# Timely Comment

Concerning the Conduct of O'Neill's City Affairs During the Past Two Years by

## The Schaffer Administration

We are proud of the record of the Schaffer Administration in the conduct of the City of O'Neill's business and domestic affairs during the past two years. Sensible administration and sensible spending have enabled huge sums to be saved.

The Schaffer Administration pledged economies and we are certain now that we can reduce the tax levy for municipal purposes one mill during the new fiscal year.

We will have approximately \$36,000 on hand in the city treasury April 1, 1958, compared to \$25,000 one year ago (when the Schaffer Administration completed its first year in office). When the Schaffer Administration took over the reins of O'Neill city government May 1, 1956, the city's financial position was at a low ebb.

We have effected savings in almost every phase of city government during this two-year period, as vividly revealed by the auditor's reports.

This record could not have been brought about except for the splendid cooperation of the citizens of O'Neill, your reasonable demands and your helpful suggestions. We solicit and appreciate your comments and criticisms because we are all interested in making O'Neill a better city and a better place to live.

We're grateful for your support and help in the past and, if we all work together, O'Neill will march forward and clinch its role as "the best darned town in the state".

We urge you to exercise your American heritage of voting, and we urge you to—

# No Need For... Continuous Advertising!

**PREACHERS**  
Should preach only one sermon or so a year. People are against sin, anyway, so why harp on it?

**TRAFFIC LIGHTS**  
Should be turned off at dangerous intersections to save electricity. Everybody knows it's a dangerous spot and that is sufficient.

**TEACHERS**  
No need to review lessons. Tell the children just once and they'll never forget.

**HIGHWAY POLICE**  
Stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and should obey.

**OUT OF TOWNERS**  
That advertise in the local paper and mail order firms that send out catalogs are wasting their money. Everyone knows what is sold at stores in town and they'll shop at home.

**BUT**  
If you are one of the foolish kind—like the Notre Dame cathedral that has stood six centuries but still rings the bell every day to let people know it is there—and believe in continuous, profitable advertising, then you will advertise in . . .
