Jack Early, a patient, escaped from the Hospital for the Incane recently and was captured by the police here. The hospital authorities were notified and given a description, but as he gave an assumed name they failed to identify him. They called at the police station last night and recognizing the man started to take him to the hospital in a buggy, but only got as far as Salt creek, when he leaped out and took to the woods. He is still at large.

Soldiers' Banquet.

BRADSHAW, Neb., June 17 .- (Special.)-Last night witnessed at the Ancient Order of United Workmen hall in this village one of the most pleasant social events that has ever occurred at this place. A banquet had been arranged for by local citizens in egram.)—The annual meeting of the Kearney honor of the squad of recruits that have district of the Epworth league convened here enlisted for company A of the First Nebraska volunteers from this place. The hall at an early hour was crowded to its utmost capacity. A very pleasing impromptu program had been arranged, consisting music and short speeches. The assemblage was called to order by O. A. Stubbs, commander of the Grand Army of the Republic post, who in a neat little speech announced the object of the gathering and bade the boys welcome. R. G. Douglas, associate editor of the Republican, one of the recruits, responded on behalf of the recruits. At the and patriotic manner. The boys will go to not issue against him, the front bearing the best wishes of all.

COLUMBUS, Neb., June 17 .- (Special.)-The \$25,000 school bonds recently voted by Howard county, committed suicide by cut the city were sold yesterday to Trowbridge, McDonald & Niver company of Chicago at par and they brought \$331.50 premium. At the meeting of the board last evening after some discussion it was concluded to defer the matter of selecting a site until tomorrow evening. The question will then be disposed of. The building will be a credit to the city and will be rushed along to completion and be ready for occupancy by December 1.

Committees who have been canvassing the city soliciting money for the celebration have met with very good success and everything now points to a big celebration on

Charged with Delaying the Mails. LYONS, Neb., June 17.-(Special.)-George Mann was arrested this afternoon by United States Marshal Allen and taken to Pender to appear before Commissioner Sloan to answer to the charge of delaying the United States mail. It seems Mann had a grievance against Conductor Fuller for putting him off his train at Oakland a few days ago while he was trying to ride the blind baggage to Lyons. He was ejected by the train crew rather roughly he thought and he lay in wait for this train crew the following evening, when a general all-round fight took place between the brakeman and Mann, thereby delaying the train for a few moments.

AT THE HORTICULTURAL BUILDING

Exhibits in Place Make a Temptingly

Beautiful Picture. The exhibits in the Horticulture building are completely installed with the exception of Colorado, which has not arrived, al though it is expected daily, and the building presents a beautiful sight. The display of apples, cherries and strawberries in the center and the west wing gives these portions of the building an appearance of brightness which is as pleasing as it is surprising, while the prevailing yellow tone imparted to the entire east wing by the thousands of oranges in the Los Angeles county exhibit offers a striking contrast to the warm red color which predominates

in the other fruit exhibits. There are other things besides oranges in the California exhibit made by Los Angeles county, but the major portion of the decoration being golden apples a characteristic tone is given to the entire exhibit. One of the most striking things in connection with this exhibit is a bunch of bananas which has just been received. These banannas are grown in Los Angeles county and are a species of plantain, are offering special inducements this the fruit being slightly shorter week to plane buyers, in terms and and much thicker than the true prices—See the Kimball exhibit at the bananna. Every variety of fruit grown in this fertile region and many other things which are produced there are shown in the most attractive manner and the exhibit is the central point of interest for large numbers of the visitors. It is in charge of ALEXANDRIA, Neb., June 17.-(Special.) Mr. C. L. Wilson, assistant secretary of the Los Angeles Chamber of Commerce, Mr. Wiggins, the secretary of that body, havng been called home by business. Wiggins has arrived and will stay during

the exposition and Mr. Wiggins is expected to return in a short time. The exhibitors in the Horticulture building are up in arms with a demand for an entrance and an exit gate in the lower portion of the bluff tract. There is neither entrance nor exit nearer than the viaduct leading to the main court and the exhibitors protest against what they claim is an injustice to them. They say that in order to visit the Horticulture building people are compelled to walk the full length of the Biuff tract, and when they wish to leave the grounds after visiting the building, as many do, they are compelled to walk back to the viaduct. The exhibitors claim that these conditions keep many people away from the building who would otherwise visit it. They have petitioned the executive committee to locate an entrance and an exit at Spencer street, near the Georgia building where people may alight from the car and enter the grounds, passing the Horticulture building, or may leave the grounds after in-

tee notified the petitioners that a gate is to be located at the south end of the Bluff swer the purpose suggested in the petition.

The reports received by Secretary Greef from all portions of his state indicate that the attendance from Kansas will be large. A large delegation will attend from Topeka and reports from other cities indicate that the parties being organized to come to Omaha will swell the crowd to very respectable proportions.

Stieringer Plans New Surprises. A number of very pretty and surprising effects are being planned by Luther M. Stieringer of New York, consulting electrical engineer of the exposition, and Superintendent Rustin of the electrical department in connection with the Illumination of the exposition grounds and especially the main court. These effects will be in the nature of surprises to the public and the de tails will not be announced, but the public may prepare to be as greatly surprised at the beautiful effects which will be produced as is the case when the beautiful effect of the lighting of the main court is seen at night the first time. Mr. Stieringer is receiving the highest compliments from all sources on the magnificent effect which has been accomplished by means, of incandeslighting of the main court he promises that the results and which will be produced by the preparations now under way will be fully as beautiful and satisfactory. These new conceptions are designed for special occasions, such as illinois day and other events of importance in the course of the exposition and the progress which has been made in the way of preparation makes it certain that the public

will be highly entertained. Opening the German Village. Today and tonight will be a gala occasion

The little Chinese women paint their lips and blacken their steeth-but in America perfect white teeth are as essential as a clear complexion—any one can have beautiful testle—a little care is all that is needed. We can build up broken teeth to their natural shape, by beautiful contour gold filling at a very slight expense-the gold we use in our fillings is pure gold-and we put it there to stay forever-this can't bedone without some inconvenience and possibly a little pain-but we make it just as easy as modern dentistry and up-to-date appliances can—small gold fillings, \$2.00-silver or gold alloy, \$1.00-we guarantee our fillings to be satisfactory-
