AFTERNOON DISPATCHES. Bismarck Backs Alfonso in Demanding Satisfaction From France.

An Immense and Hitherto Unknown River Discovered in the Arctic Circle.

The American Woman Suffragists Swoop Down on Widow Butler's Bangs.

The Episcopal House of Deputies Discusses the Proposed Change of Name.

Bismarck's Finger. LONDON, October 10.—The Standard's Paris dispatch says there is strong apprehension if Spain does not obtain satisfaction for the insults to Alfonso that Germany will interpose and exact it.

An Earthquake. LONDON, October 10.—An earthquake occurred yesterday at Phillippeville, Algeria, the direction being North to South.

Yesterday a man attempted to kill the Bulgarian Minister of the Interior. LONDON, October 10.—Guy, solicitor for O'Donnell, the murderer of Carey, says he has received only £300 for all the expenses of his client, which have been spent in bringing witnesses from Cape of Good Hope.

An Immense River. SAN FRANCISCO, October 10.—Lieut. Storey, who went upon the last trip of the revenue steamer "Corwin" for the purpose of distributing among the Tchukchee Indians of Alaska the \$5,000 worth of presents given them by the Government in recognition of their hospitality in affording shelter and food to the officers and crew of the steamer "Logan," "burned in 1881, reports the discovery of an immense river hitherto unknown to geographers.

The Indians said they had come to the river a distance of 1,500 miles, and that it extended far above that. The Indians said the river was twenty miles wide in some places. The river where Storey visited it was within the Arctic circle, but in August when he was there he found flowers and vegetation not hitherto discovered in so high latitudes.

The Episcopal Convention Discusses the Question of Changing Its Name. PHILADELPHIA, October 10.—The general convention of the Protestant Episcopal church, went into committee of the whole on the question of striking from the Book of Common Prayer the words "Protestant Episcopal." S. C. Judd, of Illinois, moved to strike out from the title page the words "Protestant Episcopal," and insert in lieu thereof the words "Holy Catholic." He was opposed to surrendering to Romanists that word which means "universal." The Holy Catholic church protests just as much against the error of Rome as any church in this or any other land.

Rev. Meyer Levin said: "If the name is changed it may be said the Episcopalians have had a wrong name for the past century." He believed that inasmuch as the church had grown in the last century with its present title, "Protestant Episcopal," he would not stultify himself by saying our forefathers were wrong.

Judd replied to Levin by asking, "In the case of a woman marrying and changing her name would she then lose her property?" Rev. Spaulding, of California, advocated the adoption of the word "Catholic" as did other delegates among whom was Rev. John M. Newman, of Nebraska. A number of amendments to Judd's motion was defeated by a vote of yes, 210, nays, 252. A division having been called for the committee of whole rose.

Counterfeiters Arrested. DENVER, Colo., October 10.—This afternoon M. D. Vanhorn of the United States secret service arrested Willis W. Long and Gus, Summers, alias George Bates, while in the act of casting counterfeit silver dollars. Long is in the commission business here in a small way and well known in Beloit, Concordia, Cayler City and New Western Kansas. He has a brother, B. H. Long, in the commission business in Kansas City, Summers is formerly of Missouri and for some time has been employed as a laborer on a ranch near the city, where most of the spurious coin was made.

She Must Attend No. One. NEW YORK, October 10.—The Court of Appeals affirmed the decision of the lower court in the case of Theresa W. King, (colored), who was refused admission to the public school, No. 5, Brooklyn, and directed her to attend the colored school, No. 1; and who applied for a mandamus to compel admittance to No. 5. The Court ruled that equal facilities for education of a child were afforded in the colored school and consequently there was no discrimination against her in assigning her to such school.

Miss Teller's Lost Trunk. MINNEAPOLIS, October 10.—The Tribune's Fargo special says that while on the Grand excursion a daughter of Secretary Teller had her trunk lost at Helena, which was said to contain \$10,000. The sheriff at Bismarck was employed to work up the case, and had five men arrested, three at Jamestown and two at Stillwater. One was a son of Staples, the millionaire lumberman. The first clue to the parties was obtained from a variety of actresses in Montana, who displayed a fine fan and handkerchief, the latter having Miss Teller's name on it.

At It Again. NEW YORK, October 10.—The convention of the American Women's Suffrage Association opened at the Brooklyn Academy. The convention was called, order by W. J. Cadwick, Mrs. Elizabeth

B. Chase presided and spoke of the objects which brought them together. Mrs. Mary F. Eastman, Rev. W. J. Basford and Lucy Stone made addresses in behalf of suffrage for women. Rev. Mr. Steinhilf England and Rev. Oliver Johnson also addressed the convention. Lucy Stone in her address said that General Butler would be defeated, the Republican women of Massachusetts had to vote.

It Went Work. BOZEMAN, October 10.—Large and enthusiastic meeting of Independent Democrats and others opposed to the re-election of Gov. Butler was held at the Parker House last night, nearly every ward being represented. A resolution declaring Gen. Butler a dangerous demagogue and recommending all true Democrats and Independents to vote against him was adopted.

The Iowa Pool's Ultimatum. CHICAGO, October 10.—A meeting of general passenger and ticket agents of roads running west and northwest from Chicago and St. Louis was held here yesterday to take action regarding rates and divisions on Pacific coast through business. The following was adopted: Resolved, That California rates shall be apportioned on the agreed method of making divisions now in force in proportion through rates, viz: When the rates are based on local rates each line interest shall receive its local. When rates are less than the sum of local a prorata based on the short line mileage shall prevail and no line east of the Missouri river or St. Paul shall receive an amount more than its local nor shall any such line receive a less rate per mile on its short haul than it is entitled to receive on a long haul.

It was also decided that this was the ultimatum and that no other concession would be made to the Pacific roads. The meeting then adjourned to meet with Pacific coast lines at Kansas City, October 16th.

Switched Off. NEWARK, N. J., October 10.—By the spreading of a switch on the Pennsylvania road at West Elizabeth, this morning, the engine of the western bound freight train and two cars were derailed and wrecked. The track was torn up a short distance and trains delayed two hours. No one hurt.

A Murderer Lynched. CHATTANOOGA, October 10.—The negro who murdered a policeman on the streets of Huntsville, Ala., Monday, by splitting his head with an axe, was taken from jail last night by masked men and hanged. A heavy reward is offered for the capture of the confederate, still at large.

A Fine Hit. When the proprietors of Durlock Blood Bitters put this renowned medicine on the market it hit it exactly. They had a cough, cold, and liver and kidney complaints a bad blow, from which they will never recover.

A Singular Game of Chess. A singular game at chess has just been finished in the north of Scotland. The game was begun about twelve months ago in Brooklyn, N. Y. The first player, Mr. J. B. Munoz, made a move, and then passed the scoring-sheet on by post to a friend. That friend made a move in reply, and then passed the paper on by post to another well-known player, who made a move in continuation. In this way the document found its way to Baltimore, where Mr. Sellman, who played lately in the London tournament, added a move and sent the paper on to Jamaica. From Jamaica it was sent to England, and after passing through the hands of well-known players in London and other towns, who each added a move, it began a tour among the chess-players of Scotland. After traveling as far north as the Drilling, the document was sent back to Sheriff Spence of Glasgow. That gentleman examined the positions, and decided that the game was lost for white, as black could force an exchange of rooks and win with the pawns. He therefore returned the game to the first player, Mr. J. B. Munoz, who now sent it to London to be published as a curiosity in The Chess Monthly, where it has just appeared. The scoring sheet bears the signatures of seventy players, who each made a move in the game and the document shows that it has passed from hand to hand through thirty-two towns and cities of England, Scotland, and America.

Is Life Worth Living? Mr. J. J. Corta, Leadville, Colo., says that St. Jacobs Oil once saved his life. He was taken to the hospital to die. Upon using the remedy he was able to leave, a well man.

Chinese Cavalry. A correspondent of The London Telegraph, describes a body of Chinese troops in a way that will give Europeans additional respect for the armies of the Celestials: Arrived at Hanchow, the first object which met my eyes was a body of Chinese soldiers, evidently lately concentrated. They consisted of the three arms, and, although somewhat rough in appearance, proved to be uncommonly serviceable-looking fellows upon near inspection. A squadron of horse was crossing the bridge at the moment when my boat came to an anchor, and as they went by I could but notice that they were well mounted, that they rode well, that they were armed with the most excellent carbines and lances, and they were fairly well drilled in European fashion. I had no opportunity of seeing them maneuver, but the march past was good, quite equal, say, to the ordinary marching of a French cavalry regiment, though not perhaps so smart as that of an English or German squadron. It would have compared very favorably with a company of Cossacks. The bridge being low I was able to get a good view of the men, and judged them to be mainly Tartars, and southern Chinamen, at any rate. They wore a blue and white uniform, were warmly clad, for it was cold, and seemed well-fed and very jolly.

Horsford's Acid Phosphate. Dr. F. F. Gosselin, Detroit, Mich., says: "I have used it very extensively in its effects, notably in the prostration attendant upon alcoholism."

A Hand to Gamble On. Somerville Journal. "Do you ever gamble?" she asked, as they sat together, her hand held in his. He replied: "No; but if I wanted to now would be my time." "How so?" "Because I hold a beautiful hand." The engagement is announced.

Brief Mention. "I have used Durlock Blood Bitters with great benefit for indigestion and constipation of the bowels," C. L. Easton, Hamilton, Ont.

OCCIDENTAL JOTTINGS. Wyoming. The receipts of the Union Pacific at Cheyenne are sufficient to pay the interest on the entire division and leave a handsome profit. The Bothwell surveying party has returned from the Yellowstone Park. They report that a practicable route can be made through this neighborhood and say that by next summer the people can expect 150 miles of road, ready and running.

Reports prevail in the Sweetwater country that a scheme is on foot by absent Fort Washburn to transfer the command and present stationed there to Fort Bridger. The consent of the Secretary of the Interior is all that is now needed to consummate the plan.

One of Cheyenne's citizens was enjoying himself the other night in the pleasant pastime of beating his wife, when the woman's brother stepped in and put a new face on matters by bringing her husband in a way that he despised. The wife beater goes around now with his eyes in mourning.

Laramie Boomerang. Never in the history of the cattle trade in the Northwest has the future of that enterprise looked brighter or more promising than at the present time in Wyoming. Unless there are unprecedented misadventures, the results of the present year's stocking will place Wyoming in the very foremost rank of the great stock-growing and producing regions of the great West.

Dakota. Five hundred and seventeen thousand dollars is the assessed valuation of Pennington county. The Masonic Building Association of Sioux Falls have negotiated a loan of 15,000 to complete their temple in this season. There were forty-five Methodist Episcopal churches in Southern Dakota last fall—now there are an even hundred.

The reported discovery of gold on a claim near Mitchell is causing considerable excitement among the credulous citizens of the latter place. The post offices at Brooklyn, Lincoln county, and Parker, Furness county, have been raised to the third grade to transfer the postmaster salaries increased to \$1,100.

The receipts of flax seed in Scotland are now averaging about 5,000 bushels a day, the three elevators being taxed to their fullest capacity. The price ranges from \$1.03 to \$1.05 per bushel. An effort is being made to publish at Haron a religious weekly newspaper in the interest of the Methodist Episcopal church. The Haronite publishing house will issue the first edition as an experiment.

A man was found guilty of selling liquor to a habitual drunkard in Deadwood a few days ago, and was sentenced to pay a fine of \$100 and costs amounting to \$99.93, or go to jail for ninety days.

The magnificent vegetable and fruit display shown at the Yankton fair has been loaded into a special car and taken to the Millwaukee exposition. The exhibit is being transported free of charge and the exhibitors contributing to the collection.

Colorado. Denver wants steam whistles and bells abolished. Denver will put up \$1,250,000 worth of new buildings this year. The Denver land office has done a better business for the past few months than for years before.

The Baltimore and Ohio Telegraph Company is preparing to extend its lines from Chicago to Kansas City and Pueblo and Denver, the work to be commenced before the end of the current year. Denver has fifty artisan wells, the majority of them having been driven within a very few weeks. The water in the wells is of 210 feet, strata being estimated at 500,000 per day. The wells are so numerous now that the common salutation is, "How is your bore today?" "It agurs well."

Montana. The Masonic Temple at Bozeman is completed. Brickmasons in Missoula get \$7 per day for their work. Work has commenced on the Northern Pacific round house at Bozeman. The United States assay office, Helena, now has \$500,000 in gold bars in its vaults.

There are 250 pupils enrolled in the public schools of Butte this morning. "Let's drive a spike," is now the proper way to invite a Montana man to take something. The county commissioners of Beaverhead are offering for sale bonds to the amount of \$25,000.

The assessment of Madison county this year is \$2,471,800, an increase over last year of \$160,450. Villard has written a letter to the Benton people intimating that he will build a branch railroad from that city to Billings.

A new project is on foot at Livingston. It is the organization of the National Park Dairy and Land Improvement company. Bozeman points with pride to eight miles of new plank sidewalk, since spring, and which has been paved with gravel and macadam.

People who have lived in the Bitter Root valley for fifteen years say that they have never seen the river and tributary streams so low as now. A. A. Goff claims to have found a vein of bituminous coal, twelve feet wide and traced for a distance of 300 yards, in the Cone Butte section of the city of Helena.

The Billings ditch, 30 miles in length, is completed, and a copious stream of water now flows through that town. Some 50,000 acres of valuable land can be watered by this ditch. The highest point on the divide of Montana reached by the Northern Pacific is 1,200 feet below the summit on the Central Pacific. It is below the snow line, and wild flowers bloom as late as September.

A ranchman on miles from Bozeman, on the West Gallatin, reports the discovery of a quarry of red sandstone, which experts pronounce fully as fine as that found in Wisconsin in the shores of Lake Superior. The Billings Indians are represented as willing to cede the eastern portion of their abnormally distended reserve to the government, conditioned on Uncle Sam providing them with cattle and sheep, and with men assisting them to make a living for their people.

Two trunks belonging to Secretary Teller, which contained jewelry valued at \$12,000, were stolen from the platform of the special excursion train on its return from the last spike ceremonies. They were afterwards traced to the city of Lincoln, Neb., and recovered at Livingston, M. T. The Northern Pacific offer to pay \$500 "and no questions asked" for the return of the contents of the trunk.

Butte Inter Mountain: With the single exception of Leadville, Col., the mining district of Butte is the most productive in the United States, and at the present rate of increase the ore output will exceed that of the great carbide belt, which has been the case since last year. Butte contributed to the wealth of the world the enormous sum of \$6,881,000 in silver, gold and copper; the copper mines contributing over one-third of the amount. The product of Butte is five-sixths of that of the entire Territory, and at the present rate of production the output for the current year will exceed it.

California. Senator Sharon is the largest real estate owner in San Francisco, having \$11,000,000 worth. The city council of Los Angeles has voted down the ordinance to license gambling by a unanimous vote. Extensive forest fires are destroying timber on the divide between Yreka and Butte Creek valley, Siskiyou county.

Several thousand acres of salt marsh land have been reclaimed and between that and Pastaluna creek have been reclaimed and are now profitably cultivated. Hay has been the principal crop, and the yield is very large.

Idaho. The Western Union Telegraph company has established a telegraph office at the new town of Caldwell. A Mormon settlement in Idaho is five miles

Royal, Rich, Red Blood. In this country we are all kings, and we are all entitled to have as good blood as that which courses through the veins of emperors. There are princes and millionaires languishing in feebleness and broken-down bodily health who would be glad to have the strength of the humblest laboring man. And there are many people who are neither kings, emperors, nor millionaires, whose blood is thin, whose circulation is poor, who are suffering from lassitude and debility, and who know not the pleasure of a hearty meal, nor the enjoyment of being able to do a good day's work. If such people will put some iron into their blood, they will vitalize and enrich it. They can do this by the use of Brown's Iron Bitters, the purest and most excellent iron medicine ever made. Thousands who were weak, languid, pale, and prostrated, are now happy to say that Brown's Iron Bitters brought them up and gave them new life.

long, extending from Clifton to Oxford. It is called Stringtown, and the homesteads are so close that the residents are within 300 feet of each other, and the farms are mere strips of land from 250 to 300 feet in width.

The Columbia and Beaver mill, Sawtooth, made its first shipment of four tons of bullion, weighing 226 pounds in the aggregate, and valued at nearly \$3,800. The mill operates by the leaching process, and has been running three weeks. It is said to have proved a success.

Utah. The church of Utah received last year in tithings \$540,000. Utah peaches are a scarce article in the market at \$2 per bushel. About 40,000 people visited the Great Salt Lake bathing resort, and the Mormon converts are now seeking out the garden spots of adjacent Territories.

The available agricultural land in Utah is nearly all taken up, and the Mormon converts are now seeking out the garden spots of adjacent Territories. The Salt Lake City sexton reports eighty deaths for the month of September, forty-one males and thirty-nine females. Of this number forty-five were under ten years of age.

The first mission school of the Presbyterian church was established in Salt Lake in April, 1875; now there are thirty-three in the Territory. Last year there were 2,000 children enrolled; this year the number will reach 2,500.

Three-fourths of the year has gone by, and the receipts of bullion from mines, mills and smelters in Salt Lake City figure up very close to five millions, and representing probably something less than what the total output of the year may be expected to show.

One of the important industries of Utah is that of sheep husbandry, which is growing in magnitude all the time. This year the Utah clip aggregated 3,000,000 pounds in excess of what has been used by the various factories in the Territory, and by families who still make their "homespun."

Washington. In his message to the Legislature the Governor says the Territory is out of debt and in a flourishing condition. The Washington Territory Legislature convened at Olympia on Monday, October 1. The House of Representatives is composed of twenty Republicans, nine Democrats and five Independents. The Council of seven Republicans, three Democrats and two Independents.

Washington Territory has been settled thirty years. Its resources are very great and varied. Its agriculture, commerce, fisheries, lumber and minerals are almost inexhaustible in extent. No State in the Union has more natural resources to sustain a large and permanent population and it already has a sufficient number who have come to stay.

A train of thirty cars loaded with the finest wheat grown in Washington Territory is now enroute to Minneapolis. It is from the Walla Walla and Colville sections, and is the finest association in that city. Upon its arrival it will be distributed among the association mills and reduced to flour. The purpose is to thoroughly test the quality of the wheat, it being the desire of the Northern Pacific officials to ascertain the value of the wheat and the prospects for continued and regular shipment.

Nevada. About 50,000 cords of wood have been cut and piled for the Central Pacific railroad this year by the different contracting firms in and about Truckee, prices averaging from \$3.50 to \$4 per cord.

The Plute Indians in Nevada predict a severe winter and base their predictions on the fact that the snow has been down since with smoke for several days.

A Good Thing. "I sometimes wish I could take hold of the sale of Thomas' electric oil for I tell you it is a grand thing, and I am conscientious in saying I could do a good work." Rev. E. F. Oakes, Curry, Pa. Electric Oil cured this gentleman of quinsy of many years standing.

He Wanted to Stop. Toronto Globe. A somewhat inebriated gentleman boarded a down car on Yonge street, Toronto. Balancing himself against the door, he asked the conductor to let him off at Crickshank street. When Wilton avenue was reached he recognized his destination, and, stumbling over to the bell strap, he gave it a tremendous tug. The conductor was irritated. "What do you mean by jerking the bell like that—ringing it at both ends?" he said, with rising anger. "Well—(hic)—don't I wash the carsh to stop—(hic)—at both ends?"

In a letter from HOS. MRS. PEAY, Castle Grey, Limerick, Ireland, BROWN'S BRONCHIAL TROCHES are thus referred to: "Having brought my 'Bronchial Troches' with me when I came to reside here, I found that after I had given away to these I considered myself cured, the poor people will walk for miles to get a few. For Coughs, Colds, and Throat Diseases they have no equal, and will only in boxes.

THE GREAT NERVE CONQUEROR. IS UNFAILING AND INFALLIBLE IN CURING Epileptic Fits, Spasms, Falling Sickness, Convulsions, St. Vitus Dance, Alcoholism, Opium Eating, Scurvy, Weakness, Impotency, Syphilis, Scrofula, and all Nervous and Blood Diseases.

KIRKWOOD. This is a new and beautiful addition to the city of Omaha situated in the north part of the city, fronting on Sherman Avenue, and is the most desirable location, for residences, that has been placed on the market by BEDFORD & SOUER.

KIRKWOOD. This property is divided into regular size city lots and acre lots which will be sold at reasonable prices and on easy terms. BEDFORD & SOUER.

KIRKWOOD. Fronting 700 feet on Sherman Avenue. This property cannot fail to be desirable and will be rapidly taken up and improved. No hills to climb, no ravines to cross, in getting to KIRKWOOD addition. Remember, when you buy a lot in this addition, you will not have to pay an amount equal to first price to grade your lot before building.

KIRKWOOD. Street cars will be run to this addition at an early day. These lots double in value in 12 months. Call at our office and see plat and make selections early. BEDFORD & SOUER.

KIRKWOOD. Elegant Building Sites and at half the price of any other lots in the city of equal distance and location, on the best street in the city. BEDFORD & SOUER, 14th Street, bet. Farnam and Douglas.

SPECIAL. Unimproved Property FOR SALE BY BEDFORD & SOUER.

Improved Property. \$2,500—12 room house, cor. 12th and California streets, 6 closets, cellar, city water, outhouses, etc. \$2,700—6 room house on N. 12th street, closets, cellar, water, etc. \$3,000—Good six room house on Davenport, bet. 22nd and 24th, two story, 6 closets, pantry, cellar, cistern, well, fruit and shrubbery, stable and outhouses. \$3,200—Full size lot on McDonald place, with two frame cottages, one 5 room, one 3 room. For sale or exchange. \$3,500—Good two and a half acre lot with five room cottage, brick well, fruit trees, etc. \$4,000—One of the best three story brick business houses on Farnam street. Terms private. \$4,500—New 7 room house on N. 15th street. All modern improvements. Good location. Cheap. \$5,000—New two story house, Queen Ann style. All modern improvements, city water, lot 100x100.

Bargains in Farms & Lands. \$27 per acre—180 acre improved farm, near Creston, Iowa, 10 acres woodland, 45 acres corn, 25 acres alfalfa, 200 acres pasture. Four room house, 2000 bushels of wheat, 1000 bushels of corn, 1000 bushels of oats, 1000 bushels of soybeans. Will sell or exchange. \$47,000—300 acres, half mile N. W. 23rd, 160 acres in cultivation, balance pasture. Four room house, stable, etc. Terms easy. \$51,000—1500 acre good farm, 14 1/2 miles from Burlington, Iowa, 1000 acres in cultivation. Will exchange for Omaha property. \$61,000—400 acres adjoining city of Wilber, Sellsie county, IA. All under fence and well improved. This property is cheap at \$10,000. \$62 per acre—400 acres, 3 miles from Waterloo, Douglas county, Ia. In cultivation, balance pasture. Good location and nearly new. \$65 per acre—2000 acre timber, land in Ray Co., Mo. Three small farms on this land, balance good cottonwood timber, which will more than pay for investment. For sale or exchange. Omaha property.

SPECIAL. \$25,000—Lot 212x220, cor. 17th and Bellevue St., Omaha, near Hascall's Park, brick house, four rooms, well, cistern, stable, cellar. All in good condition and nearly new. \$28 per acre—400 acres in Washington county, 6 miles south of Blair, on line of C. St. P. M. & O. railroad. Station at corner of this land. Good stream running water, 100 acres in cultivation, 800 acres grass, 150 acre timber—oak, hickory, walnut and elm. Small house, good fruit and abundance of cottonwood timber. One of the best farms in the county. If purchaser wishes, will sell homestead adjoining good herd of cattle. \$27 per acre—Will buy 100 acres in Cedar Co. \$28 per acre—320 acres 2 miles from Hamburg Iowa. \$715 per acre—Improved near Logan Iowa. 104 Several hundred acres in Cuming Co. Neb. 102 Six thousand acres in Stanton Co. Neb. \$110 per acre—2200 acre timber, land in Ray Co., Mo. Three small farms on this land, balance good cottonwood timber, which will more than pay for investment. For sale or exchange. Omaha property.

SPECIAL. \$25,000—Lot 212x220, cor. 17th and Bellevue St., Omaha, near Hascall's Park, brick house, four rooms, well, cistern, stable, cellar. All in good condition and nearly new. \$28 per acre—400 acres in Washington county, 6 miles south of Blair, on line of C. St. P. M. & O. railroad. Station at corner of this land. Good stream running water, 100 acres in cultivation, 800 acres grass, 150 acre timber—oak, hickory, walnut and elm. Small house, good fruit and abundance of cottonwood timber. One of the best farms in the county. If purchaser wishes, will sell homestead adjoining good herd of cattle. \$27 per acre—Will buy 100 acres in Cedar Co. \$28 per acre—320 acres 2 miles from Hamburg Iowa. \$715 per acre—Improved near Logan Iowa. 104 Several hundred acres in Cuming Co. Neb. 102 Six thousand acres in Stanton Co. Neb. \$110 per acre—2200 acre timber, land in Ray Co., Mo. Three small farms on this land, balance good cottonwood timber, which will more than pay for investment. For sale or exchange. Omaha property.

SPECIAL. \$25,000—Lot 212x220, cor. 17th and Bellevue St., Omaha, near Hascall's Park, brick house, four rooms, well, cistern, stable, cellar. All in good condition and nearly new. \$28 per acre—400 acres in Washington county, 6 miles south of Blair, on line of C. St. P. M. & O. railroad. Station at corner of this land. Good stream running water, 100 acres in cultivation, 800 acres grass, 150 acre timber—oak, hickory, walnut and elm. Small house, good fruit and abundance of cottonwood timber. One of the best farms in the county.
