Santiago is fallen.

Spain should know by this time that it has had enough.

Justice can be done every here in the American navy without injustice to any other.

Spain finds fighting American soldiers very different from fighting half-starved Cubans.

Now we have Santiago. The next question is, What are we going to do with it?

This is a military year. Military day at the exposition ought therefore to be made notable among the many notable days.

Fusion has been effected in North Dakota under the name "Independent Democrat." But it is the same old confusion maker.

The "expansion" policy is not going to be helped by the claim that the Philippines are necessary to furnish rubber for American bicycles.

Santiago is taken on July 14, the anniversary of the fall of the Bastille.

From the columns of an esteemed contemporary it is difficult to tell which is the most important news topic—Rosewater or the war.

A good general wins as often by firmness and boldness as by fighting, but the American army stood ready to take Santiago by storm if need be.

Already the speculators are said to be making a preliminary survey of the islands with a view to locating the future great city of Hawaii. Town lots will be on sale soon.

The solemn declaration in a San Domingo newspaper that the president of the United States is a man named Haman shows where yellow popocate newspapers get their circulation.

Providence is again on the side of the republican party to the extent of providing agreeable weather for the republicans in convention here as representatives of the league clubs of the United States.

In twelve years the city of Santiago de Cuba will celebrate the 500th anniversary of its founding, and if the people treat Shafter and his army right the old city will be in good condition for a first-class celebration.

It was said that General Blanco contemplated suicides when he learned of the destruction of Cervera's fleet.

"After you, sir," said Senator Allison, as he gave way to a wounded soldier who had called at the War department in Washington on his way home from Santiago. That is the way the American people feel toward the nation's defenders.

There is doubtless plenty of work for the volunteer army in garrisoning captured territory pending the completion of peace negotiations.

The American people have been much given to money making and the building up of business within the period since the close of the civil war, but that has not made of them workahogs in battle. It is entirely possible, for it has been proved so, to learn the arts of peace and not forget the arts of war.

SURRENDER OF SANTIAGO.

Another signal triumph for the American arms and one that may have a decisive influence in behalf of an early peace has been achieved.

The armistice was continued from day to day, the Spanish commander, while showing a brave front, still by his course indicating a desire to surrender upon the best terms he could obtain.

The Spanish campaign, most important in its results, has occupied less than four weeks. On June 23 General Shafter and his army landed at Baiquiri and on July 1 moved upon Santiago.

The Exposition City has always prided itself upon the boundless hospitality and fervid patriotism of its citizens.

The Third Nebraska regiment, which has just been mustered into the volunteer army, on the eve of its departure to the seat of war, will be reviewed on the exposition grounds by Governor Holcomb and his staff.

While the good roads movement in many parts of the United States has been carefully confined to inexpensive essays or pamphlets it has been permitted to spread out from Omaha over adjacent parts of Douglas county in the form of permanent improvement of the public highways with most gratifying results.

A postoffice inspector who has recently made a tour of the transmississippi states for the postoffice department reports prosperity and good feeling everywhere in the west.

The organ of the defuncto police board professes amazement at the bill of \$100 for attorney's fees in the police commission case inserted in the city appropriation ordinance.

from which the markets may be reached over them. The people of Omaha and Douglas county will take pride in the fact that they have done a great deal more than merely to discuss good roads or to listen to experts tell how roads may be built.

SHAFTER VINDICATED.

There has been some criticism of General Shafter's conduct of the Santiago campaign. One prominent newspaper correspondent with the army has reflected somewhat upon the ability and attention to duty of that officer.

The result at Santiago is a complete and most gratifying vindication of General Shafter's campaign. It is true that he might have sooner compelled the surrender of Santiago by assault.

Twenty men from the Alaska gold fields have returned to San Francisco, bringing \$70,000 in cash and \$25,000 in gold.

PROSPERITY OF THE WEST.

Crop reports from Nebraska indicate a continuance of the prosperous condition which began in the great agricultural states fifteen months ago.

RESISTING AN IMPOSITION.

The commissioner of internal revenue has decided to insist upon the shippers and dealers required for bills of lading and receipts.

LOSSES AT SANTIAGO.

General Shafter's revised statement of losses during the two-days' battle before Santiago de Cuba makes out a total of 251 killed, 1,232 wounded and 31 missing.

Table showing losses at Santiago with columns for Total, Killed, Wounded, Missing, Bull Run, Shiloh, Antietam, Gettysburg, and Santiago.

The fierce bombardment of the jack-ass battery has not even left a mark on the Bee building, which still stands as a monument of the perseverance, public spirit and industry of the little editor on the hill.

A postoffice inspector who has recently made a tour of the transmississippi states for the postoffice department reports prosperity and good feeling everywhere in the west.

When the call was made for the democratic state convention for Iowa the office of state treasurer was overlooked and no mention made of filling that place on the ticket.

and comparatively scattered formation largely clears the deadlier nature of the more modern arm rifle.

The percentage of wounded to the total American forces engaged at Santiago was 8, as compared with 15 at Bull Run, 9.5 at Shiloh, 11 at Antietam, a trifle less than 8 per cent at Fredericksburg, and about 12 per cent at the Wilderness.

Every one seems agreed that it is the imperative duty of the republican party in Nebraska to nominate none but clean, capable and trustworthy candidates on state and local tickets this year.

COMING THE COST.

According to Spanish statistics, Spain has lost since the beginning of the war twenty-one war ships and twenty-one merchantmen.

COMPLIMENT OF AN EXPERT.

No higher compliment could be received by any ship than to have bestowed on the Brooklyn by Captain Eulate of the Vizcaya, and the tribute which the commander of the ruined cruiser pays to the flagship of Commodore Schley is all the more valuable because it is in the nature of expert testimony.

THE KLONDIKE OUTLET.

Philadelphia Ledger. Twenty men from the Alaska gold fields have returned to San Francisco, bringing \$70,000 in cash and \$25,000 in gold.

JUST LIKE SPANARDS.

"My men fought like true Spaniards," says Captain Eulate of the Vizcaya. This seems to be a perfectly correct statement.

FIGHTING BOBS' GREAT LUCK.

It is singular how accommodating those Spanish shells are. The Iowa was hit twice severely in the last naval fight, one shell bursting in the gun turret and another case a mortar bomb went through the deck and burst in the ward room of the officers' mess.

EXPOSITION AND EDUCATION.

Someone has said that the wisdom of the fabled gods and the self-poise of a Milo are hardly sufficient equipment for training the children and youth of our land.

While there is less written work from the school perhaps than any of the other defective schools, there is quite as much care and nicety in its preparation.

CHICAGO DAY AT OMAHA.

The Transmississippi Exposition at Omaha has set apart September 1 as "Chicago day," and extends a hearty invitation to all residents of the World's fair city to visit the only significant exposition enterprise of the year.

ROUGH RIDING AT EL CANEY.

John Paul Biscock in New York Sun. It was on July the first, in the year of '98, when the shells began to burst.

MEMS OF THE HOUR.

Of the part taken by Commodore Schley's flagship, the Brooklyn, in the historic fight with Cervera's fleet, a Spanish officer gives expert testimony.

Colonel J. L. Torrey of the Second United States Volunteer Cavalry, "Torrey's Rough Riders," is a wealthy ranchman and lawyer of Wyoming.
