RAILWAY NEWS,

The Iowa pool complications continue the principle topic of discussion in rail-road circles. Mr. Merrill, of the Mil-

Rock Island, had a long private conferrence in Chicago, Monday afternoon, discussing principally the difficulties that are likely to arise from a dissolution of the pool, and the effect it would have on the St. Paul and Northwestern business. The opinion prevails that there is greater harmony between the Rock Island and the St. Paul than appears on the surface, and that the reads may eventually join hands against the Northwestern and Burlington. Both the Milwaukee & St. Paul and Rock Island state that they have no desire to withdraw from the Northwestern Traffic Association, but as the Burlington is determined to give notice of withdrawing the following the property of the surface, and the Northwestern Association must go to pieces when the Iowa pool does. Reports were current vesterday to their cells and securely locked up. drawal, the Northwestern Association must go to pieces when the Iowa pool does. Reports were current yesterday that the Milwaukee & St. Paul's object in creating this hubbub was tobring about a decline in stock, but the revelations were read entired to the stock of the revelations were read entired to the stock of the revelations were read entired to the stock of the revelations were read entired to the revelations and securely locked up. were read with great interest and created considerable excitement, show that this trouble has been brewing for nearly a year past, and that the Milwaukee & St. Paul could not have acted as it did for the purpose only of breaking the stock

At the annual meeting of the stockholders of the Utah Eastern railroad, held at the company's office, Salt La e, Utah, Nov. 19, the following officers were elected: President, Sidney Dillon; vice-president and managing director, E. Dickinson; secretary, T. S. McMurry. The board of directors chosen is as follows: S H. H. Clark, E. Dickinson, C. E. Wurtelle, W. W. Riter, R. S. Chambers, Sidney Dillon, F. L. Ames, and T. J. Almy. The Utah Eastern was built as a competing coal road, but now it

won't compete. The Chicago & Northwestern has just issued a circular announcing that Sun day, Nov. 25, 1883, at 12 noon, the time on the various lines would be changed to conform to the time of the ninetieth meridian, or central time. The new standard time will be nine minutes slower than Chicago time, which is now the standard for all the Winona & St. Peter and Dakota, and fourteen minutes faster than the present standard on the Winona & St. Peter and Dakota divisions. Cn the latter divisions employes will set their watches fourteen minutes faster, and the other divisions nine minutes slower, than

their present time. General Manager S. H. Clark and Mr Shelby, of the Union Pacific, and the general managers of the Burlington and other roads interested in the Nebraska business, had a conference in Chicago Tuesday to agree upon uniform rates or business to and from Nebraska points.

Commissioner Daniels, of the Colora lo Pool association, telegraphs as follows: "By mutual agreement all second class Bargains in Farms & Lands rates, either basing or local to points in the state of Kansas, will be withdrawn Dec. 1, and connecting roads are requested to take such rates out of their rate sheets.

THE CHEVENNE NORTHERN. The Cheyenne, Black Hills & Monana Railroad company has filed its articles of incorporation at the office of Sec retary Morgan at Cheyenne.

The road will start from Cheyenne, thence running northward along the best practicable route it will strike the North lington, Coffee county, Kansas. Will exchange for Omaha property.

The trustees for the ensuing year are F. E. Warren, A. H. Swan, M. E. Post, W. C. Irvine, R. S. Van Tassell, C. E. Anthony and J. S. Collins.

It is safe to say now that Butte is the objective point of the Montana branch of the proposed road. The Bull Mountain and Rocky Canyon coal fields, the Emerson, Sixteen Mile and other mining districts will be contiguous to the line of road, while at its terminal point, the metropolis of Montana, it will receive

an abundance of patronage. The company has made a strong bid for the \$300,000 in bonds issued by the Laramie county to aid in the construction of one hundred miles of road through the county and the erection of depot buildings at Cheyenne. The Union Pacific held the first right to the bonds but their claim lapsed on November 1. Both companies are now asking for them

An Overcoat Thief. George Haskins, Wednesday afternoon

stole an overcoat belonging to C. B. Ha-

vens, superintendent of the bridge divi-

sion, and took it to a pawn shop and was endeavoring to "zoak" it, when Mr. Havens walked in on him. He was taken to the ticket office, corner of Fourteenth and Farnam, and an officer telephoned for, who, upon his arrival, lodged Haskins in jail. This morning he was ar-raigned in police court for the crime, and upon pleading guilty was sentenced to 25 days in the county jail. TELEGRAPH NOTES.

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was en At one time a discussion of the secret vice was entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is aware that it is his duty—lisagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and guardians will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous affections are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irrascibility of temper and general debility. The boy seeks seclusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Lascivious dreams, emissions and eruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palpitation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of idiocy before, finally, death relieves him.

To all those engaged in this dangerous, practice, I would say, first of all, stop it at once; make every possible effort to do so; but if you fall, if your nervous system is already too much shattered, and consequently, your will-power broken, take some nerve tonic to aid you in your effort. Having freed yourself from the habit, I would further counsel you to go through a regular course of treatment, for it is a great mistake to suppose that any one may, for some time, be t every so little, give himself up to this fascinating but dangerous excitement without suffering from its evil consequences at some future time. The number of young men who are incapaciated to fill the duties enjoined by wedlock is alarmingly large, and in most of such cases this unfortunate condition of things can be traced to the practice of sel

ment at the present day.

Young Men Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Waones will guarantee to forfeit \$500 for every case of seminal weakness or private disease of any kind and character, which he undertakes to and falls to cure.

Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and semetimes small particles of albumen will appear, or the color will be of thin mikish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.
