thing be done to assist the livery stable NEWPORT, R. I., Aug. 16.-The annu lawn tennis tournament began here toda NEWPORT, R. I. Aug. 16.—The annual lawn tennis tournament began here today, with fify-three contestants. The doubles match, east against west, was the match of the day. Wrenn and Whitney repre-sented the former section against Ward and Davis. The eastern pair were picked as winners, but the westerners put up a surprisingly strong game and took the first two sets before their opponents reached their form. In the third set the eastern team improved materially, but lost again in the next.
The best single match was between Bel-den of Minneapolis and F. R. Marvin of Harvard. The latter played better than the score indicates. The score follows: Preliminary round: Avery beat Keyes by default; Belden beat Marvin, 6-2, 6-2, 6-2, Clothler beat Stille, 6-4, 6-2, 6-4; Bramhall beat Wheeler, 6-1, 6-3, 6-2; Ewer beat Cooke, 6-2, 6-2, 6-4; Brownell beat Emery, 6-4, 6-3, 2-6, 6-0; Carleton beat Whitbeck, 6-1, 6-4, 6-1, Codman beat Cross, 5-7, 6-3, 7-5, 6-3; S. Dubles: East against west. Ward and keepers of this city in the disposition of today stable refuse. The inspector certifies to the fact that the owners of stables are handicapped for want of a city dump or some other place where they may haul unmolested. Further than this the inspector asserts that complaints are made at his office daily by residents who object to having stable refuse dumped in certain localities. In closing his report the inspector stated that the liverymen appear to be willing to haul to any place designated by the city, provided they may do so without being interfered with. Finally the suggestion is made that the city acquire a dump in order to put a stop to the complaints of property

owners in different parts of the city. The recommendations made by the inspector show that he is ignorant of what is going on, or else he is negligent in the discharge of his duty. The records show that for months past, in fact for a year or more, the city has been paying Pete

Lenagh, the city scavenger, the sum of \$20 a month for the privilege of using his dumping ground. Lenagh has been drop-

ping around to the treasurer's office one month and drawing his double eagle from the city, but has not been giving anything in return. It appears upon investigation that when complaint was made a year ago about Lenagh dumping night soil into the sewers he secured access to a point on the river near the foot of Missouri avenue by paying \$5 a month for the privilege of passing through certain property. This was too much for Lenagh to stand alone, so he

turned around and worked a deal through the council whereby he is to be paid \$20 a month by the city for a public dumping ground, with the understanding that liverymen were to be allowed to use the dump. Owners of stables make the assertion that Lenagh keeps the gate to this dump locked so that no one but his own drivers cau enter, thus virtually compelling the people to employ his men to remove all refuse. at the time that citizens were to have free access to the ground at all times. One liverman said last evening that he was willing to haul the refuse from his stable to the city dump or any other point designated, but he did object to being compelled to hunt up washouts, etc., or go away out into the country with his teams in order to get rid of the stuff when the city is paying Lenagh for the use of his
