

MISSISSIPPI TEACHERS

Arrangements for the Educational Congress Are Nearly Complete.

COMPREHENSIVE PROGRAM IS PROVIDED

One Hundred and Sixty of the Most Prominent Educators Are Down for Addresses to the Different Sections.

The committee in charge of the affairs of the Mississippi Educational Congress that meets in this city June 25-30 is rapidly getting things in shape to announce the final arrangements. The program has been completed and the officers who will preside over the deliberations of the general meetings have been selected. The program will be published at a subsequent date. This program contains the names of 100 men and women who will participate, delivering addresses or reading papers upon educational topics. The list is made up with great care and contains the names of the most prominent educators in the country.

The first of the general meetings or sessions will be held in the Auditorium upon the exposition grounds during the evening of June 25, and will be presided over by Dr. A. F. Nightingale, superintendent of the Chicago High School. Dr. Nightingale years ago was the principal of the Omaha High School and will be remembered by most of the older residents of the city.

The second general session of the congress will be held in Boyd's theater on the evening of June 26, and will be presided over by Miss Estelle Reed, state superintendent of public instruction of Wyoming. Miss Reed's home is in Cheyenne and she is regarded as one of the brightest educators in the west.

The third of the general meetings will be held in the Auditorium on the evening of June 27, and will be presided over by Prof. Frank B. Cooper, superintendent of the city schools of Des Moines, Ia. Prof. Cooper has a wide reputation as an educator and is known throughout this and adjoining states.

Thursday morning, June 28, the general meeting will convene in Boyd's theater and will be presided over by Prof. William W. Fulwell of the University of Minnesota. The professor has a world-wide reputation and has been an instructor for many years. The fifth and last of the general meetings will be held in the Auditorium on the evening of June 30, and will be presided over by President W. S. Chapin of the Washington University of St. Louis. The professor is a leader of strength in the educational line and his coming to Omaha is looked forward to with much pleasure by all who are interested in matters pertaining to the congress.

Arrangement of Conferences.

Secretary J. M. Gillan, chairman of the entertainment committee, announces that he has assigned the halls for the thirteen conferences, that will be held in connection with the congress. These conferences are arranged as follows with reference to topics and the parties who will lead the discussions:

"Bonds of Education," Hon. J. H. Trewin, Lansing, Mich.; "Rural Schools," Hon. John R. Kirk, state superintendent, Missouri; "Colleges and Secondary Schools," President William F. Slemb, Jr., Colorado Springs; "Science Teachers," Prof. Charles E. Bessey, University of Nebraska; "Manual and Industrial Training," Principal Gilbert B. Morrison, Kansas City Manual Training High School; "Teachers of Music," Prof. C. H. Congdon, supervisor music, St. Paul, Minn.; "Teachers of English," Prof. E. Hogg, Kansas University of Kansas; "Kindergarten," Mrs. Orletta Shields Chittenden, Woman's board, Transmississippi Exposition; "History Teachers," Prof. F. M. Flinn, University of Nebraska; "Child Study," Mrs. Grace Bibb Sturrough, Omaha High School; "Drawing Teachers," Mattie E. Riley, superintendent drawing, St. Louis, Mo.; "Teachers of Deaf and Blind," Prof. J. A. Gillespie, Omaha School for the Deaf.

In order that the congress might be recognized as one of the great features of the exposition, C. G. Pearce, J. N. Gillan and Victor Rosewater, of the executive committee of the exposition, appeared before the executive committee of the exposition and induced the members of that body to set aside June 25 as Educational day. It is expected that upon this occasion all of the delegates to the congress, together with many Nebraska teachers and educators, will spend most of the day upon the grounds. All of the meetings that are held in the Auditorium will be furnished with music by the Thomas orchestra. The concerts will be given just prior to the convening of the

general meetings. This orchestra will also furnish the music for the opening session of the congress.

Victor Rosewater, as chairman of the publicity committee, is busily engaged in preparing a circular which will contain much valuable information relative to the entertainment and accommodations of the delegates to the congress. It will also contain articles and papers upon educational features, all of which will be of great interest. These will be sent out in large numbers to prospective delegates.

Headquarters Locations.

The general executive headquarters will be at the Millard hotel, Thirteenth and Douglas; Nebraska headquarters at the Deltone; Iowa headquarters at the New Mercer; Kansas and Missouri headquarters at the Paxton. Facilities for other state headquarters have been arranged at Murray, Fourteenth and Thirteenth, and the Her Grand on South Sixteenth street. All the railroads have made special rates. Tickets to the convention may be bought June 25 and 27 at the rate of one fare, plus 25 to Omaha and return for the territory from Milwaukee, Chicago and St. Louis westward to and including Utah and Idaho. The arrangements for the reception of the visitors and the planning of the convention are in the hands of the following executive committee: C. G. Pearce, superintendent Omaha schools, chairman; J. M. Gillan, secretary Board of Education, Omaha, secretary; J. H. Dumont, merchant, treasurer; W. R. Jackson, state superintendent public instruction, Victor Rosewater, managing editor Omaha Bee; J. E. Utz, secretary Commercial club. Each of these executive officers is at the head of subcommittees to look after the convention. They have succeeded beyond anticipation.

In its issue of June 4 the Criterion of New York says of the congress:

The west is in the midst of a period of extraordinary prosperity, and its characteristic energy is reflected in the splendid preparations making for the Transmississippi Exposition. Efforts were naturally made to secure for Omaha the half million or so of dollars which the National Educational Association ordinarily leaves behind in convention towns. Outgenerated in this attempt, Omaha, under the lead of Prof. C. G. Pearce, superintendent of schools, and Victor Rosewater, the brilliant young managing editor of the Omaha Bee, has organized an educational convention, which meets from June 25 to 30, and which promises to be a worthy event of its kind. A feature of the convention will be a special day at the exposition, which comprises an educational exhibit illustrating the methods in use in western schools. I have no doubt that teachers from the east will find inspiration in the educational atmosphere which is sure to prevail at Omaha. The program of the convention has evidently been planned with great care, and is far superior to anything to that of the National Educational Association. The only deterrent feature about the Omaha convention, in so far as teachers in the east are concerned, is the cost of the journey, although the railways west of Chicago offer the usual reductions in fare.

Some Concluding Figures.

The table herewith, taken from census reports, gives the number of teachers, scholars and value of school property in the transmississippi states, including Wisconsin and Illinois, which participate largely in the exposition:

States.	No. of Teachers.	No. of Pupils.	No. of Schools.	Value of School Property.
Nebraska	272,290	9,491	6,874	\$389,842
Illinois	578,528	25,197	12,250	4,731,263
Wisconsin	353,119	10,710	6,583	14,928,239
Iowa	522,524	27,843	13,613	9,456,343
Missouri	644,974	14,487	10,900	15,992,443
South Dakota	81,743	3,317	3,317	1,150,000
Kansas	351,123	11,915	9,327	11,500,000
Montana	25,349	578	572	1,411,294
North Dakota	11,672	474	474	2,222,222
Colorado	39,532	2,385	1,599	5,993,957
Wyoming	11,259	291	293	272,290
Arizona	6,827	279	282	946,410
Utah	62,169	1,183	883	2,353,673
Idaho	18,827	479	489	282,946
Washington	34,269	712	559	731,211
Oregon	39,217	3,225	1,843	5,988,317
California	356,701	6,620	3,494	16,498,330
Oklahoma	67,474	1,053	718	1,900,000
Totals	3,884,085	126,459	83,677	\$46,749,300

The following shows the colleges and universities of the transmississippi states, with the values of buildings and equipments:

States.	No. of Institutions.	Value of Buildings and Equipments.
Nebraska	2	\$1,174,000
Illinois	28	3,438,626
Iowa	12	1,791,239
Missouri	25	2,617,550
Minnesota	8	2,696,362
Wisconsin	3	1,267,530
Montana	1	114,500
Wyoming	1	1,722,300
Colorado	3	1,232,300
New Mexico	1	5,500
Arizona	1	2,300,000
Nevada	1	151,000
Washington	3	681,860
Oregon	3	315,200
California	19	2,281,788
South Dakota	1	284,720

Importance of the Congress.

The importance of a transmississippi educational congress can scarcely be overesti-

mated. According to the best calculations there are 125,450 teachers in the schools of the transmississippi states. The training of a rapidly rising generation of 2,884,085 pupils in nineteen states. The total valuation of school property in this territory is estimated at the time of the last census to be \$46,749,300, though it is safe to say that the actual valuation at the present time are much greater.

In sixteen of the transmississippi states, without any regard for population, there are 712 universities and colleges. Illinois leads the list with twenty-eight institutions, whose aggregate valuation of grounds, buildings and other property is \$2,688,225. Missouri is second with twenty-five, Iowa third with twenty, Kansas fourth with fourteen, Minnesota, California and Nebraska in order named. Nebraska's six college institutions have a valuation of \$1,900,000.

There are 272,290 enrolled pupils in the state, 6,874 school houses and 9,491 teachers. Over 16,680 pupils are enrolled in the Omaha schools and the value of the property is \$1,174,000.

It is interesting to note in looking over the field that Oklahoma, the newest territory, has a round million dollars worth of school property and that its 57,674 school children are amply provided for.

It will not doubt be quite a revelation to visitors to the Transmississippi and International Exposition to note how even the sparsely settled states in the northwest have kept pace with the age in the matter of educational training.

No less than twenty-five states will make comprehensive educational displays. Exhibits have been spent in the preparation of these exhibits and these numerous exhibits, together with the other manifold advantages delegates to the educational convention will derive, ought to bring a liberal representation from every state.

EXERCISES FOR CHILDREN'S DAY.

Program Arranged to Entertain Little Folks Monday and Wednesday.

The formal exercises in connection with Children's Day at the exposition, June 13 and 15, will be at the exhibition grounds in the building, which will be ready for occupancy at that time. The exercises at this time will not be a formal dedication of the building, but will be of a simple character calculated to amuse the children and give them some idea of the celebration. The exercises will commence at 2 o'clock on both days and will be as follows:

MONDAY PROGRAM.

Piano Solo, Romance in E flat, Rubinstein
Miss Margaret Reed
Address of Welcome, Mrs. W. W. Keyser
Response, Miss Rene Hamilton
Recitation—Selected, Miss Margaret Reed
Piano Solo—Grandmother Tells a Story—dancing, Miss Margaret Reed
Recitation—Selected, Miss Margaret Reed
Chorus—The Spacious Firmament, Haydn
Seventh and Eighth Grades
Address of Welcome, Mr. Irwin Lewiston
Chorus—Away to the Fields, Wilson
Seventh and Eighth Grades
Piano Solo—Kammerl Ostron, Rubinstein
Miss Alice Richards
Essay—Music, Miss Edith Spencer
Piano Solo—Air de Ballet, Chaminade
Miss Ella Martinie
Piano Solo—A Boston Tea Party, Pryor
Mr. Fred Cusden

RAILROADS CUT RATE TO OMAHA.

One Cent Per Mile for Those Who Come Nebraska Day.

The Department of Transportation announces that special rates have been made by the lines in the Central Passenger Association of one cent per mile, from all points in the territory of the association east of Chicago to and including Toronto, Niagara Falls, Buffalo, Erie, Pittsburg, Parkersburg and Charleston, W. Va. These tickets will be on sale June 18 to 21 and will be good returning on July 13, 14, 15 and 16, forgoing a rate of one and one-third fare west from New York City and points west of the Hudson river to the eastern terminals of the Central Passenger association.

For Nebraska day a special rate of 1 cent per mile has been made, to apply from Nebraska points in the same way as on the opening day of the exposition, including points within a radius of 150 miles from Omaha in both Iowa and Nebraska. These tickets will be on sale June 13 and will be good returning on June 15.

For Illinois day a flat rate of one fare for the round trip has been made from all points in Illinois, tickets good on sale June 20 and being good for return passage until June 24. It is expected that the department will allow 1 cent per mile will be made from all Iowa points.

RAILWAY POSTAL CLERKS COMING.

Annual Convention to be Held in Omaha This Week.

The National Association of Railway Postal Clerks will hold its annual convention in Omaha June 14-16. The business meetings will be held in the court room of the old federal building and will occupy most of the first two days of the convention. At 10 a. m. on June 14 Mayor Moore will open the convention with an address of welcome and will be followed by Dr. G. L. Miller, who will address the mail clerks on behalf of the citizens of Omaha. C. L. Schaffer, president of the association, will respond to Dr. Miller's address and the result of the business will then be carried out.

On the night of June 15 a banquet will be tendered the visitors at the Deltone hotel and on June 16 the entire party will attend the exposition. About fifty accredited delegates are attending the convention and the number will be greatly swelled by the mail clerks who are not delegates and women who will accompany the party.

The chief matter which is to be considered by the mail clerks is the organization of a small clerks' mutual accident insurance company.

Swedish Day at Exposition.

June 24 will be Swedish day at the exposition and it will be celebrated by the rendering of an important musical program by a chorus of 250 singers and a corps of soloists. A jubilee has been prepared and published which contains a variety of good music, both sacred and secular. The first number is a setting of the One Hundred and fiftieth psalm by Gunnar Wennerberg. The second number is a song march, to be sung without accompaniment, composed by J. A. Ahlstrom, conductor, composer and member of the faculty of the Boy's conservatory of Stockholm, Sweden. The third number is a jubilee cantata, composed especially for this day by Adolf Edgren of Omaha. It consists of fourteen separate pieces for instruments, chorus and soloists and appears to be a most meritorious work. It is expected that thousands of Swedes will visit Omaha and the exposition upon this day and great interest prevails among the local organizers to give them a grand reception.

Fireworks for Nebraska Day.

A special display of fireworks is being arranged for Nebraska day and a number of elaborate pieces are being prepared, including portraits of noted people, comical pieces, etc.

In addition to the features already announced for Nebraska day there will be an address by President Wattles, accepting from Governor Holcomb, on behalf of the exposition managers, the Nebraska building, and an original poem by Mrs. J. L. McKeever of Stomberg will be read during the formal exercises.

Get a map of Cuba and get the best and most complete. The Bee's combination map of Cuba, the West Indies and of the world, with a Bee in the center of the map, is on sale at Bee office, Omaha, South Omaha or Council Bluffs. By mail, 14 cents. Address Cuban Map Department.

The Cartridge is provided with a rising, sliding and falling front—Two view finders—one for vertical and one for horizontal exposures—Two sockets for tripod screws, and is equally perfect as a hand or as a tripod camera—it has an index for focusing and when used with plates may be focused on the ground glass if desired—When used with films there are no projecting parts—no attachments to become lost—no extra to be mislaid—Our stock of amateur supplies is complete—Free use of our dark room to all out of town visitors.
