Keep Cool With Fresh Lemonade

Summertime calls for tall cool drinks when friends drop in for the afternoon or evening. And that's when a pitcher of refreshing lemonade is most welcome. It's wonderfully thirst-quenching and rich in Vitamin C—the vitamin that your family needs each day, especially in hot weather. Plain or dressed up with fruits, it's a hot weather favorite. Don't forget to serve fresh lemonade to the children when they clamor for something cold to drink—they love it!

For a special taste treat, peel one lemon for each serving (being careful to peel it as you would an apple, with the peel kept in one continuous spiral). Save the peeling, then slice each lemon thinly. Spoon two tablespoons of sugar over the lemon slices, crush slightly and let set for ten minutes or so. Add one cup of water for each serving, stir and pour into glasses that have been filled with the spiraling lemon peel and ice cubes. The slices and peel give lemonade a delicious fresh lemon flavor—looks good too.

Following the program a social hour and lunch were held in the church basement.
