Nobody Suggests Lower Prices

By ROMAINE SAUNDERS, Retired, Former Editor The Frontier

LINCOLN—It is the fashion to be identified with an association of fellow industrialists, With the exception of railroad section hands everything has its organization that must have a convention at

Gents from prairieland's cow country came to town early in June for a lovefeast of their own. Cattlemen want to run their business without government interference or handouts.

Action was also taken, via talk, to promote larger consumption of beef, but it was not suggested it could be brought about by lowering prices. The evolution of the most important industry of prairieland since the riders for Lamont & Richards trailed a herd of fifteen hundred head from

that long trail.

Romaine Saunders Arizona to Holt county in the long ago has brought about changes. But the most accomplished chef in his modern kitchen can not prepare a roast quite equal to what a booted cowboy roasted on the end of a prong at the evening campfire on

Chaps like Charley Blaben, Andy Potter, Riley Bros., Corgal Graham, McClure & Gardner were in the picture on our grasslands before the livestock associations were thought of. At least one of them. The Riley Brothers' Shorthorn ranch down toward Swan Lake, has survived the wreck of time with no association connection, now the property of a daughter of Will Riley and her husband, Mr. and Mrs. Tom Baker.

The alummi was conceived to keep alive the memory of school days when life's gathering shadows hang low on the distant horizon, Memories of the classmates, of the teacher, of associates of other years, touch human emotions and we live again in the dreamland of youth.

With Editor Gerald Miles placed at the head of the city Chamber of Commerce and Editor Cal Stewart having saved to north Nebraska citizens their only passenger and mail train, O'Neill newspaper publishers stand out as community notables and perpetuate what began long ago. Three newspaper editors, all of The Frontier, had held the post of postmaster in the old town. Editor Happy of the Independent has been fire chief, may continue to occupy the seat at the steering wheel of the fire extinguisher, and now has assumed the duties of president, chairman or chief functionary of the Chamber of Commerce.

The tide of national life is swayed by the gentle touch of soft feminine hands as nature's elements are swayed by hurricanes coming out of The one a force of ethical persuasion, the other a crushing blow. What the United States weather bureau funtionaries mean by attaching names to these wild disturbances of the elements is not clear but they now have the hurricanes identified with such names as Alice, Brenda, Connie, Edith, Flora, Gladys, Hilda, Ione, Martha, Nelly and some others. The announcement that Nelly is coming may mean a big blow is on the way.

business. But still it has a long way to go.

Editorial . . .

Until the next assembly of prairieland statesmen change it again the primaries will be held in May. It is claimed for the primary plan of selecting candidates for public office that "the people" have the voice in who shall be candidates. That was true to a greater degree under the precinct caucus and county convention plan of selecting candidates and those who were being considered as fit for the office to which they aspired had to be the best. Under the primary any nitwit who has the filing fee can get his name on the ballot and too often succeeds not only in winning the nomination but is elected to office for which he is wholly unqualified. The primary, too, adds to the taxpayers' load the cost of two elections instead of only one and represents less than a fourth of that great element that demands to have their say. "the people." In Swan precinct, Jesse James, Rufe Shaw, Johnny Kennedy, Art Doolittle and Romaine Saunders comprised the election board-five votes; Jay Roblyer, Howard Berry, Pat Kennedy and John Bower-four votes, nine in all at the primary out of a possible 100 voters in the precinct. Ten dollars a vote charged to Holt county taxpayers. The same in Wyoming precinct, in Sand Creek, in Josie, and all over the country.

Two million people visit the Skansen zoo in Stockholm during the year. . . The elephant is a strict vegetarian, eats a half-ton of hay a day and and drinks 50 gallons of water, and may weigh six tons. . . Nebraska has a Swan lake 25 miles south of Atkinson: Swan Lake, N.M., is 30 miles north of Santa Fe. . . Delinquency on the part of the young is not so much the result of delinquency on the part of parents but lack of means or the disposition to furnish their children with a little "spending money". . . Congress says \$1 an hour is a minimum wage. Some guys at work are hardly worth it. . . The Russian delegation to the United Nations assembly at San Francisco meeting June 20 took over a surburan mansion screened by a forest, but did they bring this time another ship load of vodka?

A native daughter of Nebraska who now faces the gathering shadows of life's sunset at three score and ten years, a busybody with the pen of a ready writer, once a prisoner of the Muscovities as a spy from Yankeeland, has a strange urge to go again to Russialand, this inspired no doubt by being entertained the other day in Washington by a suave gent from beyond the iron curtain. Would the entrance to a dungeon await her?. . . Another prairieland lady has completed 55 years teaching in the schools at Ashland. The retiring teacher. Duty von Mansfelde, may have found inspiration through a name. Duty called her to the school room for over a half a century and there must be many who came from the Ashland schools who can point to her as their life's guiding star.

His name is Ranson Armstrong. He stood at melons. Getting you a melon? No. not while they are priced at three dollars. Then Armstrong, who as a boy lived near Goose lake in Holt county, gave me a line of talk about the melons they raised up there. And as he discovered that he was confronted by a Holt county guy there was a mutual exchange of word pictures of pioneer days. Boyhood memories! And what is so vivid as
