BOARD WILL MAKE NO CHANGE

Last Site Chosen for High School Building Likely to Stand.

NO APPEAL FROM DECISION EXPECTED

Steps Will at Once Be Taken to Purchase More Ground Adjoining the Site So as to Provide Adequate Entrances.

"You can quote me as saying that the site chosen at the Board of Education meeting Friday night for the new High school building will stand and there will be no reconsidering of that action this time," said the board member who voted to locate it. He was quoted yesterday, and he added further that he was quoting the sentiments of the other three directors who voted for the First avenue location.

It is understood that the board will at once take steps to secure an additional acre of ground adjoining the site by either purchasing or condemning that amount of the Shugart property adjoining on the east. With this extra ground there would be ample room for the plans already drawn and approved. Twenty-five feet additional would allow for two approaches of ample width to the side entrances.

While Member Moore does not approve of having the High school immediately opposite his private residence, still it is not thought he will actively oppose its erection. He is feeling more or less pleased that it was removed from the possibility of being located adjoining the Grand hotel.

Member Stewart is still feeling confident that another site will be selected at the general meeting of the board in February, but the four members who voted to locate it on the Treynor and Deming properties on First avenue say otherwise. As far as can be learned there is no talk of anyone appealing from the board's selection.
