

Holt Countyans See Arkansas Snow!

ROCK FALLS—Your reporter last week definitely peeked around the wrong corner looking for spring.

Accompanying her brother, Alden Breiner, and daughter, Lada, she set out happily on the way to Arkansas Wednesday morning, March 12, to visit their brother and uncle, Don Breiner, and family. Thinking they would be enjoying warm spring weather down there, they were surprised in Missouri. They were met by a raging snowstorm. Visibility was almost nil at times and traffic moved at a snail's pace.

This condition prevailed all the way to Winslow, Ark., and also throughout most of the night.

Inquiring at a filling station, a friendly young man who lived near the Breiners escorted the storm-weary travelers to their destination.

There was an estimated six-to-eight inches of the heavy wet snow in that vicinity with a possible 10 inches in places. The white stuff's stay was of short duration, however, and by noon of the second day it had nearly all melted.

Folks in that area said they had lots of snow during the winter and rather cold temperatures. Normally they would have had their truck plowing done by this time, whereas they are just getting ready to start.

Filled dams and ponds were evidence of plenty of moisture.

The party returned home Saturday evening somewhat bewildered, but happy to find that there had been no new snowfall during their four-day absence, and wondering if it might be spring in Alaska.

Gift Of Spring

March may be roaring like a lion outside your house, but a bowlful of pure yellow daffodils to brighten your living room is all the promise you need that Spring is not far away. Their warm, sunshine color is the best possible tonic to wipe out the last bit of dullness in tag-end Winter days. The arrangement shown here, created by Allyn Wayne, official designer for the Florists' Telegraph Delivery Association, is an exotic treatment of this rather unsophisticated flower and is achieved in part by the low Oriental container and partly by the unusual bend and curl of the leaves. The secret for the latter is a fine florist wire inserted the entire length of the hollow leaf and then bent to the desired shape. You can do this also with the hollow stem of the flower using a little heavier wire. Try it yourself!—And remember, daffodils are plentiful and inexpensive this time of year and make welcome gifts on both the sad days and glad days. In scores of handsome arrangements, they can be wired any place in this country or overseas through your FTD florist.

No Need For... Continuous Advertising!

PREACHERS
Should preach only one sermon or so a year. People are against sin, anyway, so why harp on it?

TRAFFIC LIGHTS
Should be turned off at dangerous intersections to save electricity. Everybody knows it's a dangerous spot and that is sufficient.

TEACHERS
No need to review lessons. Tell the children just once and they'll never forget.

HIGHWAY POLICE
Stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and should obey.

OUT OF TOWNERS
That advertise in the local paper and mail order firms that send out catalogs are wasting their money. Everyone knows what is sold at stores in town and they'll shop at home.

BUT
If you are one of the foolish kind—like the Notre Dame cathedral that has stood six centuries but still rings the bell every day to let people know it is there—and believe in continuous, profitable advertising, then you will advertise in . . .
