the Treatment They Have Received.

WASHINGTON, July 21.-After Admiral Cervera and the crews of his ruined Spanish ships arrived in this country Emile M Castillo, president of the Spanish Benevolent society of this city, obtained from President McKinley permission to pay a visit to the prisoners. Mr. Castillo was born in Spain, but has been a citizen of the United States since 1896. He has just returned after a day's visit at Annapolis. He received courteous treatment from Admiral McNair, and had conversations with Admiral Cervera and his officers. After explaining to a reporter that the purpose of his visit was to offer such aid as the Span-

ish officers might need, Mr. Castillo said: "Admiral Cervera and his officers expressed great gratitude for the generous treatment of the American government. Nothing that could add to their physical comfort has been omitted." Mr. Castillo said that the view that the

Spanish fleet was outclassed prevailed among Cervera's officers, while the ships lay in Santiago bay. "There was always a shortage of coal," Mr. Castillo said. "They could not injure the American fleet, because they came out of Santiago harbor in single file. Each ship was pounded as it came out.

Mr. Castillo said the Spanish government had sent a draft for \$50,000 for the expenses of the men in this country, and that the money is now available. "Admiral Cervera's figures show that

twenty of his officers were lost. He has learned that one who was reported as missng has turned up at Santiago." "Have Admiral Cervera and his officers formed any plans for the future?"

"Plans!" said Mr. Castillo, with a laugh They are prisoners.'

POSTAL SERVICE TO SANTIAGO. Order Issued Which Applies to All Territory Occupied.

WASHINGTON, July 21 .- The president today issued the following general order pening postal communication between the United States and Santiago district and other districts that may be taken hereafter In view of the occupation of Santiago de Cuba by the forces of the United States, it is ordered that postal communication be-tween the United States and that port, sumed subject to such military regulations as may be deemed necessary. As other porthe United States, postal communication may be opened under the same conditions. The domestic postal service within the erritory thus occupied may be continued on the same principles as already indicated for the continuance of the local municipal and judicial administration, and it may be ex-tended as the local requirements may jus-

tify under the supervision of the military ommander.
The revenues derived from such service are to be applied to the expenses of con-ducting it and United States postage stamps are therefore to be used. The postmaster general is charged with the execution of this order in co-operation with the military commander, to whom the secretary of war will issue the necessary directions. WILLIAM M'KINLEY.

Sends a Very Tart Order to Admiral Sampson to Hurry Up.

Children's Sunbonnets In white is unable to understand the Delay

Imperatively Necessary that Naval Force and General Miles Should Reach Porto Rico Ahead of General Wilson.

WASHINGTON, July 21 .- President Mc-

The president, who has been giving the Porto Rican expedition his personal attention, finally became deeply concerned lest the part of the Porto Rican expedition that has already sailed from this country should arrive at the point of rendezvous in advance of General Miles and the navy. It is feared that if General Wilson's command, and the naval convoys serious danger and Wilson's ships are absolutely without proection. The distance from Charleston to Porto Rico is over 1,300 miles, while from Playa del Este to Porto Rico is about 700 miles. The comparative distances which General Wilson and General Miles have to travel to reach the point of rendezvous are rendered the more nearly equal, however, by reason of the fact that the former has more than a full day's start.

Orders Admit of No Delay.

Fully appreciating these facts and realizng the necessity for prompt action in getstarted, President McKinley this morning issued personal orders, through the secretary of the navy, to Admiral Sampson that he should proceed immediately to Porto Rico with General Miles. The president's orders are susceptible of no misconstruction. They are imperative to a degree seldom employed except in cases of extreme emergency. They are of the sort that will brook no delay in their execution. Admiral Sampson must start at once or the president himself will know the reason why.

No Lack of Naval Assistance. The Navy department tonight made pub-

ic the following statement: Admiral Sampson telegraphs this afternoon to the secretary of the navy that there has been no delay in furnishing ample convoy to General Miles. A day or two hum." ago the Cincinnati and New Orleans were both placed at his disposal. The Columbia and Yale, carrying troops, are both powerfully armed, says the admiral's telegram, and this is an ample convoy for his expedition and to effect his landing. The Annapolis, Wasp and Leyden had been ordered from Nipe, the Gloucester also added and the three monitors ordered from Tampa. Under these circumstances there certainly has been no lack of naval assistance. If General Miles preferred to wait the delay was his own. However, in further answer to his request, the Massachusetts and Dixie were also added this morning and he has

probably started. This statement shows that General Miles will be backed in effecting his landing on Porto Rican soil by a strong squadron of the navy. In addition to the vessels named in the statement, it is officially admitted for the first time that the powerful monitors, Terror, Amphitrite and Puritan, which have been at Key West, are under orders to proceed to Porto Rico to assist in the reduction of the Spanish forces there. It is known also, to be likely, indeed, it is probable, that still other vessels of Admiral Sampson's fleet will participate in the reduction of the fortifications of San Juan This was indicated clearly by Secretary Long's statement this afternoon, concerning the sailing of Commodore Watson's eastern squadron. In the course of his statement, the secretary said the eastern squadron would be "sent to Spain later. when the Porto Rican campaign permits." It seems clear that at least some of the vessels will be used in the bombardment of the principal Porto Rican city.

> on the St. Paul and Scandia within a week or so, all of these men will be transferred to the new camping grounds at the Presidio, where a supply of water is now being piped. The division field hospital will at once be moved to the government reservation. The steamer Centennial has been inspected for the third time and may yet be engaged as a transport. The Lakeme and Alliance will probably be employed to take the New York regiment to Honolulu. Brigadier General Miller has ordered a medical board conened to examine into the physical condition of Lieutenant Colonei E. C. Little, once acting commander of the Twentieth Kansas volunteers, to discover if he be not physcally disqualified for the duties of his post.

Transports Leave New York. NEW YORK, July 21—At daylight three of the fleet of United States transports, which have been fitted out at this port, put to sea, and, upon clearing Sandy Hook, took southerly courses. The Glacier was the first to leave. It was followed by the Roumanian, now known as "No. 52," and the Michigan, known as "No. 26." The Massachusetts, which is being loaded, will leave later in the day. Soldiers at Chickamnuga Ready to Start When the Word is Given Them.

CHICKAMAUGA PARK, July 21 .- Owing to a delay in Washington in completing plans for the Porto Rican expedition, delay in the departure of General Miles, or some other cause, not stated here. General Brooke has not yet stated what regiments are to be sent out from here, or when they will go. General Haines' brigade, under orders to move, did not get out this morning, as was expected, but may go tonight or tomorrow. The three regiments are in complete readiness to move and are only awaiting the necessary order. There is a growing impression here that General Brooke desires to take his entire First corps with him to Porto Rico. This corps is well equipped well trained and in every way ready for service. This corps in its entirety was ordered sometime ago to prepare to go to Porto Rico, but later it was stated that only two divisions would be sent. According to the present report, General Brooks is endeavoring to convince the War department that it would be best to send the whole corps, even if some of the other commands named for the expedition must be left behind. His wishes in this respect are corps and the confidence he has in it. Orders designating the regiments to go are expected hourly
