CONTEMPT PROCEEDINGS THE PENALTY

Attorney Serves Notice that an Ap pent Has Been Taken and that Regulation Under the Law Must Be Withheld.

LINCOLN, July 15 -- (Special.) -A new chapter has been opened in the telephone and express company serial which was begun by Representative Yeiser of Douglas and Senator Feltz of Keith county some months ago. The State Board of Transportation recently notified W. W. Morsman, who is attorney for both companes, that dates had been set when he would be expected to appear and produce testimony showing reasons why charges should not be lowered in the business of the respective companies. The date set for the telephone case is July 25, and the Pacific express case July 28. Both companies have replied in

the following form: To Constantine J. Smyth, Joseph W. Edgerton, James C. Dahlman and Gilbert L. Laws. You, and each of you, will please take notice that the plaintiff in the above entitled cause has filed in the office of the clerk of the district court of Lancaster its supersedeas bond and that said bond has been approved by the clerk of said court, as provided by law, whereby the order of injunction in said cause is continued in force.

Please take notice that unless you forthwith recall proceedings advised, directed and instituted by you in violation of the said order of injunction, proceedings will be instituted charging you with contempt of court by reason of such violation.

The reply is signed by their attorney, W. W. Morsman. Attorney General Smyth a New England college, where he has acwill hold that the companies are not entitled to a supersedeas bond and it is the intention of the board to pay no attention to the notice received from the companies.

The regular monthly report has been re ceived from the Second regiment and is signed by Lieutenant Colonel Emil Olsen. During the month of June there were fortyone enlisted men sick, thirty-eight of them present in camp and three absent. Three enlisted men have been under arrest. This does not include the officers who have recently been placed under arrest on account of the Maher court-martial. Two members of the regiment have tired of army life and deserted. Earl W. Hood deserted from Company I. June 3, and John Johnson from Company L. June 8. Johnson is the col-ored cook who enlisted with the Norfolk company and he has a wife living at that He is 44 years old and was born in Kentucky. Hood is a young man, scarcely of age, and the residence of his guardian is given as Glen Rock, Wyo. He was born in Nemaha county, Nebraska.

At a joint meeting of the Independent Workmen and the Business Men's fraternity last night it was decided that the two or ganizations be consolidated. The new order will be the Business and Fraternal association. The officers elected are: President, W. A. Riddle; vice president, P. I. Johnson; secretary, E. L. Troyer; treasurer, G. S. Baldwin; trustees, E. Hoppe, Richard O'Neal and T. O. Taylor.

Joseph H. Brown, for many years justice of the peace in Lincoln, died yesterday of a cancer on the side of his face, from which he had suffered intensely for several years. Mr. Brown came to Nebraska in 1855 and settled at Plattsmouth. In the winter of the same year he served as a clerk in the territorial legislature, and was also a clerk in the first state legislature in 1866. During the intervening years he served Cass county both as clerk of the court and county clerk. Mr. Brown came to Lincoln in 1873, and has since served as justice of the peace thirteen years. He was 64 years old at the time of his death, and leaves an axed wife and two daughters, one of whom hies

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of

In Judge Spencer's court today Charles Wilson, alias E. Bailey, was bound over to the district court in the sum of \$400. The young man is charged lith breaking into the store of Lewis J. Loder at Waverly last Saturday night with a pal named Hill and taking a lot of goods and jewelry. Hill is now in the county jail under a \$400 bond waiting the sitting of the district court to answer to the charge of aiding in the Waverly burglary and also one at Hallam that was done a night or two before. Wilson is a young fellow who has lived in Waverly for some time.

Homer Smith has brought suit in Justice Leese's court to recover \$100 damages from the city of University Place. He relates that he was riding on Holredge street in \$1,210,274,015 worth of domestic products that city on the night of July 12 when his abroad in a year, against \$616,012,844 worth horse fell into a large hole at the south side of the high bridge on that street. He alleges that there were no guards about the hole, or lights to warn him of the danger, and the horse fell in and permanently

disabled its hind legs and back. The remains of Oliver Maggard, a former unturally lowest point for the year and resident of Lincoln, were brought to this therefore the records are the more imcity and reinterred in Wyuka. Mr. Maggard iled at Duluth, Minn., where he had been

This action has been taken upon a petition by the Board of Supervisors to the judge, asking for a special session of court. The present congested condition of affairs is causing serious inconvenience to the citizens. The board has resolved to allow no bills against the county or permit any vouchers to be made until the matter is settled.

Accidental Shooting.

HASTINGS, Neb., July 15 .- (Special.) While a party of young people were going to the picnic grounds on the Blue yesterday Miss Grace Heilman was accidentally shot through the left thigh by a 22-caliber rifle. TRADE AND THE INDUSTRIES

Influence of the War Excitement is Being Felt but Little.

NEW WART LOAN IS A GREAT SUCCESS

Business is Generally Good at Naturally Lowest Point for the Year - Exports Active and Improved.

NEW YORK, July 15 .- R. G. Dun & Co.'s Weekly Review of Trade will say in tomor row's issue:

The destruction of a Spanish fleet, Europe's quick appreciation of the feat, the waving of flags of truce at Santiago and, at last, the surrender, have all influenced some markets this week. But traders see that not many outside matters greatly influence the business which enables them to market imported. The new loan has proved a stundous success, \$1,300,000,000 having been subscribed, and it is now the question of chief interest whether the banks will get enough, after personal subscriptions have been accepted, to support further circula-tion. Industries and business are at the pressive.

The decrease in output of pig iron from 25,378 tons weekly from June 1 to 216,311 July 1, mostly due to usual stoppages for repairs, a little before July 1, carries with it a decrease of 4,215 tons weekly in unsold stocks. If the first and last of the month represented average production, the quantity consumed in manufacture would be 3.8 per cent less than the highest ever attained in May, a small decrease for midsummer, larger and decrease in consumption was western Pennsylvania where he will spend smaller. Just when stagnation is customary very many mills are crowded with orders for months, the Illinois rail mills until December or later, with sales this week of 15,000 tons and structural works with a few contracts for 10,000 tons or more, while larger demand appears for cars and sheets, with a better demand for bars at the east. Heavy sales of bullets from Pittsburg to eastern Pennsylvania, at a concession of 5 though eastern steel bars are a shade

It is still between seasons for wool, but a Judge Evans has appointed July 26 as the tion for business and the demand for woolen been reduced and the competition as to serges seems likely to be excessive. Sales of wool were 6,441,000 pounds, 5,521,000 being domestic, for two weeks of July, against 24,572,800 pounds last year, of which 1,965,-600 were domestic. One sale of 1,500,000 Ladies' silk finished lisle thread vests—pounds territory, at prices lower than are nicely finished—ecru or white—50c quality being paid by Boston parties in Montana, looks like business in the future. Cotton has been steady in spite of good crop prosbills in this country are growing better.

Wheat has been dropping in prices, under estimates of 689,000,000 to 700,000,000 bushels this year, which seems to be at least well warranted as over-conservative estimates of some parties last year. Western receipts are moderate as yet, but the Atlantic exports for the week were 1.719,759 bushels, flour included, against 1,611,490 bushels last year, and Pacific coast exports, 521,514, against 136,763 bushels last year, and for two weeks the exports from both coasts have been 4,884,412 bushels, against 587,909 last year. from the stamp tax, and the professional element in the board room and "street" have adopted bonds as a speculative vehičle, owing to the fact that transactions tax on sales. This resulted in active business in a number of classes of railroad bonds, the transfer of speculative attention to that part of the market having a tendency to improve values of bonds all around. There was less attention paid to matters apart from war news than for some weeks back. The great success of the hond sub-scription, however, must be counted among the builtsh factors, and has given financial

interests generally decided satisfaction.

The absence of disturbance in the money market would prevent any immediate speculation, though it is believed the success of the loan and its having been entirely absorbed by individual subscribers would bring large amounts of corporation funds to pay for new bonds back into the general nvestment market. Confidence Felt in Promising Outlook for Fall Business.

NEW YORK, July 15 .- Bradstreet's to morrow will say: Pending the initiation of the new fall under way in all markets, there exists a quiet midsummer condition, accompanied, however, in most cases by price steadiness and confidence in a promising outlook for fall trade. Retrospection and review continue to furnish many satisfactory illustrations of the favorable conditions experienced during the first part of the pres

ent year, some of which seem bound to be duplicated during the second half. While there seems little reason to ex-pect anything like the excited foreign buying of cereals this year which occurred las season, the world's wheat crops all point-ing to exceptionally large if not recordbreaking yields, still the situation of car-ried-over supplies, visible and invisible, is such as to lead to confidence in a good general demand for most of this country's surplus, though the outlook favors a considerable shading of prices obtained from

such products. ere is a little more hopeful feeling in the iron and steel trade, the result partly ing to Brookings in time for the opening of reduced output and reduced stocks of of the fall term of the Agricultural college. pig, and owing to the reported large busi-ness offering, principally at the west, where some mills will forego their usual summer shutdown and others will curtail the vacation period materially. More is doing in steel and some western mills are reported booked with orders until next winter. large export orders are reported from Chi-cago. Except for some shading in cereals caused by the usual tendency to discount government crop reports and look for larger than indicated crop yields, the price situa-tion is one of considerable steadiness. Con-tradictory reports come as to the volume of export trade in wheat and corn at the decline, but a good business for this time of year is undoubtedly doing. The move-ment of new wheat at the southwest is freer, although farmers are rather inde-

at the east, but more inquiry for raw wool is a feature and prices are well maintained on a fairly large business for this time of

pendent at present prices.
