advance of 4@4 per cent.

Stocks—At the opening of the stock market this morning the majority of stocks showed gains of 4@4 per cent. In early dealings a decline of 4@4 per cent took place. Soon the decline was stopped, however, and the whole list became strong, with Lakewood leading, both in advance and in amount of business done. During the forenoon, sales of Lakewood amounted to thirty per cent of the total transactions, and the price rose to 99, the highest since December 12, 1884. After midday special attention was given to New York Central and Lake Shore, although considerable business was done in the North-western and St. Paul. New York Central rose to 104, showing a gain from the lowest price of the morning of 4@4 per cent. The extreme advances were not, however, fully maintained to the close, a decline in prices of the most active stocks being 4@4 per cent. Closing quotations, however, left everything on the active list slightly higher than last evening.
