THE Nebraska legislatura resumes business to-day at the old stand.

THERE is considerable pipe laying going on already for the spring election. Not less than three candidates for the mayo alty are quietly driving their pins where they will do the most good.

THE Miller delegation to Albany is temporarily over-shadowed by the greater lights of the par y. The visits of Randall and Carlisle to the president-elect willdoubtless result in harmoniz ng the tariff wings of the party.

One hundred thousand dollars is the modest sum demanded by an Omaha citizen of the Union Pacific for damages to his person and prace of mind by being forcibly bounced from a freight train between stations in Wyoming. Evidently the walking was not gool.

A nur, has been introduced in the Indiana legislature for the suppression of hase hall on Sundays. Now here is a hint to the moral legislators of Nebraska who seem to have overlooked base ball in their various bills to improve the mo ais of this commonwealth.

WHEN Grover Cleveland hears both eides of the squabble that is going on in this stats he will begin to think that the democrats of Nebrasks are of some importance, and that the breach between the two factions must be healed. How to accomplish this, however, will somewhat puzzle the president-sleat, as it will be hardly probable that he can give each faction a cabinet position.
