THE GREAT GENERAL.

Winfield Scott Hancock in Omaha Yesterday Morning.

A Visit to His Car MacKenzie Bowell Minister of Customs, of Canada, Also Made a Short Stay in This City.

Yesterday, at 10 o'c ock, two special cars were brought over the river to this city and were pulled down on the west side of the depot building and there left. In the rear car was noticeable the manly form of General W. S. Hancock, and as a BEE reporter was on hand, he immedisent to all alliances, giving names of speakers, subjects and all particulars. card to the general, who, in a very pleasant manner, requested him to be seated. Upon being asked the number of persons accompanying him the general stated that the party was composed of Mrs. Hancock, Mrs. Foster, Mr. Russell, Mr. Barber and himself. They are travelling in the director's car of the Wabash, St. The Trial of the Benner Stand-pipe Louis & Pacific road, which they will take through to the coast with them.

The reporter ventured to inquire as to the reasons for the trip, when Mr. Han-cock stated that he had been in very feeble health for some time and was still feeling very poorly, and that the present trip was one purely for health and recre-

General Howard met the party at the transfer yesterday and accompanied them to this city. It had been the inaround the city during their short stay, but General Hancock declined to leave his car en account of not feeling well and not caring to risk the chances of a fall upon the wet and slippery walks.

The party left on the noon train, over the Union Pacific, for the Pacific coast, where they will remain until weary, when

they will return to the east. The General stated to the reporter that younger days and was anticipating much pleasure in reviving old-time acquaint-

THE NEW CHURCH.

The English Lutheran Church Approaching Completion.

The new English Lutheran church located at the corner of Harney and Sixteenth streets, when completed, will be one of the most imposing church buildings in the city of Omaha. It stands upon the hill and as the frame of the spire has been erected, it looms up immensely.

A BEE reporter met Dr. Stelling, the pastor, last evening and inquired as to when the edifice would be completed and ready for occupancy, and was informed that the congregation hoped to be able to use the basement of the building by the first of February, and that the au lience room would be ready for use by Easter Sunday.

The roof is now on, the floors have been laid, and the finishing work will

e pushed right along. The contract price is \$30,500 for buildng the church, which does not include the furniture, which will probably swell these figures to \$40,000. Besides the other furniture of the church, there will

be a \$3,500 pipe organ. All work so far is paid for, and it is desired and intended that when the building is completed and furnished that it will be entirely free from debt.

MEN OF MUSCLE

John L. Sullivan and His Assistant Soon to Visit Omaha.

Mr. Smith, the agent of the John L Sullivan combination, yesterday afternoon completed the arrangements for an exhibition in Omaha. The time is next dition of a lot of clothing, camp and gar-rised evening, the 13th inst., and the place Boyd's opera house. The combination includes ten pugilists and boxers, headed by John L. Sullivan, the champion. These able assistants are Herbert Union Pacific railway, is in New York, but Slade, Steve Trylor, Pete McCoy, Mike Gillispie, Frank Moran and others. The exhibition consists of five boxing matches. Sullivan appears twice. The programme closes with a glove match between him and Slade.

Mr. Smith says this company has been great success. It has never yet showed in a hall that was found large enough to accommodate all who wanted to come. In rder to give a chance to the local talent that he may meet as he goes up and down the country, Sullivan puts up \$1,000 which he will present to any man who will stand up before him for four rounds. A citizen of Davenport thought to earn some money by a round with Sullivan

the other evening, but was acon com-pelled to give it up as a bad job.

These travelling sparring exhibitions are something new in the sporting line. Glove exhibitions are better than pugilism for several reasons. In the first place they are more pleasant to the con- Bros',

testants. A man doesn't get pounded out of countenance, nor does he have to dodge the authorities. Glove contests pay much better than genuine prize-fighting. In a prize-fight the man who gets whipped gets nothing, and the winner, when the expenses of training and preparation are deducted, doesn't get Goods, much more. Knocking out with the gloves means big receipts and sure pay. The three exhibitions given by Sullivan at Madison Square garden, New York,

THE BIGGEST THING YET.

Upon the Millard Hotel

A Large Crowd Present to Witness the Test, which was Entirely Satisfactory.

At 2 o'clock yesterday the fire department, under the supervision of Chief ment, which occurs, Engineer Butler, made a test of the tention that the party should take a drive Bruner standpipe, recently erected on the south side of the Millard hotel.

There was an immense crowd of people congregated in the streets below to wit- particular are invited to call at this ness the workings of the first standpipe erected in this state.

Promptly at the hour named the firemen, each with a coil of hose on his also a complete stock of drugs, and pay shoulder, ascended the ladder at particular attention to filling prescriphe had been stationed in California in his tached to the standpipe, which supplies and class delies competition and leads directly on to the roof, they will all be sold at the very lowest and operations were commenced. Two streams were then put on from the top and two from the third story of the building, all working atrong. An inch and a quarter nozzle was then attached at the top and a stream was thrown 100 feet high.

The working of the standpipe was perfectly satisfactory to the proprietors of the house, the patentee, the chief engineer and all parties who witnessed it. It is a grand good thing for large blocks, and more of them will probably be put up at once in this city.

PAVING POINTS.

The Asphalt Contracts of This Year Completed.

Some Interesting Facts and Figures,

The asphalt pavement contracts of the Barber Asphalt company for this year have all been completed in good shape by Superintendent Grant, who made extra efforts to finish the work laid out before winter closed in on us. He has done excellent work, and his enterprise and energy are appreciated by the citizens of Omaha, as well as by his employer, Mr. Barber, who recently gave him a very substantial testimonial as a recognition of Recruit Wm. J. Walker, enlisted at his valuable services. Mr. Grant has made a great many warm friends in Omaha, and they will be glad to learn that he returns here early in the spring to resume the work of superintending street paving. He leaves for the east in a few days, and will spend the winter in

Washington. Omaha now has over two miles of street pavement, all which, with the exception of six blocks of stone pavement on Tenth street, is of asphalt. There is a continuous pavement from the Union Pacific depot to Izard street on Sixteenth, by way of Harney or Douglas streets. Next year the entire business portion of Omaha will be paved. Many of the alley districts have already been paved with stone, and the work is still in progress. The paving contractors have paid out a great deal of money, and have employed a large number of men, most of whom live in Omaha. Some idea of the work and expenditures of the asphalt company may be abtained from the following statement of materials used and expenditures 384 tons pulverized stone dust. . . . 823,154.74 4895 cubic yds concrete..... 10623 bbls hydraulic cement.... 15,858.92 1,957,27 33,541,71 100 linial feet Park curbing .. 2.234,000 pounds Trinidad asphalt 53,795 gals residence oil.... 530 yards bank sand. 1,575 yards river sand Fuel..... Election of Officers and Sociable of Engine Company No. 1,

On Tuesday evening the hall of engine company No. 1 was filled with the members and their friends, the occasion being and on completion thereof will rejoin his the election of officers, which resulted in the selection of Charles G. Hunt as president; George A. Coulter, vice president D. W. Lane, secretary; W. J. Whitehouse, treasurer; A. J. Herold, foreman George Shields, first assistant foreman; L. E. Cassiday, second assistant foreman,

After the transaction of other busines the company took a recess of one hour, which was spent in enjoying the refresh ments placed before them by the refreshment committee. After recess the company was called to order, and George Shields and D. P. Beard sang a duet, the latter accompany on his guitar. W. J. Whitehouse then addressed the company, after which Charles Hunt sang Mine," followed by Prof. Schmidtroth, who entertained the boys on the zither. A. J. Herold sang "In Omaha," and Mr. Beard played on the zither. Mr. George Shields then sang "A Warrior Bold" and L E. Casiday got up and said that he was "a warrior bold," because to protect himself he had a Coulter in his right hand and a Shield in his left, and that although he had no Beard, he was going to send a Herold to Hunt up the Lane to the Whitehouse to announce that No. 1 was still alive, after which the company
