inactive, weak and low, and declined about 20¢ from opening, which was from 15 to 20¢ under yesterday's closing. News of the death of Lyman Blair has been reported as having been caused by suicide or accidental shooting, was received on call after wheat and corn had been disposed of. Blair was known to be carrying heavy lines of provisions, and the intelligent has a disastrous effect on hog products, which fell off about 20¢ in a few moments. All prices closed on call lower for wheat and pork, and firmer for corn, and the tone of using markets somewhat firmer than the middle of the day.
