Babes Finally Fight Their Way Up from Tail-End Position.

THREE STRAIGHT FROM THE MILLERS

Schmelz's Outfit Makes but Feeble Resistance to the Ouslaught of the Fisher Family and the Victory is Hollow.

The Millers not only had all the appearance of old women yesterday afternoon, but acted and played the part to perfection and the result was that the Babes easily pulled out of last hole by handily making it three straight-the score being 8 to 2 in our

It was the last game of the home series and in all probability the last of any contest in the Western league that Omaha will witness this year. It has not been officially announced, but there is every likelihood that the team will not come back to Omaha, but will be transferred to some other city. The players are generally of the opinion that they will not return to Omaha. Three cities have been after the aggregation-Des Moines, Rockford and Peoria. Rockford seems to have the inside track because it has offered to furnish grounds free and other concessions for the franchise, but it is understood that the conditions of the deal have not been completed and therefore no announcement of the transfer has been made. Omaha has not given the team the support its owners looked for. President Schuman is already some \$10,000 in the hole on it The team left last night for Minneapolis with the Millers, where a series of three games will be played. Three follow with St. Paul. A game is scheduled here with Kansas City next Sunday, but this will in all likelihood be transferred to Kansas City. It is just possible, but rather doubtful, that the games scheduled with the Blues on a week from Wednesday and Thursday wil be played in Omaha.

The Millers pirouetted about yesterday with as much gumption as a lot of stone pile convicts. Their error column gives them only four miscues, but if the errors of judgment were thrown in the saffron column would be topheavy. Wright pitched a good game, but his rank support made this The Babes would be credited with at least three less hits if the Esquimaux had been right.

#### Babes Play Beautiful Ball.

We were up to the notch in every way Wadsworth was in the game in place of Fleming, who is laid up with a bad dose of charleyhorse and he made the only error The honors must be awarded to "Rabbit" Hollingsworth, who played a star game. He accepted nine chances, two or three that looked like sure hits, cracked out a double and a single, scored twice and purloined a sack. But all the other boys were right up to the notch too.

After having six men up in the firsttwo men getting a base on balls and another a single-and failing to score, we got our first tally in the second. Holly made a two-bagger, was sacrificed to third and stole home while the Millers were getting

In the third Letcher's error gave Eustage a life and our natty third baseman was sacrificed to second by Roat. Pick's double scored him and Lyons' duplicate scored Pick. Preston reached first on Letcher's Lyons was caught at the plate on Holly's grounder. Dixon let a ball go by him and Preston tried to score. He would have made it, because Dixon made a wild throw to the plate, but Cantillon thought fering with Wright's catching the ball and called Pres out. Mac no more interfered than the spectators in the stand,

The fourth and fifth resulted in nothing. but in the sixth we added three. Lyons got a base and reached third on Reilly's wild throw on his grounder and scored on Holly's hit, after Preston flew out to Letcher, Holly got to third and Mac got to second on the latter's single and both scored on a wild pitch. In the seventh an error by Dolan on Roat's grounder, an out by Pick, a passed ball and a hit by Preston, allowed Freddie to score. Finally in the eighth single by McCauley and another by Eustace brought Mac home.

#### How the Millers Scored. They made their first tally in the fourth

the first three innings being of the one, two three order. Rice singled and so did Letcher. A sacrifice by Lally advanced the runners a base and Rice scored on Campau's fly. In the fifth Dixon, the first man up, made a three-base hit and scored on Dolan's long fly to left, Davis going out to Holly. These were the Millers' only tallies. In all the rest of the game they had a man on third once, one on second once and one on first OMAHA.

### His Idea of the Missouri.

The young athlete treated his exploit modestly and only regretted that the condition of the water was such that he had not been permitted to go from the highest point. It was his first taste of Missouri river water and he said that he had ensurface than on any other stream. The pounds of clay and sand to the 1,000 gallons of water. Tustin was not under water four feet deep and five feet square, and he plunges into this at circus performances from a height of fifty feet. He felt no inconvenience from his plunge and had calculated his distance exactly. This latter process is all important, for if the diver had been an instant too slow or too rapid in his turn the ending would have been fatal. Tustin is the only professional diver at present who undertakes such distance in connection with a fancy spring.

### Some Previous Dives.

Tustin has already achieved quite record of lofty dives, although he is as ye quite a young man. Before his professional career began he was known as one of the best long distance swimmers on the Pacific coast. His first high jump was from the Folsom (Cal.) bridge into the American river, a distance of 105 feet. Tustin was arrested a few weeks ago for diving from the "Bridge of Suicides" in Lincoln park Chicago. There was difficulty in finding charge in the statute books to cover his offense until one of the park regulations was brought to light regarding the conduct of visitors and Tustin was locked up for disturbing the fish. Other of Tustin's high dives are from the Eads bridge, St. Louis, 129 feet; Central viaduct, Cleveland, O., 104 feet; Wabash street bridge, St. Paul, Minn., 97 feet; piledriver on the Potomac river, Washington, D. C., 85 feet; boiler works shears, New London, Conn., 95 feet; Point bridge, Pittsburg, Pa., 95 feet.

Although Tustin's is the only professional dive made from the Douglas street bridge the attempt was made once before by Henry Smith in 1892. Smith was then about 18 years old and he leaped from the railing burdened with his clothing with the intention of suicide. His resolution waned after he reached the water, however, and after a struggle with the current he reached shore. smith is at present in the state penitentiary for house breaking.

# A Queer Craze.

Are you one of the victims of the new crash hat? You know how nice and trig and fetching it looked the day you bought it, and you know how forlorn and wilted and scraggy it looks now. Of course it wasn't your fault. Neither was it the fault of the store that sold it to you. The craze started last year and swept the whole country and now people are beginning to find out that for real good service and good wear and hard knocks, the crash hat isn't in it with the good old straw. This morning we call attention to the unusual quality of the straw hats we offer at 25c. The new lot just received contains five different shapes in high and medium crowns, in wide and narrow bands, in straight and flexible brims. There are without question the finest straw hat values we have ever offered and you may thank the crash hat craze that you are now able to get for a quarter a hat that never before was offered less than 50c. Crash hats if you want them-25c to 45c.

In the Oregon country for a very lit-tle money that will

Give You \$2,000 a year

### Income in return for your care of it, but we know that it is true. Hence We Persist

In calling the attention of all men who work in cages, slave in hot base-ments, ruin eyes and health over books, destroy nerve and life amid

TO THE FAIR FREEDOM

Ard health of a fruit farm home in our beautiful Pacific coast land.

Because It Is True We invite you to take this year's va-cation for a trip out there

And feel with your own senses that we have been telling the truth all these years. The First Excursion

Goes July 1st.

To See With Your On 1 Eyes

Via Rock Island Route, Denver, Salt Lake, Portland, to Astoria, the Pacific ocean, over which our soldlers sail, to the Cascade lakes—the biggest on earth—a work that cost the government millions of money and twenty-four years to build, to the Willamette Falls, the largest on earth, where clear mountain waters fail into the tides of the sea, and yield as they fall a hundred thousand horse power, to the completed works of Masa; to the far-famed Willamette Valley, where roses bloom twelve months in the year and wheat yields SIXTY bushels to the acre.
