

THE DAILY BEE.

OMAHA.

Saturday Morning, Nov. 10.

The Weather.

For the upper Mississippi and Missouri valleys, light rains, followed by clearing weather, variable winds shifting west and south, followed by rising barometer, and in the northern portion slight rise of temperature.

LOCAL BREVTIES.

Himelbaugh & Taylor, Omaha, sell Buffalo U. S. Standard scale. Write for prices.

Great improvements have been made in the city jail of late under the supervision of J. J. Gorman. New floors, rat proof, are laid, benches in the corridor and cells, a new electric put up, and oak partitions erected. The south end of the hall will be put in shape for the female prisoners, so as to insure their warmth and comfort, and, in short, everything will be in better shape than it ever was before to treat prisoners as human beings instead of animals.

An open winter is predicted by the forecasters.

A traveling man's sample case of cigars was stolen from the Northwestern depot last evening.

At a meeting of the board of directors of the Nebraska National bank held Thursday, the resignation of Mr. S. E. Johnson as president was tendered and accepted, and H. W. Yates was elected in his place.

Col. E. B. Temple, well-known in this city and State, in connection with the production of the war drama "The Union Spy," at Omaha and other cities, is about to give the same thing to the citizens of Carthage, Mo., the dates being November 15th, 16th and 17th.

The C. B. & Q. train was eight hours late yesterday, and the Wabash forty-five minutes behind time.

There will be a regular meeting of Ruth Bebekal Degree Lodge No. 1, in Odd Fellows' Hall, this evening at 7:30 o'clock.

The train west on the U. P. yesterday was a double header, having eleven loads out. One was a Central Pacific steamer which came in Thursday evening with a private party of Californians.

Rare and mysterious oriental wonders saw-ah-brash in over 100 hoodlums and buttonless costumes; over 500 oriental crystal scenes at Baptist church Sunday night.

Next Sunday at the German Presbyterian church, Cummings and Eighth, at 10:30 a. m. and 3 p. m. memorial sermon on Dr. Luther by Rev. J. E. Schlabach. All are invited.

Beginning next week the Union Pacific and Central Pacific will increase the allowance of free baggage allowed to each passenger between Omaha and San Francisco to one hundred and fifty pounds.

The rough condition of Fifteenth street, between Dodge street and Capitol avenue, is such as to cause a universal groan in that neighborhood, and it would be well to have it shap'd up a bit, even if it soon to be paved.

A squad of eight soldiers from the light artillery, detached Thursday from Fort Omaha, and came into the city. They are supposed to have sold their uniforms at the second-hand store and to have got out of the way of the officers who would get \$50 reward for arresting each one of them.

In the Police Court yesterday Dan was fined ten dollars for being drunk and sent to jail because he couldn't pay. James O'Neil met with the same fate for disturbing the peace.

Jerry Gorman and Tom Hunt are up for the robbery of a cigar store, and James Martin for assaulting a woman named Mary Z. Arnold.

Robert King is also to be examined for getting goods on false pretenses.

The citizens of Omaha will do well to be on their guard and look after all valuable property. A squad of eight thieves and confidence men arrived Thursday and are now in the city ready to begin operations.

They were recognized at once by a man posted on such matters and the Bee gives notice to its readers to be on the lookout.

By the new time card, which will go into effect next week on the Utah Northern railway, passengers for Portland, Ore., who leave Omaha on the evening or noon train will make the same time as those leaving St. Paul on the evening train.

The connection is made with the Northern Pacific at Garrison, Montana. Passengers from Chicago will make the same time and those from St. Louis better time via Omaha than via St. Paul.

The horse which was so badly injured in a collision on Cuming street a few days ago is still alive and under the care of Dr. Chambers, being at his infirmary on North Sixteenth street.

The shaft of the horse car penetrated his left side to a depth of twelve inches and broke off. The driver did not know of the extent of the injury until he drove a short distance and saw the piece drop out.

Dr. Chambers is trying to save the life of the animal but cannot tell as yet whether or not he will succeed. Five years ago a big male was injured similarly and was not expected to live but is today at work and apparently as sound as ever.

The ladies of the Congressional church gave a splendid dinner and supper in the parlors of the Paxton Hotel yesterday, the proceeds of which go to the fund for building a new brick edifice where the present frame structure now stands, on Chicago street.

Every dollar was served up and the ladies were untiring in their efforts to please all. They entertained a large crowd and the affair was a complete success.

Mrs. C. H. Rustin was the efficient manager of the business and great praise is due to her and her able assistants.

M. N. B. Falconer, successor to A. Crickshaw & Co., is making things busy day. The latest is the introduction of the electric light to the inside of the store, and four of these are now in operation, making a splendid improvement for the benefit of customers.

Mrs. Falconer is the embodiment of the spirit of enterprise and is out-fanking all assistants to rivalry. He deserves the great success that he has achieved.

Councilman Kaufman had a fine new whip stolen from his buggy during the council meeting last night.

THE CATHEDRAL CHORUS.

Extensive Preparations for the Consecration of Trinity Next Thursday.

Arrangements by Which Members of the Church Can Secure Reserved Seats.

A very satisfactory rehearsal was had at Trinity cathedral last evening of the music to be sung on next Thursday morning, upon the consecration of this house of worship. The musical programme is well made up, and its rendition will test fully the acoustic properties of the cathedral. The organ is heard to greater advantage in the great auditorium than ever before, and as it has never been in such perfect order as it is at present, it greatly contributes to the effect of the music.

Provisional Hymn—"The Church's one Foundation." Anthem from the Messiah—"Lift up your Heads."

Te Deum, Kyrie—"Gloria Tibi Sanctus," from service in G. by J. B. Cullin. Offertory—"Sing Alleluia Forth," by Dudley Buck.

The quartet for this occasion is, Miss Lizzie Calderwood, soprano; Miss Pennell, alto; Mr. Wolf, tenor; Mr. Pennell, bass.

Soprano: Miss Maul, Miss Doyle, Miss Larsen, Miss Withnell, Miss Vapor. Alto: Mrs. Peck, Miss Withnell, Miss Vapor, Mrs. Crane, Miss Rath, Miss Lane.

Tenor: Mr. Breckenridge, Mr. Gordon, Mr. Housworth, Mr. Wells. Bass: Mr. Dorman, Mr. Thayer, Mr. A. H. Gould, Mr. W. Gould, Mr. Aiken, Mr. Gage.

Organist, Prof. J. A. Butler; musical director, Mr. T. J. Pennell.

It is understood that this chorus, or most of it, will be engaged permanently to assist the choir proper, which is to be the quartette as given above.

The congregation on Thursday morning is expected to be so enormously large that the church will be unable to accommodate all, and so an arrangement has been devised by which members of the cathedral congregation, contributors towards the building of the cathedral, and members of St. Barnabas' parish, St. Mark's parish, and chapel may avail themselves of a card which will secure them a seat up to 10:45 a. m., at which time others will be admitted.

These cards may be obtained in the chapel of the cathedral on Monday and Tuesday, from 11 o'clock a. m. to 12:30 p. m.

NOTES. An excellent photograph of the interior of this cathedral, one of the most beautiful in America, has been taken, and copies will be distributed and placed on sale in different down-town stores Monday and Tuesday.

There is a proposition to introduce the electric light into the cathedral. Enclosed is some conventionalized globe of ecclesiastical design. Modern improvement in lighting would be of great advantage to the display of the elegant carved wood-work and brilliant decorations. At present the church is lit by gas side lights. If gas can be used in a church, why not electricity? Time was, no doubt, when the introduction of gas to supersede candles, was considered objectionable.

There is some talk of an arrangement with the C. B. & Q. road by which they will run a special car out of Chicago Wednesday morning to accommodate a large party of Chicago church people, (some members of Dr. Clarkson's old parish) and people from Burlington who wish to see the new cathedral, of which as much is known there as here.

The reredos behind the great altar is to be placed in position to-day, as well as the canopy to the communion table. The marble baptismal font is in place in front of the choir and is exquisitely wrought.

The cathedral is wonderfully beautiful but its limited seating capacity is already a matter of regret. If it could have been made larger by three hundred more sittings it would have been none too extensive for the demand which is being made for pews.

The regular congregation alone will fill it at present, not considering strangers, and if Omaha's population increases in the next two years as it has in the past two, another and larger church will have to be built up over the hills somewhere.

The sidewalk surrounding the cathedral has been raised and sloped evenly and everything put in excellent order. One or two windows are yet to be put in.

Rev. J. H. Hultman, of the Swedish Lutheran Evangelical Mission, returned Thursday from a two weeks' trip to Chicago and other Eastern cities. Mr. Hultman is quite noted among his countrymen for his fine singing, being a sort of a second Tenney and he favored the church last evening with some splendid vocal efforts which drew immense crowds.

Mrs. Maggie P. Robertson and her daughter, Gertrude, of Warren county, Iowa, are visiting in the city, the guests of Mr. and Mrs. D. H. White.

PAVING PROGRESS. The Work Being Pushed Sunday and at Night.

The present weather is most favorable for the work in progress on the various streets and alleys of the city, and it has been determined to take full advantage of it.

There is an immense amount of paving, curbing, guttering and grading going on, and scarcely a single street is in decent order, so that bad weather would make the reign of mud simply horrible.

In this condition of affairs, and to assist the workers an opportunity to make up for lost time, Superintendent Grant, of the Barber Asphalt company, has concluded to keep his full force at work on Sundays and part of the night, so long as fine weather continues. This will not only benefit the men but enable him to finish some of the streets on which paving has been begun.

Yesterday Mr. Grant laid 1,050 yards of asphalt on Harvey street, and this street will be completed by to-morrow night. On Monday the first coat on Fifteenth street will be laid on the block and a half which has been prepared for it. The next work will be the finishing of sixteenth street, which can be very rapidly done, as the base is nearly completed.

Russia Suffers from universal remedies for "cure, scale up" of cases and those wounds.

THE MICOMAS MYSTERY.

Correspondence with Gen. Crook on the Matter.

Some Facts Concerning the Border Indian Tribes.

A marked paper sent THE BEE by a well known army officer contains the following interesting story of the fate of little Charlie McComas. The extract is as follows: "The following letters, received by J. M. Wright, Esq., explain themselves and are important. A. F. Randall is a reliable gentleman, who accompanied General Crook's expedition into Mexico, and he knows whereof he speaks."

Mr. Charles Riewe, the old reliable undertaker, is the latest to wheel into line and has just completed the work of fitting up his new quarters on Farnam street, between Tenth and Eleventh, exactly opposite his old stand. He has one of the handsomest and most convenient places in the city and is centrally located and accessible to all.

Mr. Riewe has been a resident of Omaha for 17 years and has been in his present business for twelve years. During that time he has made a host of friends by his appreciation of the demands of the public and the satisfactory manner in which his duties have been performed. His accommodations are perfect and all goods in the undertaking line from the cheapest to the highest priced are kept on hand, in every variety, so that none can fail to find what they want. Telegraph orders are promptly attended to and telephone connections had with all parts of the city. Mr. Riewe's enterprise is sure to win success in business.

Tells the Truth. "This medicine I can highly recommend. It is the best blood purifier we have ever used." Chas. A. Burr, 15 Court St., Buffalo, N. Y.

STEALING SILVER.

A Workingman at the Smelting Works Makes Hay While the Sun Shines.

And Pockets Full to the Amount of One Hundred and Twenty Dollars.

Yesterday Mr. Nash, of the smelting works, telephoned up to police headquarters that a man in the employ of the company was suspected of stealing silver, and that if a policeman could be sent down immediately to make the arrest, a sum of money would probably be discovered on the man.

Upon receipt of this news Officer Flynn was immediately dispatched to the smelting works with a warrant to accomplish the arrest.

The man was pointed out and Flynn collared him and without further ceremony commenced to search him, to which he made no resistance. In his pockets were discovered some fifty ounces of solid silver. He had been engaged in taking down the cupola, or furnace, in which the silver ore is refined, and he had found in the chimneys quite a number of bits of silver. This he dropped into his pockets, but the action was observed by others.

The man's name is Daniel Hailley, and he has been heretofore employed in the roustabout gang, but was Thursday put to work cleaning the furnace. He made good use of his time and got away with as much metal as he could find. At his house was found 50 or 60 ounces more of silver, aggregating in all about \$120 worth. Officer Flynn brought Hailley up town and lodged him in the county jail, where he will await examination for grand larceny.

A Happy Family.

Called from the breast, and from the bottle stomachs will sour and milk will curdle; baby bawls all that night; the child cries for its mother and will not sleep; the mother is in a fever and the father is in a rage. All said their prayers and slept like thunder.

PER-OXAL.

Mrs. Wm. Badger, of Arlington, Neb., is at the Millard.

Captain A. H. Hancock, U. S. A., is at the Millard.

Dr. Ashton, of Defiance, Ohio, an old army surgeon, is visiting Omaha.

J. G. Mead, of the Pine Ridge Indian Agency, is at the Millard.

O. P. Stowell, of Auburn, and J. Donnelly, of Plattsmouth, are at the Paxton.

Major Peter D. Gross, of the Third cavalry is at the Paxton, and expects to pass the winter in Washington, on leave of absence.

Miss Jennie O'Brien and Miss Hattie Newnam, of Burlington, Iowa, are guests of Mr. and Mrs. J. D. Bier at the Millard Hotel.

Wiley Dixon, the well known depot policeman for the U. P., leaves today for a two weeks' trip of rest and recreation. He will visit his sister in Red Oak, Iowa, and his mother at Peoria, Illinois. We wish him a pleasant trip and a safe return.

Rev. J. Hultman, of the Swedish Lutheran Evangelical Mission, returned Thursday from a two weeks' trip to Chicago and other Eastern cities. Mr. Hultman is quite noted among his countrymen for his fine singing, being a sort of a second Tenney and he favored the church last evening with some splendid vocal efforts which drew immense crowds.

AN APPLE HARVEST.

Twenty Car Loads Bought by an Omaha Firm at One Deal.

Omaha commission firms are booming in business and making some big deals. Thursday Millard & Peck received from Kansas, a whole train load in one consignment, and the long line of drays loaded with barrels of apples standing in front of their Farnam street establishment made quite a display. Each car and each dray was adorned with this placard:

"Kansas apples. Special train from Devore, Calhoun & Co., Leavenworth, Kansas. Packed expressly for Millard & Peck, Omaha, Nebraska—Missouri Pacific railway."

Out of the 3,300 barrels in the train load, they have over 1,000 barrels sold now. The train load is not intended by any means to form their winter's stock, but will soon be disposed of, in this State, Wyoming, Montana and Idaho. The receipt of such a quantity is regarded as being almost unique, and that a single firm in this city can do with Omaha's advantages as a wholesale market.

This is the first special train of apples ever shipped, and it is a noteworthy fact. "Devore" is the king apple packer of America. This morning the sidewalk around Millard & Peck's was packed
