State and City School Superintend ents from Nebraska, towa and Kansas Meet to Discuss

Kansas.

Henry Wilson, of Topeka Kansas, has been earnestly endeavoring for a long time to get an interstate meeting of the leading educators from Nebraska, Iowa and Kansas, for the purpose of discussing questions which are of general interest to all the schools of these states.

Yesterday Mr. Wilson's efforts were crowned with success, and he had assembled in convention at the Cozzens house the following educational gentlemen:

gentiemen:

J. H. Lawhead—State Superintendent of public instruction, Topeka, Kan.

F. A. Fitzpatrick—Superintendent of city schools, Leavenworth, Kan.

Richard Meade—Superintendent of public schools at Atchison, Kan.

Prof. Parish, Des Moines, Ia.
Prof. Anson Gove—Supt. of Public Instruction for Colorado, Denver.
Prof. Geo. S. Wedgewood, Lincoln.
Harry Wilson, Topeka, Ks.

They convened in the parlors of the hotel at 10 o'clock yesterday morning with Supt. Lowhead as chairman of the meeting and Mr. Wilson, secretary.

Asstated above the objects of this gathering were wholly for the purpose of discussing questions that have in their bearing a general interest to all of the states represented.

The question which consumed most the time of the forencon session, was: "What are the duties of the superintendent and how can he conduct his work to promote the highest usefulness of the office?"

Adjourned for dinner.

AFTERNOON SESSION. On reconvening, the first subject taken up was the relations of superintendent to the public, the board of education, and to the teachers. This subject, being so general in its nature, offered an immense and diversified

scope for argument, and nearly every one present had something to say on it.

The best method of holding teachers meetings was also another interesting theme, and ings was also another interesting theme, and consumed considerable time. A majority advocated grade meetings, some the general meeting, while a few held that the most good was to be derived from a combination of the two. Then followed the system for marking pupils, and on what basis they should be promoted—whether by their standing in an examination or the amount of work done during the school year. The accepted theory was, that promotions should be made on a combination of the two qualifications. ation of the two qualificatio The meeting adjourned until October 24, to

It seems that the scene of the affair was principally in the house, not of Mr. Wexman, but in the large parlor of Martin Flausgan, next door, which had been secured for the occasion. As the evening were on and the rejocing became general, the jarring music of a charivari broke on the ears of the guests and bad language and violent conduct were provoked to such an extent that Mr. Flanagan requested the bridal party to return to their own roof. This they refused to do, and in the argument which ensued a lamp was upset and a fire alarm sounded, but fortunately no property was destroyed. M. and H. C. Wexman, broth ers of the bride, and Mr. Ganesbergh, a friend of the groom, were arrested on a raigned before Police Judge Stenberg yesterday, all parties plead not guilty, and on failing to prove their guilt, they were dis-

ANOTHER ONE. Judge Anderson officiated Thursday night as high mogul at the wedding of Israel Frank and Carrie Lindblatt, who were married at the residence of the bride on Twentieth and Dorcas streets. The usual festivities were indulged in and a large number of presents were bestowed upon the couple. The affair would have been strictly au fait but for that it was marred by a charivari. A number of small boys, big boys and men gathered in the neighborhood and deluged the air with sounds of the most hidcous discription such as are produceable upon tin herns, pans, drums, "resin-bows," etc., etc. Indeed, Judge Anderson says that he never suffered such a din before, and has about made up his mind to charge double prices for hisservices at a wedding where the charavari

SOUTH OMAHA

The Advantage of Settling in the New Town

The Advantage of Settling in the New Yown

The title "South Omaha' does not mean the southern part of the city of Omaha, but is the name of the thriving town commencing at the Union Stock yards on the south, and extending for a mile and a half north, nearly connecting with the city limits of Omaha.

The company have again concluded to put on sale 1,000 lots, and let the purchasers of the same realize the profit which the enhanced value of these lots is sure to make. It now being an assured fact that South Omaha is destined—in the near future—to be the largest live stock market west of Chicago, there can be no doubt that this property in a few years will be worth five or even ten times the amount that it can be bought for to-day.

Some may ask: If this is so, why do not the company keep it and realize this profit. The answer is, that in order to make lots valuable, there must be improvements on or sur rounding them, and as is the case in all new towns, special inducements must be offered first to get the people to take hold and build.

There are probably more such inducements offered by South Omaha than were ever put forth by any new town. The large business done by the stock yards company and the immense slaughter and packing houses together with their auxilaries are no small feature in 12 aggregate of events that are destined to make South Omaha a large places. Again, the town is not an addition to Omaha, and is not liable for city taxes, although it enjoys all the benefits

aggregate or events that are destined to make South Omana a large place. Again, the town is not an addition to Omaha, and is not liable for city taxes, afterburgh it enjoys all the benefits from the growth of Omaha that it would if it were just inside the city limits, but being just OUTSIDE, only county taxes are collected, which are merely nominal. The town owas and operates its own water works, which furnish an abundant supply of pure spring water. Dummy trains will run on the B. & M. and U. P. railways every hour, stopping at the north end of thatown site as well as at the stock yards. The Thirteenth street horse cars will run:) Hascall's park this spring, and to the stock yards at no distant day. The high altitude and the location a healthy one. and the location a healthy one.

and the location a healthy one.

Of course there are those who do not believe that South Omaha will amount to much. This kind of people didn't believe Chicago would ever be anything better than a cramberry patch that Omaha would ever outgrow her village clothes, that there never could be any fruit raised in Nebraska, etc., etc. Who made it win? The sceptics, or those that had an abiding faith in the energy, intelligence and resources of this great country?
