## AN INVINCIBLE ALLY.

CONCLUDED.

Clare rose and began to put away her music. Panton creased to the fireplace. "Time goes swiftly in the land of Nod" he said to me, "but we could have given you a long start to-night, and even then have won.

"Mr. Panton must spack for himself.

Clare interrupted, with a light frown. "Have I not done so?" he rejoined rapidly. Then he laughed pleasantly, and, after an instant's pause, returned: "Probably Miss Denby finds my views too comprehensive."

"When they make her an involuntary party to their meaning, she certainly "Clare answered.

"Ah," he cried, "it would be against my own interest to do so, else I should be robbed of the pleasure of convincing her that they are true."

"Then you must take an opportunity of doing that to-morrow," I said getting up from my place, "for I cannot afford to lose my beauty sleep for the sake of listening to two young people talking noneense.

The next morning I passed, as usual, in the study, and in the afternoon, as the weather continued fine, it occurred to me that I had not seen my old friend the squire for some time. I proposed, therefore, to ride over to the Grange and pay him a visit, and as Pauton mentioned he had better write, I suggested his making use of the library during my absence. In this he readily concurred, and before starting I saw him comfortably inscalled in my place, Clare baving stated her intention of going to the village in order to nake some necessary purchases.

It was close upon the dinner hour when returned, and hastily dressing I hurried downstairs. The young people were already waiting for me, and we at you've enjoyed yourselves."
"Perfectly," replied Panton in a tone
conveying that for his part he could have once passed into the dining room.

The evening was spent much in the same way as the previous one, but I thought I detected a sensible increase of warmth in Clare's manner toward Mr. Panton. As for him, it seemed imposs!ble that anything should stop his flow of spirits. He talked incessantly, and, I am afraid a great deal of nonsense.

Next day, as I sat reading in my room, he entered in his usual unceremonious fashlon. "I hope I don't disturb you r," he said.

Not at all," I answered, laying down ny book. "Take a seat." "Thanks," he replied; "If its the same to you I'd rather stand. I've always hand on Clare's shoulder, "and what

"No more did I," he answered, adding with some slight hesitation, "until I came

"Perhaps you don't want to make an mpression," I suggested. "Oh, but I do," he continued, with

curious frankness. "You'll excuse my mentioning it, but Miss Denby is a deucedly attractive girl." "I think it was yourself who first hinted that she took her intellectual qualities

One might wife has been using the Bitters for rome have thought I was a perfect stranger to months; the effect in her case is remark the lady in question. So unconcernedly able." He also writes that owing to did my guest announce to me the state counterfelts and imitations, it was diffi-of his feelings for her. I will not say calt to get the genuine article. "Well," I continued, inquiringly. "I was anxious to learn in what light the fact will strike you."

"You mean as regards an engagement between my daughter and yourseli?" "Yes," he answered. "I suppose you might put it that way."

But, otherwise, I do not know anyone whom I would welcome more gladly as Clare's husband."

"Then, if I satisfy you on that point, there is no obstacle to my trying my luck?"

"None whatever, I answered, deeming it unnecessary to allude to the Brown episode. 'You have my full consent, and I can only trust that you will be equally fortunate in winning Clare's."

and I can only trust that you will be equally fortunate in winning Clare's."

"Thank you was his reply; "I fancy you'll excuse me I'll go into the garden now and smoke a cigar. Perhaps I may hit on some likely plan for obtaining that during the process"

"Certainly my boy, do as you think best," I rejoined. And so this remarkable interview came to a close.

My little scheme was, then, a success so far. After all, your clever people are not difficult to circumvent if one goes about the business properly. The very simplicity of my project, I said to myself was probably the chief reason that it prospered so well. A less single-minded man than myself would almost certainly have ruined all by too great zeal, but the unobtrusive manner in which I pulled the wires was, I felt, in the spirit of the highest deplomacy.

It was true that I had still to deal sells readily at quotations when wrapped in cloths and well packed.
