

WHENCE COMES THE COPPER

One of the Educational Features of the Mining Exhibit.

WONDERFUL DISPLAY OF VARIOUS ORES

Lake Superior, Montana and Arizona Contribute Some Marvelous Specimens of the Mineral in Its Many Forms.

No feature of the mineral exhibit is regarded with more general interest than that which illustrates the resources and development of the copper industries of the United States. Much of the material is strikingly attractive from an exhibitor's standpoint and people who have been accustomed to regard copper as a mass of dull, uninteresting metal to discover that in many of its basic forms it acquires even more beautiful effects than gold or silver.

Where the Copper Comes From.

The three great copper producing regions of this country are known as those of Lake Superior, Montana and Arizona. The Lake Superior product is pure copper, while that of the western mines consists of sulphide of copper, which must be refined before it is ready for the trade.

Sulphides and Carbonates. Montana is represented by some of the richest specimens of sulphide ore that have ever been mined.

Montana is represented by some of the richest specimens of sulphide ore that have ever been mined. This is far richer than the "shot copper" of the Lake Superior mines, but the excess is offset by the expensive chemical processes that are necessary in order to eliminate the sulphur and other alloys.

Settles a Pass Dispute.

The discussion between the exposition management and the Nebraska Exposition commission regarding the number of passes to be allowed the commission and its employees has been adjusted by giving the commission passes for each member of the commission, one for the assistant secretary, twenty-five for employees connected with the various exhibits, and a minimum for the employees in and about the Nebraska building, a total of fifty-two passes.

Art Director Griffiths to Explain.

Art Director Griffiths will give visitors to the Art building on Sunday afternoon a treat. About 3 o'clock on that day he will commence a running lecture on the pictures displayed in the Art building and will walk about from gallery to gallery calling attention to the special points of merit in this picture and telling a few catchy things about the artist.

At the Trocadero.

For the opening of the new Trocadero theater Monday evening, June 13, some of the highest salaried attractions in the vaudeville profession will be featured. The principal stars of the week's bill will be Barney Fagan and Henrietta Byron, whose grace and artistic manner in presenting their act has won a distinction seldom accorded to vaudeville performers.

ON ITS LIGHTER SIDE

(Continued from First Page.)

biggest to be held in Omaha this year, some 1200 delegates being expected. This was about the size of the Denver meeting.

Through the courtesy of Dr. L. W. Dr. Hanchette was enabled to be present at the exemplification of a number of new surgical operations. The operations were performed upon dogs, the animals being furnished by the city of Denver.

A number of the physicians expect to stop in Omaha on their way to their homes to take in the exposition.

CONCERTS AT THE AUDITORIUM.

Attendance at the Thomas Orchestra Performance is Increasing.

The attendance at the concert given daily in the Auditorium by the Theodore Thomas orchestra is increasing with each performance and the fact seems to be dawning upon the people of this vicinity that they have allowed many excellent opportunities to escape.

The audience last night was one of the largest which has yet attended these concerts. The long distance telegraph and the great enjoyment afforded by the excellent program presented by Director Mees.

UNITED STATES MARINE BAND.

- March-Eastern High School.....Larsen Overture-The Barber of Seville.....Hosni Medley-Songs from the Sunny South.....Medley-Songs from the Sunny South.....March-The Fountains.....Eisenmann Waltz-Kunsterleben.....Strauss Sounds from the Alps.....Herforth Patrol-Oxley's Army.....Orch. Program for Iowa Day.

The program for the dedication ceremonies of the Iowa state building at the Transmississippi Exposition to be held Thursday, June 23, at 12 o'clock has been decided on by the commission and members of the Iowa Exposition commission as follows:

Pennsylvanians Take Counsel.

A good attendance of Pennsylvanians was present at the Commercial club rooms last night to arrange plans for Pennsylvania day at the exposition and other matters in the direction of proving their allegiance to that state.

Exposition Notes.

The paid admissions for June 9 were 1,464. A big mineral exhibit from South Dakota is billed to arrive Monday for installation in the Mines building.

Religious Women and Children.

A man who is undoubtedly insane has been causing considerable annoyance to the frequenters of Bemis park. Armed with a switch he lies in wait for women and children and suddenly rising in their path strikes them across their shoulders.

HEARD ABOUT TOWN.

James Hardin, superintendent of one of the largest allied mining enterprises in this country, is in the city, an exhibition visitor. Mr. Hardin's headquarters are in Chicago. The mining property of the interests he represents is in Two Bit gulch in the Black Hills and covers, inclusive with the company's water rights, and smelter sites nearly 3,000 acres of land.

The exercises in connection with the celebration of Nebraska day will commence at 11:30 a. m., instead of at 10:30 o'clock, as heretofore announced.

The weather conditions offered nothing particularly promising yesterday, but the more fact that the clouds were breaking was sufficient to bring out quite a crowd of visitors to the exposition.

Central Children's Night

Third of the Song Festivals as Great a Success as the First Two.

The festival of song given by Boyd's theater last night had the points of the central section of the Omaha public school under the direction of Miss Fannie Arnold was a repetition of the successes of the two previous nights. The house was crowded, many people being compelled to stand both on the upper floor and in the balcony, and a more attentive audience was never assembled in Omaha.

Work for Revenue Officials.

New Law Makes Lively Times for Government Officials.

WASHINGTON, June 10.—The Bureau of Internal Revenue is now busily engaged in preparation for the enforcement of the war revenue bill, which it is expected will become a law today, in the same form as passed by the house last night.

Japan Protests Against the Tea Duty.

WASHINGTON, June 10.—Japan has entered a strong protest against the duty on tea provided for in the war revenue bill. The protest was sent to the State department and by it forwarded to the conference committee.

Personal Paragraphs.

E. T. Flynn of Buffalo, N. Y., is a guest at the Barker. C. F. Knapper of Sao Paulo is stopping at the Barker. Charles C. Rosewater left last evening for Jamestown, N. D.

Traveling Passenger Agent Vanderpool of the New York Central, who has been in the city for a few days visiting the exposition, returned to Chicago last evening, highly pleased with the big fair.

William S. Howell, traveling passenger agent of the Milwaukee, left last evening for Des Moines to superintend the transportation of the battalion and regimental headquarters of the Forty-ninth regiment of Iowa volunteers, which will leave today for Jacksonville, Fla.

Animals are in Good Condition.

Superintendent of Yellowstone Park Makes His Report.

WASHINGTON, June 10.—Secretary Bliss has received from Lieutenant G. W. Cross, acting superintendent of Yellowstone National park, a report on the condition of the animals there. The report states that the winter was very mild, and as a consequence the wild animals are in better condition than usual.

Large Importation of Diamonds.

WASHINGTON, June 10.—A report from the collector of customs at New York shows that the imports of diamonds at that port during the period from January 1 to April 29, 1898, amounted to \$2,085,435, as compared with \$2,411,775 for the same period in 1897.

President Gets a Little Rest.

Congressional Callers Not So Numerous as Common.

WASHINGTON, June 10.—The president spent a very quiet forenoon, receiving no important official news until the arrival of the cabinet, and disturbed less than usual by the demand for personal interviews.

Report on Iowa Banks.

WASHINGTON, June 10.—(Special Telegram.)—The comptroller of the currency has received a report of the condition of the national banks of Iowa, exclusive of Des Moines, at the close of business May 5. Compared with the previous report in February it is noted that the banks have materially strengthened their loans and deposits, and a slight increase is also shown in the average reserve.

Quantity of Bonds Missing.

ST. LOUIS, June 10.—Mrs. August Ravogli, wife of a Cincinnati physician, arrived in St. Louis today to look after the interest of her sister, Mrs. Sarah Giesecke, who has been committed for examination as to her sanity. Mrs. Ravogli says more than \$20,000 in government bonds belonging to her sister are mysteriously missing and she has invoked the aid of the police department in trying to clear up the matter.

Exposition Commutation Tickets

Will remain on sale only 3 days more, Thursday, Friday and Saturday, June 9, 10 and 11.

Photographic Coupon Book of 50 admissions, \$12.50; of 100 admissions, \$20.00. These tickets can be secured by calling on, or sending draft or check to John A. Wakefield, secretary, Service Building, Exposition Grounds.

tea provided for in the war revenue bill. The protest was sent to the State department and by it forwarded to the conference committee. The protest is based on the ground that a uniform duty of 10 cents a pound on all teas, cheap or dear, will have the effect of ruining Japan's tea trade with the United States.

Patents to Western Inventors.

WASHINGTON, June 10.—(Special.)—Patents have been issued to western inventors as follows: Nebraska—Alanson H. Boles, Glen Elder, Kan., assigns one-half of patent on fruit press to J. C. Knoll, Fairbury; William W. Crockett, Falls City, lawn mower and cutter and holder for fruit, flowers, etc.; James Evans, David City, post auger; George Lunde, Omaha, composition for removing boiler incrustations.

Iowa—Lansford Chambers, Bartlett, combined dirt roller and pulverizer; John A. Cooper, assigns one-half patent on potato planter to A. C. Savage, Adair; William P. Davis, assigns one-half of patent on water jacket for cylinders on engines to Davis Gasoline Engine Works company, Waterloo; Francis T. Healy, Comanche, table attachment for chairs or beds; William Hopkins, Dubuque, steam boiler and furnace thermostat; George W. Kortright, Sioux City, telescopic clamp; George W. Parsons, assigns one-half on self-feeder for threshing machine to F. S. Rich, Newton; William J. Thill, Waukon, pneumatic display last.

D-17 Treasury Statement.

WASHINGTON, June 10.—Today's statement of the condition of the treasury shows: Available cash balance, \$190,842,692; gold reserve, \$166,847,392.

Maintain Ship in Seaworthy.

SEATTLE, June 10.—The owners of the steamer Centennial, which has been obtained by the government as a transport for Manila, are not disposed to accept the decision of the examining board at San Francisco. They telegraphed Assistant Secretary of War McKinley that the claim of the vessel's unseaworthiness cannot be supported if a dry dock examination is had. They ask that such an examination be made by a committee of three, they to select one, the department another and the third, it is likely that a suit will be commenced against the government for the charter money.

Quantity of Bonds Missing.
