There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the blad-der, often accompanied by a slight smarting or burn-ing sensation, and a weakening of the system in a manner the patient cannot account for. On examin-ing the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin militsh hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weak-ness. They all know complaint, and at times all that I ate so distremed before she arrives that she has received a me that I could not bear the sight of food. I had ring and are on the qui vive. They tried a good many different remedies for my comeither tell her it is very pretty or else plaint, and they all failed, until one day Mr. Martel, they pretend not to notice it at all, in ne of our druggists in Lewiston, recommended either of which cases the recipient of the Hunt's Remedy, as he knew of so many who had used ting is delighted beyond description, Beit here with great success for kidney, liver, and urcause if they are affecting an indifference inary troubles, as well as indigestion and upon his to her good luck that they do not feel, and that they would tear her all to pieces recommendation I finally, concluded to try a bottle, and commenced taking, with very little faith in it. The first bottle helped me so much that I purchased two more, and it has done me a wonderful amount of good and cured me of indigestion. I can eat all kinds of food now, and can truly recommend Hunt's vey, and would give their ears to be in her place. And she is glad to think that Remedy as a sure cure for indigestion, liver and kidney diseases."
