## All Want Peace on Own Terms

By ROMAINE SAUNDERS, Retired, Former Editor The Frontier

LINCOLN-The world's great met in peaceful | marching armies since William Tell knocked the

block off of the tyrant, Giessler. The Swiss are at peace with the rest of man-

kind because they are not interested in the affairs of other nations. Did the representatives of the leading four powers at the Geneva peace conference open their souls to the music of brotherly love floating in from the Alps and will the guns and bombs and bugle call to battle now be silenced? Who knows? Out of this latest world council wooing the way of peace does there lurk within the shadows another sinister figure that will mount the pedestal and drive the plowshare of ruin across

fair lands? The centuries have

been soaked in human blood. I stood when a youth in the long ago in front of the Bentley store and bakery in O'Neill on East Douglas street and listened to Mr. Bentley as he talked of the ways of peace and safety. It was then 25 years since the blue-clad and grey-clad soldiers had laid aside the musket. Mr. Beatley was sure there would be no more war. Some 10 years later we were charging up San Juan hill in Cuba, driving Spain from the islands of the Orient, swinging the battleax in the Boxer uprising; and then South Africa plunged into a blood bath, Mexico and South American lands pulling the trigger.

This generation has heard the bugle call to two global wars and a third of equal significance. Have a million desolated homes in America satisfied the demands of war? We pretend to wantpeace. Every fellow wants it on his own terms. "Thou wilt keep him in perfect peace whose mind is staid on Thee."

Forty-six years ago today, the day this is written, a babe was born in a home in O'Neill. Today that babe is a mother in her own right with two boys, age 6 and 4; her husband is a minister of the gospel at Oshawa, Ont., Can. Boarding a train at Oshawa, that mother, who 46 years ago was a babe in a home on South First street in O'Neill, less than 24 hours later got off the California Zephyr in Lincoln, spent three days with some of her tribal group in the capitol city of her native state, boarded the Zephyr again past midnight and took off for California points where others of the tribal group are, moved east again for a stop in the mountain fastness of New Mexico, then on the Santa Fe Chief headed

world peace will result.

The dawn of a new day inspires the living with Switzerland, a land and a people unknown to the buoyancy of youth and adorns the landscape with varied tints, scatters dewdrops like diamonds over roses and hollyhocks and bathes lawn and bush with it cooling moisture. Birds sing and take to the air on soaring wings; the rooster crows, hops from his perch and struts before his harem. Before the sun's glaring beacon has spread its canopy of light across the firmament the curtain of blue in the western sky holds a matchless charm if you have the ambition to roll out of bed when breaks the welcome light of morn." And when the vivid blue of morning, the west has turned to gold that will soon give way to evening shadows and we sit in the twilight to dream again the old dreams and lay upon memory's altar one more tribute to life's tenderest emotions. The passing of the day seems symbolic of our earthly existence—childhood and youth, mature years with life's struggles, old age amid the gathering shadows of the journey's end. The day is donesunrise, high noon, sunset, sunshine and shadow, smiles and tear, joy and pain, the night passes and here we are again ready to face it all another day.

> Others than those of the family connections sense a void in their lives as the result of the passing of Herb Hammond. But there is one in that desolated home whose feelings go deeper and who will be haunted by nameless longings. I have had business dealings with Herb and found him a man of his word. He had a way of life and accorded to others that privilege.

Within less than a year there have come out of Sioux City stories so revolting as to be almost unbelievable. But the violated and battered bodies of an 8-year-old boy and 2-year-old girl have told the horrifying details. The kidnap-slayer of the little girl has not been found; the guilty one who beat the little boy to death nearly a year ago is now in an Iowa prison for life on conviction of second degree murder. If his vicious blows that killed a child are second degree murder, what in heaven's name is first degree murder! Juries and courts encourage just such evil deeds when prison terms are decreed instead of the electric chair. Courts and juries should have some of the zeal of police in dealing with the abandoned criminal.

Another is gone whose footsteps echoed on the stairs at the First National bank building for half a century. Herb Hammond, one of a long procession that daily ascended those steps to the duties that awaited them at their desks; Bartley Blaine, Judge Roberts, county officials before there was a courthouse; Henry Murphy, Tom Golden, Arthur Hammond, father and predecessor of Herb in the abstract busisess; Mike and J. J. Harrington and their sister, Tess Harrington. That stairway and the offices to which it directed those footsteps made history. Irrigation schemes, building plans, political plots, legal matters, land deals and at least one romantic kiss at the head of the stairs. If the walls could speak, what tales could be told!
