A FEW MISTAKES.

President Cleveland is having considerable trouble with some of his appointments. Lawton, whom he appointed minister to Russia...

The appointment of James M. Morgan, of South Carolina, as consul-general at Melbourne, created no comment in the democratic ranks...

THE CROW CREEK question bothers President Cleveland about as much as the problem of the Afghan "sand-box" puzzles Mr. Gladstone.

HON. LEVI P. MORTON will resume business at his old stand—a New York banking house—at an early day.

POSTMASTER-GENERAL VILAS has succeeded in having a postoffice named after him. It will take him more than four years to catch up with Frank Hatton.

Now that the "rascals" are being turned out, we would like to know how many "rascals" are being turned in? We venture to say that it is pretty nearly a stand-off.

THEY have held an election in Lincoln for postmaster. When are they going to hold an election in Omaha, and will such an election elect? Perhaps we shall have to start a citizens' movement.

THE Republican has disposed of Marshal Cummings, but it has not yet decided who is to be his successor. Meanwhile Marshal Cummings goes right drawing on his salary and doing his duty to the best of his ability.

ANOTHER rascal stepped out with his head under his arm, when United States Treasurer Wyman made way for Mr. Jordan yesterday. Keep the procession moving.—Denver News.

What does the Omaha Herald, which talks so much about turning the "rascals" out, have to say to this style of democratic reform vilification?

GOOD use is to be made of the Nebraska exhibit, now at the New Orleans exposition. It is to be taken to the St. Louis exposition in September.

THE name of Omaha is advertised upon the sea as well as upon the land. One of the United States war vessels is named the Omaha.

THE promotion of G. W. Holdridge to the position of general manager of the B. & M. railroad system, west of the Missouri river, is a deserved recognition of his ability as a practical railroad man.

DR. MCGILLICUDDY has arrived in Washington. He is fully prepared to answer the charges made against him by Red Cloud. He has brought with him a party of Indians to swear that his administration gives general satisfaction.

THE public debt of Canada is now in excess of \$257,000,000. In this amount the \$32,000,000 advanced to the Canadian Pacific railway is not included.

THE men interested in the exposition company have adopted some of the ideas that were suggested by the BEE, and have enlarged upon their original project.

THE proprietors of the summer resorts around Niagara Falls object to the park bill which has been passed by the legislature and which only awaits the governor's signature to become a law.

OTHER LANDS THAN OURS.

Although no formal declaration of war has been declared between England and Russia, the maintenance of peace is almost hopeless.

England will fight, and fight with all her old courage and tenacity to protect her Indian possessions.

IT is there are any dishonest, incompetent, untrustworthy or "offensively partisan" republicans in office—and no doubt there are plenty of them—they should be removed.

SOME time ago it was given out and generally understood that the president would fill the territorial offices with citizens of the territories.

THE benefits of high license are well illustrated in the case of the city of Milwaukee. The mayor in his message, after recommending a material increase in both the police and fire departments...

MR. THOMPSON has undertaken to brace up the British fleet with a poetical effusion. He says in language poetic that the "wild mob's million feet will kick" the naval authorities from their place, if they have only compassed the disgrace of the navy.

MR. TAFT, the American minister to Russia, who has been ill for some time, is now convalescent. It is quite likely that Mr. Taft will retain his position until congress meets.

THE Custer county trouble deserves the attention of the governor. The settlers are entitled to protection against the Brighton ranch company or any other corporation that attempts in any way to forcibly interfere with their rights.

VICE President Hendricks is making a nuisance of himself in Washington by his persistent begging for offices for his Hoosier constituency.

PRESIDENT CLEVELAND'S favorite flower is the American dairy. We thought at one time that the Nebraska sunflower would hold a high place in his affections.

THE Republican ought to be called the Pinefire. The political sentiments of that paper have been as badly mixed as the babies in the opera. There's nothing like having a Buttercup editor.

IT is suspected that Gen. Grant's proposed summer trip to the Catskills is simply a scheme to escape from the doctors.

A MISSISSIPPI editor named Horn asks for the pardon of Jeff Davis. He will probably get it—in a horn.

By the way, are there any "offensive partisans" around here that ought to be removed?

PERSONAL.

A Worthy Project. In conversation with a young man who is a member of the Y. M. C. A. of Omaha and has a firm belief in the usefulness of the society, a BEE reporter learned that efforts will be made to secure a building for the purposes of the society in this city which shall belong to it and be worthy of it and the work it endeavors to accomplish.

In Chicago, so well do the business men know the worth of this society, that by voluntary contributions they have a magnificent building where by paying a yearly fee of \$5 young men have opportunities to attend lectures of the very best character, concerts, musical entertainments, debates, etc., etc.

It is proposed to secure a two-story building. On the ground floor would be stores whose rents would defray some of the expenses of the society, while the upper rooms could be used for hall, gymnasium, class rooms, reading room, library, bath room, etc.

This association, which is world wide, has unquestionably done much good in the world, particularly for young men, and in no place can its good influence be more serviceable than in this section where so many have left home influences behind.

A Sad Case of Insanity. John Haggarty, a young man about twenty years of age left his home in Burlington, Iowa, last week, intending to come to Omaha and get work.

There are 161 students in the Kalamazoo, Mich., college. Gen. Jacob Cox has been elected president of the Cincinnati university.

Maine university, which has been closed for ten years, is soon to be reopened. In Moscow there are said to be over 100,000 children of school age, yet the municipal schools have accommodations for 7,000 pupils only.

Stephen B. Elkins has accepted an invitation to deliver the annual address before the Alumni association of the University of Missouri, at Columbia, June 4.

The United States is the only civilized country in the west of the former superintendents of schools in Boston, whose teachers do not hold their positions by permanent tenure.

The New York board of education has been petitioned by a committee representing the "Turn Veritas" of the city and vicinity to introduce gymnastic exercises into the public schools, on the ground that muscular is necessary to mental development.

The medical department of the Iowa state university expect to have a fine amphitheater built adjacent to the hospital building, to be used for clinical operations and instruction, and to be attached to the scale commensurate with the advance and growth of the department.

The legislature of Wisconsin has appropriated \$20,000 for the benefit of the University of Wisconsin. This sum is designed for rebuilding the scientific laboratories destroyed by fire December 1, 1884, and the insurance on the burned buildings amounting to \$40,000 is to be used in refitting the departments with furniture and apparatus.

Austria supports seventy schools of agriculture, with 2,300 students in 1,174 agricultural evening schools, with 5,500 students. France has forty-three farm schools with 400 pupils at each. The government pays the board of each pupil, and allows him to France a year for clothing. Prussia has ten department schools of agriculture and a National Agricultural Institute. Germany has over 150 schools of agriculture, horticulture, arboriculture and viticulture. The first experimental agricultural station was established in 1852; upward of sixty are now in operation, each one having a special line of research.

Priest—"The devil will you me sure, Pat. I hear of you being drunk again on Sunday." Patrick—"Reck any there, yer reverence, for it's only last night I got with the Hon. St. Peter and his Riverine the Devil a chummin' dice for me soul. 'Dad, how I shiver when the devil got double sized! 'Tis miracles, Pater, see he 'Yankee' says Pater, as he chucked double sixes."—Columbia Spectator.

NEWSPAPER OUTFITS. TO PUBLISHERS. The Western Newspaper Union, at Omaha, in addition to furnishing all sizes and styles of the best ready printed sheets in the country, makes a specialty of outfitting country publishers, both with new or second-hand material, selling at prices that cannot be discounted in any of the eastern cities.

We handle about everything needed in a moderate sized printing establishment, and are sole western agents for some of the best makes of Paper Cutters, Presses, Hand and Power, before the public. Parties about to establish journals in Nebraska or elsewhere are invited to correspond with us before making final arrangements, as we generally have on hand second-hand material in the way of type, presses, rules, chases, etc., which can be secured at genuine bargains.

Send for the Printer's Auxiliary, a monthly publication, issued by the Western Newspaper Union, which gives a list of prices of printers' and publishers' supplies and publicly proclaims from time to time extraordinary bargains in second-hand supplies for newspaper men.
