Wings over Jordan Chorus Coming Here Negro Singers Making Goodwill Tour

One unit of "Wings Over Jordan," the world's most renowned Negro choir, will make a personal appearance in concert at the O'Neill high school auditorium on Friday, May 13, at 7:30 p.m. The group is sponsored by the official board of the Methodist church of O'Neill.

Radio and recording artists, veterans of entertainment for troops in two wars and stars of song from Carnegie Hall to Hollywood Bowl, the "Wings Over Jordan" singers present spirituals that actually tell the story of the American Negro through music.

Two units of the choir are now on goodwill tours of the country to foster friendlier relations between America's dominant races and to combat the influence of communism in America as it affects the Negro American.

"Wings Over Jordan" has carried the dream of the founder, Rev. Glynn Settle, the Cleveland, O., clergyman, far from Jordan, and far from the shore of Lake Erie, since the "Wings" have in recent years spanned two oceans and three continents.

An overnight success after their first appearance in 1937, the songs of faith and inspiration were heard weekly for 12 years over the Columbia Broadcasting system, until the group was chosen by the president of the United States to sing for World War II servicemen along Europe's battlefronts.

During 10 months overseas in Italy, France, Belgium and Germany, the choir received two citations for outstanding service, and was the only choral group to visit the battlefronts.

The original commercial choir of 37 voices has been divided into three goodwill choirs permitting many more people to hear spirituals and understand Negroes better.

In answer to requests for personal appearances, "Wings Over Jordan," has appeared in 45 states, averaging over 50,000 miles a year, giving concerts night after night to audiences which have been called "universally enthusiastic."

Early this year the choir appeared in Japan and received further citations for entertaining troops and fostering goodwill through personal appearances in the Orient and on the Japanese television network.

The sponsors have expressed confidence that, with this group's fame going ahead of them, the auditorium will be filled to capacity for the concert. There is no admission charge. A freewill offering will be received.

It's The Hardtop with Four Doors!

Here's the new hit in hardtops that's taking the country by storm—Buick's pioneering and pace-setting 4-Door Riviera. The "convertible" look, with no center posts in the side-door areas—but with separate doors for rear-seat passengers. Shown here in the low-price SPECIAL model—also available in the high-powered CENTURY Series. Both now in volume production to insure prompt deliveries.

Just wait till you switch the pitch of Buick's new Dynaflo*!

HOW would you like to take the wheel of a high-powered Buick and feel an experience you never felt before in any earth-bound vehicle?

Not only do you take command of record-high Buick V8 power—and the most envied ride in the industry—and the brawn and heft and luxury of a truly solid automobile.

You also call the turn on twenty propeller-like blades deep inside a wondrous new Dynaflo that's patterned after the principle of the modern plane's variable pitch propeller.

You hold these blades in their high-economy angle when you press the pedal in the normal way—and you get a lot more miles from a tankful of gas.

You switch the pitch of these blades to take-off position when you press the pedal way down—and you get spectacular action instantly.

Don't take our word alone that this is thrilling beyond all previous experience. Talk to anyone who's tried it. Or, better yet, come try it yourself. That way you can learn firsthand why Buick sales are soaring to all-time best-seller highs. Drop in this week, won't you?

*Dynaflo Drive is standard on Roadmaster, optional extra cost on other Series.
