THE ELECTORAL COUNT.

The electoral votes for president and vice-president will be counted by the two houses of congress on the 11th of February. At this time no dispute concerning the result of the late election of the counting will be a mere matter of form, but if there were any differences or doubts...

THE CHICAGO HERALD has begun to publish important information regarding the postmaster-general's office. This is rather significant. Leland Stanford, the new United States senator from California, will snatch from Senator Fair the distinction of being the wealthiest senator.

OKLAHOMA.

Okahoma, about which so much fuss is being made, has no geographical foundation upon the maps of the United States. As located by the late Captain Payne it is an irregular shaped territory south of the Red Fork of the Arkansas...

THE CHICAGO HERALD pays the following left-handed compliment to Mr. Teller, the newly-elected United States senator from Colorado: Secretary Teller, who will succeed Mr. Hill, has been a senator before, though his chief claim to public distinction has been gained during his term in Mr. Arthur's cabinet.

THE ELECTION of Col. Spooner to the United States senate by the Wisconsin legislature adds another monopolist to the American house of lords. While it is claimed that he is not a monopolist himself, it is admitted that he is the representative of monopolists, and he will naturally take his place with that element in the senate.

SENATOR COKE'S cattle-trail bill provides for a cow-path six miles wide from the Gulf of Mexico to the Canadian boundary. The modesty of this request is only equalled by that of the subsidized railroads. Between the railroads on one hand and the cattle-trails and foreign land syndicates on the other the ordinary American citizen will find himself between two millstones, and it is only a question of time when he would be ground to death.

WELLS, FARGO & Co.'s annual statement of precious metals produced in the states and territories west of the Mis-

souri river, including British Columbia, and receipts by express from the west coast states of America, shows the aggregate products of 1887 as follows: Gold, \$26,256,542; silver, \$45,799,009; copper, \$6,086,252; lead, \$6,834,091. Total gross result, \$84,975,934.

NEARLY two hundred bills have been introduced in the legislature, and it is hoped that a halt will now be called. Unless more headway is made in the consideration of measures that are of real importance, very little will be accomplished by this legislature.

OTHER LANDS THAN OURS. The other of the week's victory of a detachment of the British army, under the command of General Stewart, over a large body of Mahdi's followers in Sudan.

THE renewal of hostilities in upper Egypt has given rise to much speculation in the capital of Europe. The prevailing impression is that the expedition will lead to an English protectorate over Egypt, since England could hardly withdraw from the country after such expensive campaigns.

THE Turkish proposals concerning Egypt and the policy to be pursued has created considerable discussion and an English cabinet council has been held to consider them. The proposals summarized are as follows: That Turkey agrees to recognize the Egyptian loan guaranteed by England; that part of the expenses of the English expedition shall be defrayed by the Egyptian treasury; that English occupation shall continue at least eight months, and shall not exceed two years; that the sultan will recognize the native tribunals of Egypt; that Turkey shall occupy certain parts on the Red Sea, and that the right of Egypt to conclude treaties of commerce shall be modified.

THE statement made by Jules Ferry in the French chamber respecting operations in China shows that a determined effort is to be made to accomplish something decisive. The fact seems to be that the French government, which has been quiet for the balance of the world for some months, that so far, the progress of its arms on the China coast has not been either brilliant or substantial.

THE understanding between France and Germany for co-operation against England continues to be the leading fact in the diplomatic situation. It undoubtedly is the work of France and Germany to accomplish a double purpose in maintaining it. It makes the military situation on the continent much less strained than it was. A France largely engaged in building up a colonial empire in Asia and Africa, and in fighting the people who—as at present in Cambodia and formerly in Tonquin—do not appreciate fully the benefits of annexation, is not likely to take up the policy of *Revanche* at home.

TWO little boys who stood on a Tennessee railroad track four hours in order to signal a passenger train so that it would not run into a swollen stream which had swept away the railroad bridge, were rewarded by a collection of money from the passengers. Pierre Lorrillard, the New York millionaire, who with a party of friends occupied a Mann boulevard car next to the engine, and for which he was paying \$100 a day, gave the boys a magnificent reward of five dollars.

TO Germany the services on the sea is still more novel and out of the line of national practice. It may be, therefore, that these new colonies will only make France and Germany the more valuable in case of a great war.

German colonization is making rapid progress on the western coast of Africa. An official report was received to-day stating that the German expedition had formerly annexed Oglat Brahmin, in the Dobruja country, a few miles north of Srebrenia. The action is understood to have been taken in pursuance of an agreement with France, which country has hitherto claimed a protectorate over this region.

THE recent action of the German government in taking possession of the northeast coast of New Guinea and the adjacent islands is not regarded with favor by Australia. The colonists complain that the home government has not properly protected their interests.

THE Result of a Joke. NEW HAVEN, Conn., January 23.—A run on the New Haven savings bank this afternoon, the excitement is increasing. The bank officers assert that the bank is all right and the run was caused by some person joking about the bank's condition.

Diphtheria is a terrible disease, requiring the greatest medical skill to effect a complete cure. Even when its power is broken, it clings to the patient with great persistence, and often leaves the system poisoned and prostrated.

BLITCHES CURED. I used your Cuticura Remedies for Blistches, and am completely cured. My Cuticura Remedies are the best I have ever used, and to the professor of medicine who has cured me, and thereby removing all my Blistches, pain, and all the stuff used by me, leaving the skin pure and white and soft. My greatest pleasure is in recommending such an article. W. J. WELLS, 1111 Broadway, N. Y.

\$200 FOR NOTHING. Having paid a \$200 to first class doctors to cure my rheumatism, I tried the Cuticura Remedies, which without cost cured me after using three bottles. W. J. WELLS, 1111 Broadway, N. Y.
