

THE "DAILY BEE"

Tuesday Morning, Feb. 3.

LOCAL BREVITIES.

There was a general exodus of local bar-
risters for Lincoln yesterday.
Revival meetings to-night and every
evening this week at 7:30 at the South Tenth
street M. E. church.
Manager Elliott has offered the use of
the rink next Monday night for the benefit of
the News Boys' Home.
John Elmet and Miss Amelia Bus, Ed-
ward Williams, of Lincoln, and Miss Jose-
phine Yeeple, of Chicago, were licensed to
wed, yesterday.
The Metropolitan hotel started the month
of February with a bran new register and two
pages of it were filled with the names of
guests on the first day.
The coroner's jury investigating the death
of Joseph Apperson, the U. P. employe who
was killed near Chyanone the other day, found
that he came to his end by falling off a train,
and that the company was in no wise to blame
for the accident.
The Youth's Mutual Improvement associa-
tion, it is said, will consolidate with the
newly organized Charitable Union. The ob-
ject of the two associations are the same, ex-
cept that the Union intends to include young
men, while the Y. M. I. A. was organized
for boys especially.
There is a case of very light varioloid at
the post-houses. The patient, who is from
Florence, does not wish his name made
known, hence the authorities refuse to give it.
The case is a trifling one, and the patient will
be discharged in a day or so, unless an un-
favorable turn, wholly unexpected, sets in.
Messrs. Kimball and Shelby, of the U. P.
Eastern and Miller of the B. & M., have
gone to Lincoln, in response to invitation to
give testimony before a joint committee of the
senate and house upon matters having direct
bearing upon railroad legislation, and also
to show causes why the general passenger fare
throughout the state should not be reduced to
a three-cent basis.

PERSONAL.

Gen. Geo. M. O'Brien left for Lincoln last
night.
Deputy United States Marshal Showalter,
arrived in the city last night.
Clinton Snowden, the eastern journalist, left
the city Sunday night after a short visit with
Judge Hull. Mr. Snowden is en route to
California, being a member of the commission
appointed by President Arthur to examine
and report upon certain railroads in that state.
F. P. Arnold, Madison; I. M. Howe, Ver-
dona; D. Anderson, Columbus; D. W. Taylor,
Tekamah; R. S. Anglin, Springfield; Geo. A.
Magney, Papillion; D. K. Bond, Blair; Wil-
liam Todd, Ashland; Theo. Warlick, Blair,
Neb.; and A. Disjardins, of Chicago, are stop-
ping at the Metropolitan.
Mr. E. M. Batis, formerly cashier in the
office of internal revenue collector, Post, has
accepted a position in the office of Hon. A. J.
Poppleton, general attorney of the Union Pa-
cific. Mr. Batis was the official court re-
porter for Judge Post when the latter was on
the bench and is peculiarly adapted to the po-
sition which he is now called to fill.

OLD TIME WINTERS.

An Old Settler's Reminiscences of the
Winter of 1856-7.

Mr. A. P. Allen, an old settler in
Douglas county, in answering the ques-
tions as to whether this country had ever
experienced severer weather than that of
the present winter, gives some interest-
ing points with reference to the winter
of 1856-7, which, he says, was far colder
than the present one.
He had with him at the time a gentle-
man who kept a daily record of the
weather, and it is said that many times
the mercury fell to a point lower than
thirty degrees below zero, while the
average was about twenty degrees.
During the four months of December,
January, February and March, this cold
weather was experienced, almost without
any intermission. The ground, more
over, was covered with four to five feet of
snow, packed perfectly tight without
drifting. The river, too, was frozen solid
all the time, with 26 inches of ice.
The suffering in Omaha and vicinity was
intense and it is probable that the winter
will not be duplicated very soon in that
region. Strange to say, however, there
were no deaths in this immediate local-
ity from freezing, though the chances for
such fatalities were infinitely great.
Mr. Allen at that time lived at
Fort Calhoun, about sixteen miles from
this city. He tells of an amusing cir-
cumstance in connection with the cold
weather, of how he sent a young man to
Council Bluffs to purchase groceries for the
Fort Calhounites, whose periodically re-
plenished stock of groceries had run un-
usually low. Delayed by the heavy snow
fall underfoot, the blinding snow storms
overhead, the young man consumed
eight days in traveling the thirty-
three miles of the trip. Fortunately,
however, despite the influences of the
arctic weather, he finally arrived at the
fort with the provisions and was received
with joy, especially by his family, who
had given him up for lost.

Reader, who thinkest to compare the
present winter with the arctic winters of
Siberia, ponder!

Notice.

All members of the O. A. H. Rifles are
requested to meet at Cunningham's hall,
corner Thirteenth and Jackson streets,
Tuesday evening, February 3, 1885, at
7:30 p. m. sharp. By order of the Cap-
tain,
JOHN O'BARR.

THE SCHOOL BOARD.

Its Regular Monthly Session Last
Night.

Salaries Increased—The Financial
Reports—A Fire Escape System
to be Adopted for the
High School.

The board of education met in regular
monthly session last night. Present,
Messrs. Copeland, Livesey, Parker,
Specht, Gibbon, Points, Connoyer, and
President Long.
Minutes of previous meeting read and
approved.

COMMUNICATIONS.

From Truman Buck, city treasurer,
submitting monthly report, and showing
a balance in sinking fund, of
\$8,419 58, and bonds on deposit to the
amount of \$72,500.00.

From Laura W. Morse tendering her
resignation as assistant teacher in the
public schools. Accepted.

From Mrs. H. J. Ostrom, making de-
tailed complaint against one of the teach-
ers in the Central school. Referred to
committee on teachers and text books.

From H. P. St. John, tendering his
resignation as teacher in the Izard street
night school. Accepted.

From Warren Switzer, P. S. Perine,
Thomas A. Creigh, asking the board to
rent them the building on the corner of
Thirteenth and Douglas streets at a cost
of \$5 per month, for a mission Sunday
school.

Mr. Copeland thought that would be
establishing a bad precedent to allow
buildings to be used for any other pur-
pose than for day schools. If these gen-
tlemen wished to rent a building, they
could easily find one somewhere else.

Mr. Livesey thought it would do no
harm to rent the building for the pur-
pose indicated.

Mr. Points agreed with the first speak-
er, and thought that the buildings should
not be used for any other use than that
originally intended.

Mr. Gibbon said that he was not in
favor of allowing school property to be
used for sectarian purposes.

Superintendent James expressed him-
self on the subject, agreeing with the
last two speakers. These requests would
come in very frequently, and it would
be opening a very wide door in allowing
the petitioners the use of the building,
as requested.

A vote, taken on the question, resulted
unfavorably to the petition, five to
three.

From Acting Mayor Murphy, suggest-
ing a conference by committee of the
council and board of education, to ap-
point a special policeman, without cost
to the city, to collect delinquent liquor
licenses, the sum thus collected to be
turned over to the school fund. Referred
to committee on finance with
power to ask legal advice and report at
next meeting.

From Cleves Brothers, reporting
grading done by William Meyers, at
Hartman school addition to be worth
\$30. Bill allowed.

From Charles O'Connor, calling the
attention of the board to the "Euclid"
flagging, for which he is agent. Re-
ferred to committee on buildings and
property.

COMMITTEE REPORTS.

From committee on claims, reporting
recommended claims to the amount of
\$13,251 37. Adopted and secretary au-
thorized to draw warrants for the several
amounts.

From committee on teachers and text
books, recommending changes of salary.
Miss McCarthy's salary was raised from
\$90 to \$95. Miss Lewis was allowed an
increased salary of \$70 for eighth-grade
work from December 1st, 1884. Miss
Morley, teacher of elocution, was allowed
an increased salary of \$50 and Miss L.
R. Needham of \$45.

A supplementary report suggested
that it was inexpedient at present to in-
troduce German into the schools.

In connection with the subject of a
resignation of one of the night school teach-
ers the general subject of night schools
was taken up for discussion.

Superintendent James being called
upon, said that the three night schools
were doing fairly well and had scored
more than average success. The attend-
ance in total was from 60 to 100. It
would hardly pay to run the night
schools after the end of the present
month.

It was decided to allow the night
school to run until the end of the present
month. Mr. Fisher's resignation as
teacher of the Thirteenth street school,
was referred to committee on teachers
and text books.

From committee on buildings and
property, recommending that iron stair-
ways be placed on the northern portion of
the High School building and that two
stairpipes be erected, and that further-
more, the children be compelled to go
through a "fire drill" at regular intervals,
without first being apprised whether the
alarm of fire was genuine or fictitious.

The subject was discussed at some
length. Mr. Copeland thought that the
drill ought to be held more frequently
than once a month. Mr. Parker said that
it would be wrong to allow the drill to be
given without telling the children that the
alarm of fire was fictitious.

After a warm discussion, the question
was called for and the adoption of the
report of the committee (except that por-
tion referring to fire-drill, which will be
left to the discretion of superintendent
and teachers) was secured without dis-
sent.

From same committee, recommending
the payment of a claim presented by Du-
rene & Mendelsohn, for repairs on
High School building to the amount of
\$55 65. Adopted.

From same, recommending that the
salaries of the janitors of Hartman and
Flanagan schools be fixed at \$60 a month
commencing from January 1, 1885.
Adopted.

A special committee reported adversely
on the subject of gymnasium improve-
ments. Adopted.

RESOLUTIONS.

From Copeland, that a committee of
three be appointed to consider the sub-
ject of adding a system of Manual
Training to the High School course.
Adopted and a committee of Copeland,
Parker and Gibbon appointed.

From Connoyer, authorizing the presi-
dent and secretary to draw a warrant for
the sum of \$2,500 02, semi-annual inter-
est on the \$50,000 dist-rikt bonds.
Adopted.

At this point Mr. Specht moved to
advertise for bids on the projected school
building at the corner of Eighteenth and
Castellar.

Mr. Gibbon moved to amend by sub-
stituting the projected house at the corner
of Twenty-eighth and Farnam, the cost

of which, according to plans is to be
\$22,000.

A warm discussion upon this point fol-
lowed. It was decided to modify the
plans of both buildings and to hold a
special session two weeks hence to adver-
tise for bids for the erection of both
school houses in accordance with the
changed plans and specifications.

A bill from the office of the city engi-
neer was referred to the committee on
claims.

IMPERTINENT DRIVERS.

A Lot of Hack Drivers Who Care Not
For Life and Limb.

There are in Omaha a number of hack
drivers who have no regard for the life
and limb of pedestrians. They dash
through the streets with their reins
hanging loose and whip in hand and it
is almost as much as one's life is worth
to attempt to cross the street in front of
one of these modern "Jehus." No matter
who is crossing the street, whether it be
a lady or gentleman, it is all the same
to them and on they go and the
poor pedestrian must look out for
him or herself. A few of these imperi-
nent and careless fellows should be ar-
rested and given to understand that the
citizens of Omaha have some rights which
they are bound to respect.

Not alone are the hack drivers to be
condemned, but there are several careless
drivers among those who claim to belong
to the "upper ten" and they at least
should be given to understand that ladies
do not usually wear dresses upon the
streets to have them splashed all over
with mud. If you must drive fast, at
least pull up at the street crossings and
do not allow your horses to throw slop all
over everybody.

Ladies! Physicians and chemists have
analyzed Pozzol's medicated complexion
powder and recommend its use to their
wives and lady friends. Who better
could be said of it.

Stadt Theatre Masquerade Ball.
The Stadt Theatre will give a grand
masquerade ball, with marches, tableaux,
vivant addresses, concerts and a scene
from an opera, at Turner and Metz's hall
on the evening of Tuesday, the 10th
instant. The ball will be the biggest of
the season, and all who remember the
fun and the large attendance of the
theatre company's ball last year will not
fall to go this season. Preparations have
been made to entertain hundreds or a
thousand people. Tickets can be had of
any member of the Stadt Theatre, at
Turner Hall, J. L. Fruhauf, Ed. Maurer,
Max Meyer & Co. and Schroter &
Becht's drug store.

DIED.

WHOLESALE POISONING.

Twenty-Three Persons Poisoned by
Rough on Rats.

All Former Cases of Poisoning in
These Parts Thrown in the
Shade.

A case of poisoning has come to light
in this city, which throws all former
cases away back in the shade, and makes
the old Lucretia Borgla racket seem as
an idle tale. At 1814 Dodge street, lives
the family of Mr. C. B. Moores. Mr.
Moores is engaged as bookkeeper at a
down town grocery store and Mrs.
Moores keeps a boarding house at the
above number.

On Friday evening last, as the family
and boarders were seated at supper, the
sugar bowl was passed to one of the gen-
tleman boarders. The gentleman
noticed that the sugar was slightly dis-
colored and called the attention of the
landlady's daughter who was seated next
to him, to the fact. The daughter called
in the servant and had the sugar removed
from the table. Before the sugar was
taken from the table, however, two or
three of the boarders had partaken of it
and shortly after supper they were taken
ill.

The attack did not prove a serious
illness and nothing was thought of it.

The sugar which was removed from
the table Friday evening was used in the
manufacture of the pastry for the Sunday
dinner. All of the boarders, the mem-
bers of the family and the two servants
partook of the pastry and a short time
after dinner all were taken ill. Several
of the young gentlemen who had gone
out to call upon their best girls were
obliged to cut short their visits and return
home to join the rest of the occupants of
the house in a vomiting mania. And a
vomiting mania it was. They all
"heaved up Jonah" until it seemed as if
their very boots would come up.

Dr. R. M. Stone was sent for and
hastening to the place found twenty-three
persons all of whom gave signs of poison-
ing from arsenic. He ascertained that
they had had canned fruit and supposed
that the poison had come from it.

Upon examination, however, he found
that several of the boarders who had not
partaken of the canned fruit, were just
as ill as any of the others. He was told
about the discolored sugar and called for
some of the rough on rats and after mixing
it with the sugar showed it to the parties
who had seen the discolored sugar and
they at once pronounced it as the same
thing that which had been in the sugar
bowl Friday night. It was ascertained
upon all that they had been poisoned by rough
on rats, as the discolored sugar had been
used in the manufacture of pastry.

Antidotes were at once administered
and the patients were soon all right with
the exception of Miss Ogden, a clerk in
the Union Pacific headquarters, who is
threatened with inflammation of the
stomach from the effects of the poison.

Among the party who partook of the
poison were, Miss Ogden, Woodcock and
Irvine, lawyers; the Messrs. Foster, who
are employed in the Omaha National
bank; Messrs. Snow and Welsh, of the
Glee club; Messrs. Barck, Block and
Cochran, all the members of Mr. Moore's
family and the two servants.

Mrs. Moores says that she had used
the rough on rats a few days since and on
Saturday noticed that it was misplaced and
that some of it was gone.

It is supposed that it must have
fallen down and got mixed up in
some way with the sugar. It was a
most lucky escape for all and should be
a warning to all persons to be most careful
in the handling of poison. It is certainly
a very careless trick to leave rough on
rats, or any other poison lying around
where they can be any possibility of its
being mixed up in any way with the
food. Rough on rats is not only good
for what it is intended, but is very bad
to be eaten by human beings, and is ex-
ceedingly rough on men and women.

"GROUND HOG DAY."

The Day Upon Which the Ground
Hog Crawls Out of His Hole
and Takes a Look at
Nature.

Yesterday was the second of February,
according to an old tradition is the day
upon which the ground hog crawls out of
his hole in the earth, in which he has
spent the winter time, and takes a look at
nature. If the sun is not shining and
the knowing animal cannot see his shadow
he concludes that the hardest part of
winter is past and it will be perfectly safe
for him to remain upon top of ground and
take his chances along with the rest of
creation. But, on the contrary, if the
face of the sun is not veiled by
a friendly cloud and the ground hog
is permitted to gaze upon his own shadow,
he quietly and quickly goes through the
mazy windings of the "shadow dance,"
and then dives down deep again into the
bowels of mother earth, for he is thor-
oughly convinced that it will be six long
weeks and longer will hold dominion over
the face of the earth and that his majesty,
the ground hog, cannot find a single grain
of comfort in such a rule.

The day has come, and with it came
the bright sun of heaven in all his resplendent
beauty. The friendly cloud failed to
put in an appearance in time to save the
ground-hog from seeing his shadow, and
hence it may be set down as a settled fact
that it was the man of old weather will
visit this country.

The second day of February is com-
monly known as "Candlemas day."
Candlemas is a church festival, held on
the 2d of February, which has in Scot-
land been chosen as one of the four term
days. The festival commemorates the
purification of the Virgin; and the ob-
servance to which it owes its name, viz.,
the lighting of candles, and in the
Roman Catholic church, the consecration
of the candles which are
said to be used during the year for
ecclesiastical purposes, are said to have
an emblematic reference to the prophecy
of Simeon that the child Jesus should
become "a light to lighten the Gentiles."

The institution of this feast dates prob-
ably from the reign of Justinian, and the
year 542 is sometimes fixed upon as that
of its first celebration. It is supposed to
have grown out of the heathen festivals
held in this month, a view of which is
supported by the following considera-
tions: (1) The word February (con-
nected with februa) denotes purification
of the people took place; (2) the rights of
the Lupercalia, which were celebrated on

the 15th, included the lighting of
candles, in allusion to those used by
Ceres in her search for Proserpine; and
(3) the origin of other Christian feasts
appears to have been similar.

POLICE COURT.

A Large Crib for Grinding Yeas
terday Morning.

In police court yesterday there were
a number of cases for trial and the space
outside of the railing was completely
packed with spectators, all craning their
necks to get a glimpse of some poor un-
fortunate who had fallen into the clutches
of the law.

G. A. Roberts and Mart Connolly were
each fined \$5 and costs for disturbance
of the peace by being drunk.

Tom McGregor was fined \$5 and cost
for being drunk. By reference to the
records it was found that he had an old
sentence of fifteen days on bread and
water standing against him and this was
added to the new one—and the probability
is that Tom won't get out from behind
the bars until "The Reuben's nest
again."

Belle Sanford, a notorious colored pre-
stidite, pleaded not guilty to disturbance
of the peace and her case was continued.

Belle Harris, for being an inmate of a
house of prostitution, was fined \$3 and
costs. Lou Catlin, on a like charge, was
fined \$5 and costs.

Mike Gilligan and Charles Fieher were
charged with fighting. Both pleaded not
guilty and their cases were continued.

Frank Geiber was arrested at the in-
stance of his wife, for disturbance of the
peace. He gave bond to keep the peace.

C. J. Oakley slept with John S. Smith
Sunday night and arising in the morning
found that he had been robbed of \$8.
He had Smith arrested and in police
court he pleaded guilty and was sen-
tenced to twenty days in the county jail
on bread and water.

A BAD FALL.

Francis Turnica Suffers a Severe
Fracture to His Left Leg.

Sunday evening as Francis Turnica, an
architect employed in the office of the
Union Pacific railroad, living corner Eighth
and California streets, met
with a severe accident, which will lay him
up for some time to come. Just as he was
nearing his home he stepped into a bad
hole in a miserable old sidewalk, and fell
sideways to the ground. He is a very
large man and probably weighs 250
pounds. The force of the fall broke both
bones in his left leg, just above the ankle.

He was carried into the house and Dr.
Lee was summoned. The physician re-
duced the fracture and made the sufferer
as comfortable as possible under the cir-
cumstances. In the fall Mr. Turnica's
forehead was badly cut up and he sus-
tained numerous bruises. He will be
confined to his room for several months.

It is more than likely that the city of
Omaha will be called upon to pay the
damage caused by a defective sidewalk
and it is safe to say that Mr. Turnica
will not accept any small sum as sufficient
compensation for his injuries.
