GLEANINGS from our Heritage of Freedom

"We owe it to our ancestors to preserve entire those rights which they have delivered to our care; we owe it to our posterity not to suffer their dearest inheritance to be destroyed."
The Letters of Junius.

In our heritage of good living—beer belongs. As a beverage of moderation it contributes to friendly occasions and moments of good cheer. Enjoy it!

DEDICATED TO DESIGNING A BRIGHTER TOMORROW

When one turns the switch to operate his electrical appliances and equipment, not too much thought is given to the many hours of carefully planned engineering which goes into the development and operation of your reliable electric service. It seems appropriate during NATIONAL ENGINEERS WEEK to pay tribute to the capable staff of engineers serving you at Consumers Public Power District and to their colleagues nationally, all of whom are at work designing a brighter tomorrow for you.

Consumers Public Power District's Nuclear Power facility under construction at Hallam, Nebraska, is a shining example of how scientific engineering achievement contributes to the betterment of all.

Not only will the plant provide an addition to Nebraska's supply of low-cost electricity, but it will open the door to new agricultural and industrial progress throughout the state—a bonus in better living for all.
