BREWERS GET THE SECOND

Contest Just the Reverse of the Exciting Meeting of Thursday.

DANNY DAUB HAS A BAD OFF DAY

Goes to Pieces Right at the Start and is Succeeded by Butler, Who Did Just a Little Better.

The presence of the gentle sex in the grand stand yesterday had a bad effect upon the Babes, for they dropped the second of the series to the Brewers by a score of 12 to 7. It was a punk sort of a contest-a decided contrast to the exciting game of

Twirler Daub was not right and retired after he had been in the box two innings. Three singles, two bases on balls, one of which forced in a run, and an error by Roat resulted in four runs for the Brewers in the first. In the second three more hits, two more bases on balls and a balk added two more to their score.

Butler did some better. But in the fourth a base on balls, a scratch hit and an error by Roat gave the Brewers another, and in the sixth another base on balls, a sacrifice hit and another error by Roat added Butler's worst inning was the eighth. He gave Daly a base on balls and Weaver made a bit. Both came home on Stafford's three-bagger. The latter skated home on a double by Leewe. In the ninth singles by Nicol and Daly made the twelfth run.

Butter figured prominentily in our run setting. In the third he made a two-sack hit and came home on Daly's error on Eustace's grounder. Again in the eighth, when Preston got a base, went to third on Mc-Cauley's single and Mac stole second, Butler rapped out a nice hit and scored both

Resides these three we made two in the sixth and got another brace in the seventh. In the former inning Schock fumbled the grounders of both Holly and McCauley. Butler forced the former out at third, but a single by Fleming and a double by Eustace scored both Mac and Butler. In the seventh after Pick and Lyons had gone out Preston was given a pass to first and scored on Holly's double. The latter scored on McCauley's single. Both Butler and Fleming got bases on balls, but with three men on bases Eustace could do no more than send one out to the field, although he tried hard.

The feature of the game was Cantillon's umpiring, which was about the worst it has been yet. His eye in base decisions was a mile off. In the first inning, with two men out and Daly on second, the latter was put out as cleanly as any man could be. Daly was playing way off and Butler threw to Holly to catch him. Holly got Daly two feet off the bag. Anybody with a pair of eyes and a scintilla of brains would have known it, but Umpire Cantillon did not. It would have been three out with no score Then in the sixth McCauley threw to Eustace in plenty of time to catch Schock stealing third and the latter did nab him way off the bag, but once more Cantillon called the

runner safe. The score: AB. R. H.SB.SH.PO.A. E. | AB. | Eustace, 3b ... 5 | Roat, 8s ... 5 | Pickering, mf ... 5 | Lyons, 1b ... 5 | Preston, 1f ... 3 | Hollingsworth, 2b ... 4 | McCauley ... 6

The balance of the lights to be used in the illuminating of the court house have arrived and are being put in place. The work of beautifying the county building will be completed today and tonight the current will be turned on on all of

War Revenue Bill, Offering Bonds and Leiter's Collague Are Features.

BONDS SUBSCRIBED FOR MANY TIMES

It is Predicted That This Will Be the Most Successful Loan Ever Invited by the United

States. NEW YORK, June 17.-R. G. Dun & Co.'s Weekly Review of Trade will say in tomor-

The passing of the war tax bill, the offer ings of bonds and the collapse of Leiter and cash wheat have made the week somewhat exciting.

In spite of some features which cannot be justified, the tax bill was approved as probably the best that could be obtained from congress this year and gave assurance of be run, are excellent. The number of entries, as it now stands, is fourteen, and it is safe to say that at least a dozen will go to the post, with Ornament at the top weight of 131 pounds, and on his Brooklyn handleap and work since, be is likely to States. A great victory in the field could needed revenue for the emergency. Its bond cessful loan ever invited by the United States. A great victory in the field could hardly be more important, especially in its influence on foreign opinion.

Not more significant was the excess of exports over imports in May by \$56,980,359, making the mercantile balance in favor of the United States \$571,819,307 in eleven vious fiscal year have the net imports of gold exceeded \$97,466,127, in 1882.

that this nation has supplied to others 10,-208,080 bushels of wheat and 204,000,000 bushels of corn in eleven and one-half months, without checking receipts from farms, and sees wheat fall 20 cents in a week because a crop is promised greater than 100,000,000 bushels. The decline would have come sooner had not Mr. Leiter looked for larger gains, but the benefit to this country has been an average advance of nearly 25 cents for the crop year on which closed its forty-first annual communication the exports have been about \$480,000,000 and to producers it has been much greater In corn, on the other hand, the cash price has declined only 1 cent and the demand continues extraordinary, western receipts amounting to 4,879,242 bushels, against 3,813,194 last year, and exports amounting

to 3,662,600, against 1,321,448 last year. The cotton movement continues large for this season, although the price vanced a sixteenth in spite of favorable crop prospects. The manufacturing abroad is good and controls the output and at this late season America lets Liverpool mark prices. There is a strong market for wool abroad, which with western excitement, makes quotations of 100 qualities by Coates Bros. of 1 cent higher than June 1, but there is scarcely any buying by manufacturers, who are in doubt about the coming season and have ew new orders, except in army lines. The break in the price of sixteen-ounce clay worsted to \$1.20 has somewhat discouraged

what promised to be a healthy market. Sales of wool were made extremely narrow by the wide differences between excited western holders and manufacturers, who have an uncertain coming reason to

Pig iron is extremely dull, though Bessemer holds last week's advance, and other grades are not quotably lower. No decline in consumption appears, and while bars are weak, with short-time the rule in eastern mills, they advanced 21/2c at Pittsburg, the summer, and have had two remarkably good weeks at Chicago, with building and bridge orders. Plate mills are well employed, and at Chicago the demand for pipe better, especially from the Pacific coast. Shipments from there of rails in May included some to Sweden, Belgium, South Africa, Siberia and three other countries, while orders from Calcutta have just been taken. The authorities of leaves the state of the s ie authracite coal output in May

exceeded the allotment by 19.9 per cent. Failures for the week have been 223 in the United States, against 234 last year and twenty in Canada, against thirty-six

BRADSTREET'S REVIEW OF TRADE.

Many Favorable Features in the Susiness Situation NEW YORK, June 17.-Bradstreet's to-

norrow will say: Unprecedented foreign trade conditions, involving large shipments of breadstuffs, grain, raw cotton, provisions and manufac-tured products, flattering crop prospects, pointing to a very large yield of wheat and most other cereals, as well as cotton; prof-itable railway operations, as reflected in relatively higher gains in net than in gross receipts; activity in nearly all lines of manufacturing except some textile branches, prices for most staples showing heavy ad-vances over the preceding year; bank clearings exceeding all previous records at this date; a volume of new demand limited in the east and south to midsummer duliness. but in the west and northwest comparing favorably with records of previous years: and a low rate of business mortality are all features of the general business situation

at the present time. The collapse of Leiter and his deal in wheat, with the demoralization in prices which was a concommitant, has been followed by a quiet feeling in the cereal markets, but export demand, partly on early placed orders, has improved, and more is doing by flour millers.

It is true that the continued wet weather in sections west of the Mississippi is affecting wheat harvesting, but trade opinon leans to a crop of 709,000,000 bushels of wheat, and large yields of most other cer eals, with corn promising at least favorably

The well

The well known poem,
"Curfew Shall
Not Ring Tonight," in which a young woman by hanging to the curfew bell saves the life of her lover condemned to be executed at the ringing of the curfew, is only one of a thousand striking instances of how a woman will dare everything for love. Women are readfer to make heroic sacrifices than they are to take

make heroic sacrifices than they are to take the commonplace, everyday precautions which insure their greatest happiness. Most women are careless about their health. They forget that physical weakness and disease will wreck the fairest chance in life and shut them out completely from happy womanhood and wishhood. Weak, bilious, dyspeptic women are robbed of their natural attractiveness and capacity. They lose healthy color and energy and ambition. The blood becomes poor and thin and laden with disease germs. The true antidote for this condition is Dr. Pierce's Golden Medical Discovery. It acts directly upon the digestive powers and the liver, creating pure, red, healthy blood free from bilious impurities; it renovates every organ and tissue of the body, building up hard, clastic flesh and muscular strength and imparting nerve power and permanent vitality, which malt extracts do not give.

Mrs. Ella Howell, of Derby, Perry Co., Ind.

witality, which malt extracts do not give.

Mrs. Ella Howell, of Derby, Perry Co., Ind., writes: "In the year of 1854 I was taken with stomach trouble—nervous dyspepaia. There was a coldness in my stomach, and a weight which seemed like a rock. Everything that I ate gave me great pain; I had a bearing down sensation; was swelled across my stomach; had a ridge around my right side, and in a short time I was bloated. I was treated by three of our best physicians but got no relief. I was so weak I could not walk across the room without assistance. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to improve very fast after the use of a few bottles. The physicians said my discase was leading into palmonary consumption, and gave me up to die. I thank God that my cure is permanent."

Cotton acreage and condition alike foreshadow a yield which may be slightly smal-

ler than last year, but this might be easily compensated for by an advance in values which are higher on the week.

A rather quiet tone is shown in the iron

situation this week, relatively most activity being exhibited at the west. New buying is restricted, but mills and furnaces are turning out a heavy output, and the banking of furnaces is looked for to give tone to quotations of the raw product. Cotton goods, if anything, are slightly im-proved, but raw wool is still under re-

stricted demand, because manufacturers find new business slow. The price situation for the week reflects steadiness, the only important decreases being in southern pig iron, wheat and flour, while hides are higher at the west. A number of metals have been advanced, and oats, corn, lead and cotton note fractional

The west and northwest continue the scene of relative activity in demand and movement of merchandise. The excellent crop prospects in the northwest are reflected in a satisfactory trade in seasonable goods, and a relatively larger volume of orders for fall trade, with the aggregate sales at most places heavily in excess of the correspondne week in recent years.

Wheat exports for the week aggregate 4,380,787 bushels against 4,730,982 bushels provision has already called out offers for last week, 2,547,319 bushels in this week vorcester a year ago, 3,620,317 bushels in 1896, 2,875, and it probably will prove the most suc- 357 bushels in 1895, and 1,927,000 bushels in Salt Lake City

Corn exports are also slightly smaller than last week, amounting to 4,106,000 bushels, as compared with 4,774,303 in the preceding week, 1,394,300 this week a year ago, and 858,000 in 1895.

Business mortality is at a low point, the

failures for the week numbering only 207, fourteen smaller than a week ago, nineteen months of the fiscal year, while net imports fewer than in the corresponding week of of gold were \$102,026,089, though in no pre-1896, twenty-four smaller than in 1895, and rold exceeded \$97,466,127, in 1882.

Not less important is the official showing 1894, when restriction of dull business was

most marked. Failures in the Dominion of Canada number nineteen, a decrease of seven for last week, fifteen from the total in this week a year ago, and of sixteen for 1896. REVIEW OF THE STOCK MARKET.

Close of the Week Finds the Position Stendy, with Advancing Tendency. NEW YORK, June 17.—Bradstreet's Financial Review tomorrow will say:

A reaction in values occurred early in the week, resulting in more or less liquidation. Akre or bear selling, an lower prices throughout Bay or bear selling, on lower prices throughout the share list. The declines, except in a few Cl instances, were not severe, considering the extent of the previous bull movement and extent of the previous bull movement and the market soon became steady and later in the week gave symptoms of renewed advance. This was, however, mainly on short covering and one of the effects of the check to the market's rising tendency was the decided. Rockford, to the market's rising tendency was the decrease of public participation, professional manipulation being once more apparent. London was a purchaser of stocks to a limited extent on the decline, but the active interest in Americans is small and the London market generally is sluggish and narrow. At the end of the week industrials and Totals, U. S..... \$1,269,686,480 20.4 specialties were the principal objects of the Totals outside N. Y.. 515,193,668 19.4

The bond issue and the war news have of course been factors, but the principal influ-ence in the market this week was the collapse of Leiter's grain operations at Chicago. It is recognized that this was hanging over the market for some little time and was the probable cause of the change of leading operators from the bull side. The actual developments at Chicago last Tuesday were disagreeable to the street at large. western contingent were sellers of stocks and there was a general fear that banks and other large interests might be involved, which was promptly reflected in the course while Chicago reports heavy season contracts still coming from wagon, car and other manufactures. Heavy sheets are better at the east, but thin are not better anywhere. Structural works are full for the summer, and have had two remarkably not thoroughly relieved until the close of the on the chief actor in the episode and his Immediate backing.

In this connection it may also be noted that the reports of the continued rain at the west and damage to the crops, have been used to some extent by the bears, while the continuance of rate cutting both east and west has also been held up as an unfavor-

Arrests Ula Assailant. Detective Shay of St. Louis arrived in Omaha yesterday to take into custody John Hubbell, a negro, who shot and almost killed him last November. The prisoner escaped at the time and was captured in Omaha a week ago, Hubbell was ordered by Shay to move off the corner of a certain street and the former deliberately emptied the contents of

a shotgun into Shay's breast and head The officer lay at the point of death for two weeks. . Mortality Statistics. Following are the ported to the health commessioner during

able, compiled by Bradstreet's, shows the Forest Lawn.

THE TEA LAND —That's Japan, the parent land of the chrysanthemum and the cherry bloom.

In Japan sun and soil and science combine to make Japan Tea

best tea—purest, most wholesome.

The World's Best Beverage. The Japan Government inspects every ounce of it. "It Invigorates in the morning, refreshes at night,"

When you're in Omaha at the Trans - Mississippi Exposition for a cup of Japan Tea served by Japanese ladies in the beautiful Japanese Tea Garden.

Do You Really Want a Fruit Land Home

That will give you \$1,500 a year? If you do now is the time to get it. - We have them fully prepared ready for delivery, with the crop on the trees.

A FREE TRIP TO LOOK AT THE LAND before you select it. (This free trip applies for old customers as well as new.) These lands are all located within sight of

the city of Portland, the New York of the Pacific coast. The bridge across the Columbia between Portland and Vancouver will be finished within

a year, when all land on the north side of that

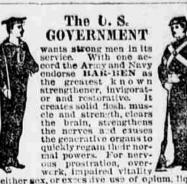

river will promptly double in value. If you really want to get a home and an in come in a country where there are no killing frosts, no grasshoppers, no lightning, no hail, no high winds, no really hot weather, no cold weather, no failures of crops-none of the ills of which you complain—this is your chance.

If you don't want a fruit farm we can offer you a wheat farm, ready to harvest 10,000 bushels of wheat, and a dozen smaller places to choose from.

In Your Own Home

An Atmosphere in Which Disease Germs Can Not Live.

It is Created by the New Discovery

"HYOMEI" Catarrh, Catarrhal Deafness, Asthma, Bronchitis, Coughs, Colds and Consumption are positively cured by this powerful germicide, which pervades every nook and corner of your home and is carried to all parts of the head, throat and lungs by the

air you breathe. No liquid medicines, no dangerous sprays, douches or atomizers. "HYOMEI"

CURES BY INHALATION Already over thirty-seven hundred physicians have declared it to be the only method ever discovered by which the diseased air passages can be reached. Already more than seventeen thousand testimonials have been received from people who have been cured.

"Hyomei" is nature's own remedy, given through the only vehicle (the air you breathe) which nature permits to enter the bronchial tubes and lungs. There is no danger, no risk. Your money is refunded if it fails to relieve.

"Hyomel" outlit, complete, \$1.00; extra inhalent, 50 cts. "Hyomel" Balm, (a won-derful healer) 25 cts. Sold by all druggists, or sent by mall on receipt of price. Sen**d** for "The Story of Hyomel." Matled free. R. T. BOOTH CO., Suite 20-21 Auditorium Building,
