Governments-Quiet. Four and a half per cents registered #c higher; coupons advanced

Stocks-Strong and very active at the opening in the morning. The first prices were generally 1@2 per cent higher than the close last evening, but on a further slight advance traders realized to such an extent that a reaction was brought about. This was followed by a recovery, and the market continued strong until between 1 and 2 o'clock, showing gains of 1@2 per cent. In the last hour it was decided to break, during which the advance was entirely lost in most cases, and the market closed weak, at a decline.
