

THE DAILY BEE.

OMAHA.

Wednesday Morning, Nov. 14.

The Weather.

For the upper Mississippi and Missouri valleys, colder, clearing, fair weather, northwest winds, higher barometer, followed in the Missouri valley by slowly rising temperature and falling barometer.

LOCAL BREVITIES.

Novelty Works, 14th street, 113-ft. Two little "rooms" are occupying cells in the city jail for slaughtering Charley Fieck's pigeons with slingshots.

Several farmers who were foolish enough to attempt to haul hay into the city yesterday were rewarded by having their wagons upset and hay blown away by the wind.

Members of the Young Men's Christian association should bear in mind that this is the week of prayer for young men. Services will be held at the rooms every evening at 7 o'clock.

The following dutiable goods, direct imports, were received at the custom house November 13th, 1883: McNamara & Duncan, one cask Scotch whisky, one cask Jamaica rum; one cask Irish whiskey. Collections \$141.58.

The senior member of a prominent South Fifteenth street firm, not being satisfied with one partner will leave next Sunday for the East to take another. This firm may be of a startling nature except to the firm itself, but they will be greatly surprised to learn that anyone besides himself in the city knows of the affair. The newly married couple will return immediately after the wedding to Omaha.

The dangerous amusement of shooting slingshots has become altogether too prevalent among the boys of Omaha, and the police propose to arrest any one caught at it. Several complaints have already been sworn out at the police court, and Judge Benke proposes to punish the boys brought before him quite severely.

At a special meeting of the board of education last evening the vote on the question of expending \$30,000 for additional school sites and buildings was canvassed. There were 2,974 votes in favor of the proposition and 23 against it. It was decided that the fall term of the schools shall close on Friday, December 21st. It was moved and carried that all candidates for the position of principal should be required to hold a principal's certificate. The board of examiners was instructed to sit for the examination of teachers on Friday and Saturday following Thanksgiving.

There is some talk of forming a western baseball league, to be composed of nine from St. Louis, Sedalia, Kansas City, St. Joseph, Fort Atkinson, Omaha, Rock Island, Burlington, Des Moines, Keokuk, Quincy and other towns.

The St. Paul Pioneer Press publishes the following: "Funkhouser, of the Union Pacific club of Omaha, had the best batting average in the games played by his club during the past season, and Salisbury the best fielding average. McKelvey has the best general average."

Justice Stenberg is kept constantly at work at the mill of justice, and one grist is scarcely ground before another is turned into the hopper. Yesterday morning a case of a sensational nature was disposed of. A young woman of 19 years had a young man arrested and brought before his honor, charging him with being the father of her unborn babe. The young man acknowledged the fact, and the matter was settled by his paying to her, whom he had wronged, a sufficient sum of money, which she recognized as full compensation for her virtue.

On Monday Peter Crowther made complaint against August Wongsky, charging him with using obscene and lewd language in the presence of a female. The fourth month August was brought before Justice Stenberg, and a jury trial was had. The testimony which was adduced was of a very unsavory nature, and elicited the fact that the parties were near neighbors and resided just outside the city limits, on Thirteenth street, and that Wongsky was in the habit of singing songs of the most disgusting and obscene nature in the hearing of the plaintiff. The jury decided that he should pay a fine of \$5 and costs, which was by far too little, as he should have gotten at least six months in a sewer.

A Startling Discovery. Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all throat and lung diseases is daily curing patients that they have given up as lost, is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery, resulting in hundreds of our best citizens using it in their practice. Trial bottles free at C. F. Goodman's drug store. Regular size \$1.00.

Amusements. Last evening Mr. B. McAuley appeared at the opera house in E. A. Locke's American comedy-drama, "A Messenger from Jarvis Section," impersonating the part of "Uncle Dan," which has made him famous. "Uncle Dan" is a boldly sketched character of simple goodness and faith in human nature, but of great shrewdness and cool management when business calls upon his intellect and energy. Mr. McAuley plays the part with great force and effect. His dialect is broad, his manner countrified without rudeness, and natural; his affectionate hearty, sympathetic with all sorrow and distress, and indignation at all meanness and corruption. His conduct when he falls into the hands of the gang who threaten him, partakes of heroism, but at the same time is perfectly simple and honest.

There was but a small audience to greet Mr. McAuley and it was certainly not what he deserved, as he is an artist of real merit and is supported by a good company.

To-night Mr. McAuley appears in the "Jerseyman," in which character he is equally as good as in "Uncle Dan."

Bucklen's Arnica Salve. The greatest medical wonder of the world. Warranted to speedily cure Burns, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetters, Chapped hands, and all skin eruptions, guaranteed to cure in every instance or money refunded. 25 cents per box.

Mr. Lewisohn, a prominent New Yorker, who is heavily interested in western mines, passed through Omaha to-day en route to San Francisco, accompanied by a party of friends. They occupied a special Pullman.

THE CITY COUNCIL.

The Regular Meeting of That Body Last Night and the Usual Business Disposed of.

The Paving Bond Vote was Canvassed and the Result Declared in Favor of the Bonds.

The city council held a regular meeting last evening, at which all the members answered to roll call except Messrs. Dunham, Leeder and Kaufmann.

The first business of the evening was the canvass of the vote cast at the recent election for paving bonds. Messrs. W. J. Broatch and Len Hill were appointed tellers, and proceeded to determine

THE VOTE. First ward, For, 201, Agt., 57; Second ward, First district, 212, 7; Second ward, Second district, 235, 2; Third ward, 326, 2; Fourth ward, 401, 2; Fifth ward, First district, 195, 2; Fifth ward, Second district, 275, 2; Sixth ward, 384, 2; Total, 2292, 42.

The result was duly declared in favor of the bonds.

PETITIONS AND COMMUNICATIONS. From the mayor: Approving the appropriation ordinance. Filed.

From D. B. Houck: Suggesting the improvement of the post house, in anticipation of a visit from the small pox this winter. Referred with power to act.

From John M. Watt: Demanding \$200 by the grading of Farnam street, in Boggs & Hill's addition, which raised the street several feet above the lot.

From W. J. Broatch and others: Stating that the party to whom was let the contract for paving district No. 25 with Colorado sandstone had refused to sign the same and requesting that the contract be given Wm. Mack & Co. for Sioux Falls granite. Referred.

From Jenkinson & Archibald: Declining to accept contracts for certain alley paving districts where the excavation was greater in amount than they expected, and asking 30 cents per cubic foot for the removal of all earth above the grade of said alleys. Referred.

From the owners of property abutting on the alley in block No. 138, that in the rear of the Paxton hotel: Asking that the council so modify its action toward the grading and paving of that alley as to leave undisturbed the area way constructed for the use of the Paxton, and was most important to its welfare and success, in which the city is so much interested. The area-way was constructed long ago under ordinances permitting such work, and was in fact used by the Grand Central hotel. The petitioners offered to waive all objections to the payment of all assessments for paving the said alley.

A long and sharp discussion ensued upon the right and justice of granting the petition.

Mr. Hasall moved that in all alleys where area-ways have been constructed for light, ventilation or entrances to basements of houses constructed up to the alley line, the ordinance shall not be strictly enforced where it would work a hardship on the owners, provided that the property owners had block water certain rights to said alley. The motion was carried.

From the Appraisers of Damages by reason of the extension of Virginia avenue making their report thereon, which was referred.

From property owners in block 118, asking for changes of grade of the alley in that district and waiving damages. Referred.

From Lieut. Guy Howard, calling attention to the dangerous condition of the sidewalk on the South side of Chicago street, between Twenty-first and Twenty-second. Referred to the Sixth ward delegation.

From Mr. Dow, asking that the grade tax be remitted on certain property on Davenport streets. Referred.

The contract and bond, between Jenkinson & Archibald and the city, for curbing and guttering on Sixteenth street, near Pierce, were approved.

From Boggs & Hill: Submitting plan of a proposed addition of 70 acres in north half of northwest quarter, section 9, township 15, range 13. Referred.

RESOLUTIONS. By Murphy: To continue the brick sewer west on Farnam street as far as funds will allow. Adopted.

By Behm: That from December 1st the assistant city clerk of Chicago, J. Stabel, shall receive \$75 per month. Adopted.

By Leeder: To grade the alley between California and Cass, and Fourteenth and Fifteenth. Adopted.

By Anderson: To put in two wooden boxes, one on the south side and one on the north side of Caldwell, across Saunders street. Adopted.

On streets and grades: Approving the final estimate for grading on Nineteenth street, between Farnam and Dodge, by Benzon & Hamell. Several other estimates on curbing, grading and guttering were approved. All were adopted.

On name: Granting Frank King permission to pave alley in block 196 with Colorado sandstone. Adopted. On name: That acceptance of terms of ordinance 573 by the Omaha Belt railway be approved. Adopted. On police: Declining to confirm the appointment of Z. M. Ellis to succeed Wm. V. Armour as police, as they believe Mr. Armour to be one of the best officers on the force. Adopted. On fire: Recommending the allowance of \$225 to Alonzo B. Fry for his horse killed by a collision with No. 3 horse cart. Adopted. On sidewalks and bridges: Not to allow four feet of sidewalk on the use of three or four feet of the sidewalk on Sixteenth street for the display of goods. Adopted. On name: To replace sidewalks on Eleventh and Howard streets as soon as possible. Adopted. On name: Recommending extension of box culvert on Twenty-fourth street clear across Davenport. Adopted. ORDINANCES. An ordinance changing the grade of

Cuming street between Twenty-second and Saunders street was passed.

An ordinance ordering the extension of Farnam street from Twenty-ninth street to the city limits was passed.

An ordinance appropriating \$191 for grading done on St. Mary's avenue between Nevada street and the east end of Labagh's grounds was passed, as well as one levying the tax for the same.

A special meeting of the city council will be held on Thursday next as a board of equalization.

Adjourning to meet on Thursday evening at 7 o'clock.

These are Solid Facts. The best blood purifier and system regulator ever used within the reach of suffering humanity is Electric Bitters. Inactive of the liver, Biliousness, Jaundice, Constipation, Weak Kidneys, or any disease of the urinary organs, or whoever requires an appetizer, tonic or mild stimulant, will always find Electric Bitters the best and only certain cure known. They act surely and quickly, every bottle guaranteed to give entire satisfaction or money refunded. Sold at 50 cents a bottle by C. F. Goodman.

AN INTERESTING SUIT.

The Union Pacific Company Bring Suit Against Alexander Black for \$110 for Car Switching and Sand.

An interesting case was tried before Justice Stenberg yesterday afternoon, in which the Union Pacific railroad company was the plaintiff, and Alexander Black the defendant. Mr. Black had made a contract with the Barber Asphalt company to furnish them 100 car loads of sand upon track, on Seventh street, for 65 cents per square yard. The sand was taken from the beds along the river bank, and Mr. Black also contracted with the U. P. company to take his cars from the sand pit and place them upon the track on Seventh street for the sum of \$2 a car. After 29 cars had been delivered there was some delay in the work, and the U. P. company at once presented a bill to Mr. Black to the amount of \$110, being \$3 per car for switching and \$1 per carload for the sand. Mr. Black refused to pay the bill and the company stopped hauling his cars, and by this proceeding, Mr. Black was unable to fill his contract with the Barber Asphalt company.

The railroad company then brought suit to recover \$110 from Mr. Black, while the defendant files a counter claim for damages by the fulfillment of the contract by the company, to the amount of \$200 in addition to the \$110 for which he was sued, claiming \$5 profit on each carload of sand delivered.

Mr. J. S. Sharpshire appeared as counsel for plaintiff and Mr. Patrick O'Haves for defendant. A jury was called for and the case was hotly contested on both sides, occupying the entire afternoon.

The plaintiff acknowledged that they had agreed to haul the cars for \$2 per car, and Mr. Black likewise acknowledged that he owed them \$2 per car for hauling, but claimed damages for non-fulfillment of contract.

In a few minutes after the case went to the jury that body returned a verdict allowing the plaintiff the sum of \$58, or \$2 per car as per contract, but refused to allow any compensation for the sand which plaintiff claimed, and their property, and disregarding Mr. Black's claim for damages entirely.

Horford's Acid Phosphate. Valuable in Indigestion. DR. DANIEL T. NELSON, Chicago, says: "I find it a pleasant and valuable remedy in indigestion, particularly in overworked men."

THE PRIZE RING.

Ryan and Slade to Fight, Probably Within One Hundred Miles of Omaha.

Another prize fight is announced. This time Ryan and Slade are to be the contestants. The proposed fight grew out of an offer of R. K. Fox, of New York, to back Ryan in a mill with the Maori. Fox has posted \$500, and proposes that the fight shall be for \$2,500 a side, at catch weights, with bare knuckles, and for the championship of America. The present intention is to have the battle ground within a hundred miles of New Orleans or Omaha. The date will be some time in February or March. Slade will be backed by Sullivan and Al. Smith. Sullivan, in a private letter written to a friend in New York, says that Ryan is nothing better than a big blowhard, and that he (Sullivan) is ready to whip him with gloves anywhere, at twenty-four hours' notice.

The U. C. L. A. A meeting of the Union Catholic Library Association was called for last night at their rooms in Creighton block, but the inclemency of the weather prevented many from attending who would doubtless have been present had the temperature been more to their liking.

The meeting was called to order by the president, but as there was no quorum it was adjourned until next Wednesday evening, November 21, when it is hoped that all interested parties will be present.

The reports of the several officers were prepared for last evening's meeting, and are very encouraging. They will be read at the next meeting of the association, at which time also will be considered the advisability of holding a New Year's reception. The question in regard to establishing a debating society will also be discussed.

Iowa Thieves. Last night Andrew Sharp was arrested in this city, and Gus Loring was arrested in Plattsmouth, both being charged with having robbed three room-mates of some clothing. The parties all reside in Council Bluffs, are all tailors, and several of them have been occupying the same room together. On Sunday afternoon, during the absence of the rest of the party, Loring and Sharp decamped with two valises in which they carried off two suits of clothes and two overcoats. One of the overcoats was disposed of in the Bluffs, and the rest of the plunder was brought to this city, where, after several ineffectual attempts had been made to sell it, it was finally put up for security for a week aboard at the Scandinavian hotel by Sharp. The police here were notified, and last night they run in Sharp and telephoned to Plattsmouth, where Loring was arrested. The two thieves are now in jail, awaiting the arrival of an officer from across the river.

BRABMO SOMAJ.

A New Faith, Whose Apostle is Protah Chunder Mozoomdar.

He is interviewed by a Bee Representative.

The distinguished East Indian, Protah Chunder Mozoomdar, of Calcutta, arrived in the city this morning from Chicago, and at noon he departed for San Francisco on the Union Pacific express train. While he was at the Union Pacific depot a Bee reporter had the pleasure of an introduction to him, and met with a very cordial reception.

The raven black hair, the piercing jet eyes, and rich brown complexion of the gentleman at once pronounce him a native of India. Pleading in his address, easy in his manners and speech, he makes a favorable impression, and readily conveys the idea that he is a gentleman of education and refinement. Although his dress is in conformity with the modern European style, his nationality is strongly proclaimed in his person.

His hair is combed straight back from the forehead, and his beard, which is of rather thin growth, is worn full and neatly trimmed. He is of middle stature, and has a light, elastic step.

Like all East Indians of the higher class he is well versed in the lore of his own country and has added greatly to his education by a study of English books and travels through the European countries. As a linguist he has made great progress, speaking fluently nearly all of the modern and dead languages. He is 42 years of age, and his sojourn in this country, which has now extended to six weeks, was for the purpose of learning the manners and customs of America, and visiting the institutions for the purpose of enlightening his people. He has asked no assistance, but since his arrival his friends have insisted upon defraying his expenses.

To the reporter he expressed himself as being amazed beyond measure at the country and its resources. In New York and Boston his visit had been exceedingly gratifying, and he hoped before the termination of his journey to be possessed of much valuable information. While he evinced a desire not to thrust himself on the newspapers he conversed freely, and courteously gave all the information that was desired.

Mr. Mozoomdar, while not, strictly speaking, a reformer, comes as a representative of a comparatively new religious movement in India, known as Brahmoo Somaj, or the "Church of God." The denomination is an exceedingly interesting theistic movement among the natural races of India, the more interesting because it is independent as a movement of Christianity. It was organized in 1830 by Ram Mohun Roy, who died in England three years later. The movement existed in a somewhat doubtful state, however, between life and death for a number of years, until 1860, when it made its greatest convert in the person of Protah Chunder Sen, who is now the leader and prophet of the new dispensation. Chunder Sen and his followers differ from the older branch of Brahmoo Somaj in a very decided leaning toward the faith of Jesus Christ. When Joseph Cook was in India he proclaimed that Chunder Sen was almost a Christian, and recently he introduced Mr. Mozoomdar to Dr. Duryea's congregation in Boston.

The Brahmoo religion is an eclectic system, and its motto is to seek the good of all historic faiths, rejecting all survivals of polytheism, superstitious customs, and idolatry. It maintains that there is but one Supreme Being, and admits of the belief that Jesus Christ is a being who might be called divine in the exceeding possession of the divine spirit. The idea of His miraculous conception and supernatural birth is regarded in a like manner as the many similar revelations belonging to the old religion. The Vedas, the ancient Bible, is still looked upon as the sacred Scripture, the theory of its creation and inspiration being regarded in a like manner as that advanced by Heber Newton concerning our Bible.

Mr. Mozoomdar believes that the missionaries in India have done a work much greater than is shown in the actual number of converts of Christianity. He believes that the organization of the Brahmoo Somaj is indirectly due to the influence of the work of the missionaries and the literature taken with them to India. The order of worship in the Brahmoo Somaj is precisely the same as that of the Christian church, with the singing, prayers and sermon.

Mr. Mozoomdar preached in Chicago on Sunday morning at the Church of the Messiah, and in the evening at Plymouth church. He sails from San Francisco for Calcutta on the 20th inst., and from there to Calcutta, having then made a tour of the world.

Nebraska Crop Report.

OFFICE OF THE STATE STATISTICAL REPORTER FOR THE U. S. PLATTSMOUTH, Neb., Nov. 3, 1883. To correspondents and newspapers, as well as all persons interested in a statistical report from Nebraska:—We find from reports received the following as a summary and result of all reports made to this office up to this date. (I presume reports may come hereafter from some "Rip Van Winkles," but they will be too late for service.)

Corn yield per acre..... 41 bu. Quality..... 85 per cent. Potatoes, Irish..... 147 bu. Quality..... 100 per cent. Potatoes, sweet..... 114 bu. Quality..... 111 per cent. Hay, average tame and wild..... 2 tons. Quality..... 107 per cent. Sorghum, yield per acre..... 149 gal. Grapes, yield and quality..... 88 per cent. Apples, yield and quality..... 97 per cent. Condition of orchards..... 82 per cent. Spring wheat threshed at date..... 82 per cent. Grade of spring wheat, No. 2..... 74 per cent. Corn ready for market, Dec. 1st..... Very Truly, Dec. 1st.

DANIEL H. WHEELER, Sec. and Statistical Agt. for Nebraska.

RAILROAD NEWS.

A New Road to be Built in Wyoming. For several years considerable talking has been done about a railroad north from Cheyenne into the great cattle region and on into the coal lands near Fort Fetterman. Four years ago Cheyenne voted \$400,000 to the Union Pacific road or any other company that would put a road

through, but nothing has been done until last week, when the initial step was taken by prominent capitalists of Cheyenne.

Articles of incorporation were filed at the secretary of the territory's office for the Black Hills and Montana railroad company, with a capital of \$10,000,000, divided into 100,000 shares, the incorporators being F. Warren, A. H. Swan, M. E. Post, W. C. Irvine, and C. E. Anthony. According to the articles, the company have the privilege of operating a railroad in Wyoming, Montana, Dakota, and other States and Territories, with the accompanying telegraph and telephone privileges as needed. They will run from Cheyenne to some point on the North Platte river, striking off thence in one direction to the Black Hills and in another to some eligible point in Montana. The trustees for the first year are F. E. Warren, A. H. Swan, M. E. Post, R. S. Van Tassel, W. C. Irvine, J. W. Collins, and C. E. Anthony. Work is to be commenced at an early day, and will be completed as fast as possible.

NOTES. The Missouri Pacific railroad announces that the central, or 90th meridian time will be adopted on all the lines of that company beginning the 18th inst.

The railroads in Chicago have been notified that the Union Pacific would, on and after Nov. 10, check 150 pounds of baggage free to all points reached by Union and Central Pacific roads on the Pacific coast with each through ticket. Heretofore the Union Pacific allowed 150 pounds of baggage free to Ogden, and the Central Pacific only 100 pounds from Ogden to California points.

Real Estate Transfers. The following deeds were filed for record in the county clerk's office November 12th, reported for THE BEE by Ames' real estate agency: Thos. J. Fitzmorris and wife to Lyman Richardson, w. d., n. s. of 190 ft of lot 23 blk 5, Kountze & Ruth's addition, \$100.

Geo. H. Boggs et al to C. E. Wurtelle, w. d., lot 1, Kensington, \$450. Jennie L. Jackson and husband to E. D. Van Court, w. d., w. of lot 2 blk 23, Omaha, \$4500. Jeff W. Bedford et al to Jos. R. Campbell, w. d., lot 4 blk 4, Kirkwood, \$300.

Sam'l E. Rogers and wife to H. Van Deusen, w. d., lot 8 blk 2, S. E. Roger's add, \$600. Augustus Kountze et al to L. D. Burnett, w. d., lot 9 blk 3, Plainview, \$275. Ezra Millard and wife to G. Story, w. d., 115 ft of lot 15, Millard & Caldwell's add, \$1200.

Fannie C. McClure and husband to J. Vrana, w. d., n. s. of lot 5 blk 28 Omaha, \$107 50. Chas. C. Housel and wife to P. Penner, w. d., part lot 1 blk 3, Armstrong's 1st add, \$800.

MARRIED. RICHARDSON STEPHAN.—By the Rev. P. S. Blayney, at the residence of the bride's parents, October 21, 1883, Mr. Geo. Richardson and Miss Emma Stephan, both of Omaha, Nebraska. GOTTHEIMER BASWITZ.—On November 6, 1883, at the residence of the bride's parents, their daughter, Isabella Baswitz and Phil Gottheimer, of Omaha, Nebraska.
