Yesterday a policeman visited all of the places in the city where slot machines are in operation and served notice that the machines were to be turned to the wall at once. No explanation was offered and it was supposed for a time that some one had complained to the sheriff and that a raid was about to be made. Later developments, however, proved that this idea was erroseous. On Saturday last there arrived in the city a man named McDonald, who represents a Chicago slot machine factory. He installed one of his machines in an N street resort, first, however, taking the precau tion to comply with the law by obtaining a license as provided by a recent city ordinance. For this license McDonald paid the sum of \$10, which is the fee exacted. Tuesday McDonald was notified by a policeman that he would not be permitted to operate his machine in the city, and as he could not understand why, in view of the fact that he had obtained a license, he called upon Mayor Ensor. McDonald asserts that the mayor told him that the license he had obtained was worthless because it had not been signed by his honor. At the request of the chief executive Mcpennies, buy homesteads and help to build Donald turned the license over for inspection and it was retained. In lieu of the license the mayor gave McDonald \$10 and which is located the royal house of Ak-Sar- told him that the ordinance passed by the council was solely for the benefit of resiany first payment. This was a knock-out blow for the slot machine man and he promptly retained Sut-So far these attorneys have taken no steps About 500 subjects of the king of Quivera to bring the matter to the attention of the court, but intend doing so. Mr. Lambert said last evening that he had looked over the ordinance passed by the council, which provided for the licensing of slot machines, and that the signature of the mayor is not necessary. All that is required by the ordinance is the seal of the city and the signature of the city clerk on this license. From the records on file it appears that the license was issued in regular form, the same as others obtained by local parties. Attorney Lambert said that he thought the order closing all of the slot machines was issued for the purpose of discouraging Mc-Donald so that he would leave the city. If this is the play those behind the move will be disappointed because the interests of the firm McDonald represents will be protected. This attorney further says that f McDonald is not allowed to operate his slot machine here no others will be permitted to be played.

McDonald put in the greater part of the afternoon looking up the members of the council, to whom he related his tale of woe. Just what will be done about the matter remains to be seen, but it is evident that slot machine gambling will be suspended for some little time.

In connection with this matter Mayo Ensor said that he considered all of the licenses issued to operators of slot machines illegal for the reason that the documents did not bear his signature. As for the or der closing down the machines the mayo stated that a move was on foot to put a stop to slot machine gambling in Omaha and he thought it best to follow suit.

Most of the kinks in the machinery a the Armour plant have been taken out by a week's constant usage and everything is now running along as nicely as can be expected. The construction work still occuples a great deal of attention and the end is not in sight yet. A blacksmith shop is being built at the east end of the ham house on the ground originally selected for keeper's office, so that the employes will not have to walk through the mud in bad weather. Large numbers of visitors continue to visit the plant daily and guide are furnished upon application at the office It takes about forty minutes to make a tour

of the plant. A cement sidewalk ten feet in width is to be built from the end of the viaduct to the western limits of the property as soon as portions of the retaining wall now under course of construction are completed. Work commenced yesterday on the addition to the cold storage and oleo houses. This new building is located on Q street just west of the reservoir, and has a length of 160 feet with a width of eighty feet. The reservoir, which holds 500,000 gallons of water, is now completed and has been filled,

the water being held as a reserve supply in case of fire. General Superintendent Howe said yesterday that in a few days he would take up the organization of a permanent police force. At the present time six night and five day watchmen are employed. This number will be increased as the necessity demands. Forty alarm boxes are now in position in different parts of the completed buildings, and this number will be doubled when the entire plant is completed.

A. R. Urion, chief of the legal department of the Armour company, with headquarters in Chicago, spent yesterday in the city. There is enough construction worl now planned and under way to keep Roche ford & Gould, the contractors, at work all the balance of the summer and fall. More men are being added to the packing house

CURED IN 2 WEEKS BY CUTICURA

I have suffered with a case of Eczema of the worst kind, my face and neck down to my shoulders were one inflammation, was not able to see out of my eyes for quite a while, and was unable to sleep for weeks, on account of the severe pain, which nearly drove me insane. My face and neck were swollen and made me look hideous. I hardly recognized myself in a mirror, and my friends would not have known me, only on account of my clothes and carrying myself.

Three doctors, of good practice, at different times were attending me, and not one of them could relieve me of my pain, swelling. and blotches. I gave all up. A friend advised me to try Curicura Remedies. I did, and there was immediately a great change, my shoulders and neck turning to their natural color. I used three bottles of CUTICUBA RE-SOLVENT, four boxes CUTICURA (ointment) three cakes of CUTICURA SOAP, and my friends and one of the doctors are surprised, and asked "Who cured you?" and I tell them quickly

Dr. A. Ausplund, a physician of Leadville, Colo., asserts that Officer F. Warren Flack, one of the drivers of the Anti-Monopoly Garbage company who was arrested several days ago on a charge of hauling garbage without a license, was given a hearing before Judge Gordon yes-terday afternoon. After hearing the case and the arguments of the attorney for state and defense Judge Gordon announced that he would reserve his decision until Mon-Flack was arrested by the special officer

employed for the purpose by the MacDonald company. He has been arrested for the same offense six times in a month. Warrants are now pending egainst Flack and another driver named Tom Bevins on the same charge. The case against Harry Dean, a driver

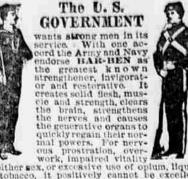

or the Anti-Monopoly Garbage company, who was arrested for assaulting Officer Carl Carlson of the MacDonald com-pany, was dismissed. Dean struck Carlson on the head with a beer bottle while the latter was seeking to arrest him. Davis Held for Trial.

Davis, alleged utterer and passer of count, oit railway tickets which he disposed of to ticket scalpers, walved examination before Judge Gordon yesterday and was bound over to the district court bonds of \$1,500.

Mr. H. T. Shobe, 2704 Lucas Ave., St. Louis, Mo., says: "My daughter had Eczema, which her head and spread to her face. She was treated by physicians and taken to celebrated health springs, but only grew worse. Many patent medicines were taken, but without result, until we decided to try S. S. S. A dozen bottles cured her completely and left her skin per-fectly smooth. Not a sign of the dreadful disease has ever returned."

Photogravures of the Exposition

No exposition has excelled the Trans-Mississippi in architectural splendor and artistic beauty—yet before the snow flies it will be only a memory, were it not for the aid of the photographer's art. In all its varied beauty, the splendor of the Grand court and the fun of the Midway-all the many scenes of the Exposition have been reproduced by

THE HIGHEST PRODUCT OF THE PHOTOGRAPHER'S ART—THE PHOTOGRAVURE

These are from the work of Mr. F. A. Rinehart, the official photographer of the Exposition and are more artistic and beautiful than his photographs. A photogravure is a work of art which anyone will be glad to frame. They are $10\frac{1}{2}x7\frac{1}{2}$ inches and about 100 views in all will be published, so that no
