be infield looks to be all right. Roat and

and brilliant game in the field, taking pout everything that has been coming their way. With the exception of one game Holly has been doing as well and the off day is not likely to come around again for some Denny Lyons has been holding down first bag like the veteran he is, and shows a good deal more sprightliness than he did was here in the early he when the season. The biggest part improvement, however, is displayed in Roat's work. You would not know him nor take him for the listless and indifferent player he was at the opening of the season. The weakness of the infield has been in batting, but during the last week they have been showing strong with the exception of Eustace. Lyons and Roat carried off the The outfielders, on the other hand, honors. have taken a slump in their batting, which should be only temporary, as they are capable of good results with the stick. Fleming has done very well, but the other two have

fallen a bit from the galt. The box is the sore point just now. We had gotten into pretty fair shape here, apparently, with the acquisition of Wadsworth, but the accident that befell the twirler has put him out of the game for ten days or two It was considered that with him, weeks. Daub and Fisher the team could worry along until another good man was secured. With Waddy gone, however, the work all fell upon Daub and Fisher. It was obvious that good as these two twirlers are they would simply pitch their arms off, and another man was found in Butler. He has done fairly good work in the past and is said to have done well for Burlington this year but he is something of an experiment yet for

all that. Nevertheless Omaha has a good team now

> because he was called upon to assist in the arrangement of a display for a gun and powder house at the exposition. He will be here the greater part of the summer, although he expects to skip out for some shoot now and then.

The Dupont Gun club is pretty big with life just now and proposes to give symptoms of it in the program which it will have every Sunday hereafter at its regular club shoot. Increased membership has given the weekly events promise to be the most interesting in the history of the club. It's going to be their banner season.

In the future the team proposes to trap its own targets and the resultant coin will be

At midnight last night the time for make ng entries for the light harness meet, to be by Henry Newbar, Billy Delleck and Benny held during the latter part of this month. nded. The entries will not be made public

for a day or so yet, inasmuch as all that were mailed at midnight last night are available. It is announced by the Fair and Speed association that the number is nearly twice that ever before received. Altogether there will be about 300 horses entered in the different events. About seventy-five of these are on the grounds, 100 are coming from Denver and other points in Colorado, fifty will be here from St. Joseph and the remainder will be shipped from other parts of the country. O. J. Pickard went to Denver last Friday to get the entries of the

Colorado animals. The rains of the week did very little damage to the track. The circuit is in such excellent condition that water has little of fect upon it. The rain, however, prevented the trainers from getting in the work except at odd times. 'The fact that one horse

be sluggish in his movements, but the queen Furners Promise a Great Bill for shall move with swiftness surpassing. And Their Meeting Here before all these shall there be many little men, who will march at the commands of

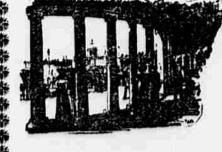

the king, the queen, the church, the barons and their castles as is the fashion of the royal kingdom, but never backward. So the jester inscribed upon a table four and sixty squares and forming his line of battle

and he was plunged in a gloom lasting over seven days. On the morning of the eighth because his life hung upon his work he reflected. 'Behold, the king, my master, is a great warrior and therefore should the game be one of soldiers. I will construct me a line of battle and verily at the ends I will place two moving castles, and because of their squareness they shall move either north, south, east or west. Next them will I place horsemen who shall ride with agility that the gates of the castles may be kept from livaders. The forces of the church will I place next to administer to those stricken in the fight, and they shall move exceeding crooked, that is to say, zig zag. "Behold in the center will I place the fight and they shall move exceeding crooked, that is to say, zig zag."

The eyes of the world

are now on Omaha. The Trans-Mississippi and International Exposition has opened its gates and every citizen of this city and state must constitute himself a committee of one

to acquaint his friends out of the city with the beauty and extent of the exposition.

To facilitate the spreading of this information, The Bee has issued a superb illustrated edition entirely worthy of the opening day. It gives a history of the exposition, half-tone engravings of the buildings, portraits of the men whose hard work, energy 畚 and genius have made the exposition a grand success from a standpoint of architecture, art and science.

You can help to make it a success financially by sending a copy of this splendid edition to your friends outside of the city.
