**American Republic  
Plan Is Available**

The American Republic Insurance company plans of protection are to be made available to Holt county residents. This news was brought by Alfred H. Miller, Nebraska manager for the company.

According to an announcement appearing on another page of this issue of The Frontier, these famous protection plans will be available to all county residents who qualify. Mr. Miller has stated that a drive will be conducted in the county to contact all city and rural residents so that a full explanation of the plans may be provided.

The American Republic protection plans provide help against the expenses of hospital, doctor and surgeons' bills as well as financial help when sickness or accident strikes. They are written by the company which has a record of twenty-nine years' service to American individuals and families.

As hospital and medical costs have risen the need for insurance protection against these expenses has become more apparent. Over 100,000,000 persons in the United States now have hospitalization protection and slightly more than half that amount have medical care protection.

Mr. Miller has advised that many thousands of Nebraska residents are now protected by American Republic Insurance company plans. "Because these plans can be fitted to nearly every individual's and family's needs, it is important that every county resident have the opportunity to have a full explanation of the plans," Mr. Miller said.

On the basis of other communities' participation in the American Republic drives, it is expected that the local participation will be quite heavy, according to company officials.
